Western Samoa's 35-12 victory means that Wales are knocked out of the cnp and will have to pre-qualify for the next tournament. Reports, pages 32 and 36 Delors calls for a 30-nation

EC superpower

WITH less than two months ways insisted this would only before the Maastricht summit, Jacques Delors, the European Commission president, has called oo the European Community to prepare for an expansioo from 12 members to 24, or even 30. He also said the EC must turn itself into a "political superpower" with a

new treaty oo political union. His call was echoed at the weekend by Helmut Kohl, the German chancellor, who said the community must speak with one voice in foreign and ister, said he hoped the EC could achieve economic and political union in the form of a

federal state by the year 2000. M Delors' call for a large community will please Britain, which has long shown more interest in widening the community than in deepening the co-operation among the current members. Britain has insisted that the EC cannot be an exclusive club and that the treaty on political union should prepare the ground for

new members. Britain also agrees with Herr Kohl that the EC should speak with one voice. But there are sharp differences with Bonn over how that unity should be achieved. Herr Schaeuble's remarks on a federal Europe will raise hackles in London.

M Delors has previously Leading article, page 15 called for an enlargement of Economic View, page 23 the community, but has al-

be possible after political and economic union. He told the German magazine Der Spiegel that if the EC did oot seize its opportunity in the next few weeks and sign a treaty which would lay the foundations of

munity might disintegrate. M Delors said: "If we do oot succeed with political unioo ... then the historic decline of Europe which began with the first world war will resume."

superpower status, the com-

He also said in an article published to the Paris-based magazine Belvedere yesterday that the EC should start work immediately after the Masstricht summit on "a oew political and institutional programme for a structure comprising 24 or 30 countries". But he was ambivalent about whether this could be achieved by simply expanding the EC.

Delors: expansion plan will please Britain

### ments or new information. for the night before beginning spend the night just within the It may be balmy, but Christmas beckons

By Alan Hamilton

EHEU, fugaces labuntur anni. Can it be that time already? Workmen were spotted in Regent Street last week crecting Christmas decorations, and that on a day when the weather was passably Indian-summerish, and the last of the late-booking swallows were still thumbing the pages of winter sun brochures.

Cricket is gone, and football has been up and running for two mooths. But there are two weeks of British Summer Time remaining, temperatures in London yesterday were four degrees above the seasonal average at 18C (64F). The seaside is still bearable, even balmy in the still automn mists.

Yet this is not the year's first sighting of an ever-more-premature early Christmas newspaper story. Io early September reports appeared that electrical contractors had been seen in Plymouth

erecting festive bunting in temperatures chain launched its Christmas and New of 80 degrees.

The erecting of Christmas decorations out of season, it seems, is not to be taken as a sign that the season of goodwill and spending is becoming so extended that it meets itself coming back. After all, those perennially reliable harbingers of autumn, the Blackpool illuminations, are being strung up oo the lampposts so early in the summer that the party conference ageodas have not even been settled.

There are still 62 days in which to help pull high street stores out of their slough of recessionary despond. But the Christmas industry is already up and running. Seasonal cards have been in stationery chains since early September. Supermarkets are well stocked with Christmas puddings and wrapping paper.

Travel operators are already in full cry. Last week the Trusthouse Forte hotel

Year brochure, promising non-stop merrymaking at more than 230 hotels from £49 per night. The Ritz in Piccadilly has announced its festive package, at the rather more upmarket price of £150 per double room per night.

Hogmanay fireworks and piper included. There is, however, no immediate evidence that Christmas is coming sooner this year. We are, as ever, boodwinked by the weather over a celebration which has its pre-Christian roots in the winter solstice and the aboutturn of the seasons back to spring. Our climate dictates perversely that the British depth of winter tends to occur somewhat later, in January or February.

What has confused us this year is all this unseasonal rugby filling our television screens. For heaven's sake, it's Christmas first, then Murrayfield.

### Tories to apply 'subtle pressure' over alleged BBC bias

Patten: speech not meant

have decided to apply what they call subtle pressure on BBC programme-makers to eradicate what they claim as unacceptable instances of bias in news coverage.

Chris Patten, the Tory chairman, has decided against a formal protest of the kind Norman Tebhit made when he occupied his post. Instead he is trying to shame those he sees as culprits into giving the party fair treatment.

Behind Mr Patten's call to the

Tory rank and file to "jam the switchboards" is the knowledge that telephone complaints to the BBC are recorded in a duty log, which names the programme at issue, and is circulated between heads of department and senior management "That is the kind of pressure that will be effective, rather than official complaints," a party source said yesterday.

The BBC yesterday strongly defended itself against

The Tories are not alone in complaining of BBC coverage. Labour does it, too, report Philip Webster and Melinda Wittstock

charges. There was resignation at the latest government assault, culminating in John Major's complaints against the BBC at a reception at last week's Tory party conference in Blackpool.

Some in the BBC cite it as proof that the election campaign is under way, and it was disclosed that Labour, ton, had lodged a complaint over the corporation's coverage of its conference. The BBC says it receives as

many complaints from Labour Supporters claiming pro-Tory bias as it does from Tories accusing it of being pro-Labour. "The calls we have received during the course of the party conferences have been evenly balanced," the BBC said. The corporation said complaints

from Tory supporters have not increased since Mr Patten's call on Friday. "Overall, we are satisfied that our coverage was fair and accurate. We diligently monitor our output on a daily basis to make sure it is fair." With both main political parties

campaigning, however, the BBC is coming under increasing pressure from all sides for favourable coverage. "It is familiar territory," the spokesman said. Tory sources have singled out the Nine O'Clock News and Today

carrying out extensive pre-election

as the main offenders. Sources close to Mr Patten were at pains to emphasise yesterday that his speech was not meant as a generalised attack on the corporation but

Patten's attack came after many representatives at the conference complained about BBC coverage.
A senior Tory source said: Nobody has any complaint about

Newsnight or John Cole [the BBC's political editor]. We know we will face tough interviews from Jeremy Paxman or Peter Snow. So will Labour. That is fair. The problem for us as a party comes when we are not subjected to the same treatment as the other side."

Senior ministers were privately complaining for much of last week about the BBC's coverage of the health service dispute. It came to a head when Mr Major voiced his disapproval at a party given by Jeffrey Archer and attended hy John Birt, deputy director general of the BBC, in Blackpool. Mr Major is reported to have told BBC executives that he supported

on the way certain programmes the BBC but felt that some of its recent reporting had been unfair.

Tory sources said that Mr

The last straw for Mr Major and his colleagues was the main evening news coverage on Thursday of the fightback speech by William Waldegrave, the health secretary. The BBC report on the speech and its reception at the conference was followed by criticism of the reforms from health service man-

> The absence of any balancing comment supporting the reforms of any critical analysis of Labour's alternative infuriated the Conservatives. Their dismay was refuelled on Saturday when the BBC, but not 1TN, ran comments from Gerald Kaufman repeating the privatisation allegations. Why on earth should the BBC be interested in the shadow foreign secretary's views on health?" a source said yesterday.

agers and patients.

Labour was contemptuous of the Conservative attacks yesterday. David Hill, director of campaigns and communications. said Labour had complained to the BBC during its conference the previous week over what it saw as excessive coverage of the internal dispute on defence on days other than the Thursday on which the defence debate took place.

"We regularly complain to both sides," he said. "There are more complaints to the BBC because they have more outlets. We go to the editors of programmes, occasionally the controllers and very occasionaly right to the top. It is our job to complain if we feel

things are not done fairly."

Mr Hill said the Conservative complaints were another example of the government trying to hully the broadcasters. They clearly think the BBC ought to be more of a state broadcasting corporation. We have every confidence in the integrity of the BBC and independent television."

### The day the king sported a frock

By JOHN SHAW

KING Edward VIII's youthful frolics in a frock with officers of HMS Repulse have come to light in photographs to be sold at Christie's South Kensington next month.

They show the king with wig and women's shoes in a shipboard one-act farce entitled A Bathroom Door staged as a private entertainment during his tour of West Africa and South America in 1925. The king, then Prince of Wales, played a young woman and four officers from the ship's company took supporting roles with George Ward-Price, a journalist from the Daily Mail, who accompanied the royal party.

The trip was immensely successfully. Repulse sailed down the west coast of Africa, stopping at various colonies en route, arriving in Cape Town in April. The prince then toured South Africa and sailed on to Argentina before returning home in October.

He visited 45 countries and travelled a distance of 150,000 miles on what was described as his last official overseas tour. The photographs have the air of informal snaps taken when Edward was "off duty".

They are being sold with a programme autographed by statiooery bearing the Prince of Wales feathers. The King signs as "Edward P". They come from a woman

in Essex whose family has owned them for many years. They are expected to make up to £400 at auction on Novem-

discovered. Two fires were started at the site last week. Last night residents, who petitioned the local authority in 1988 to close down the plastics plant, said they had been ignored.

### **Queen's** speech leak condemned By PHILIP WEBSTER CHIEF POLITICAL CORRESPONDENT

THE government yesterday deplored the leaking of an early draft of the Queen's speech, to be delivered at the state opening of parliament on October 31.

John Major has ordered a rigorous enquiry into the latest and most sensitive of a spate of disclosures of secret government papers. Sir Robin Butler, cabinet secretary, will try to find who sent the draft copy, dated September 9 and since amended by the cahinet, in a brown paper envelope to John Prescott, Labour's transport spokesman. The Labour party leader-

ship appears to have been nervous about the propriety of allowing the draft to progress further into the public do-main. The speech is read ont by the Queen in the Lords. However, Labour sources alleged that the leak proved that the government was reluctant to put privatisation high on the agenda in the last session of Parliament The original plan was to

have a bill paving the way for the privatisation of British Rail and coal in the Queen's speech. However, ministers have since dropped the hill as part of a move to pare the last programme. Every priority is being given to getting through the hill bringing in the new council tax to enable the government to fulfil its promise of scrapping the poll tax on

April 1, 1993.
The leak confirms the main planks of the programme as being legislation to bring in the council tax, implement the citizen's charter by improving the regulation of the utilities forcing schools to publish exam results and truancy rates and ending the distinction between polytechnics and universities.

#### equal terms at all stages of Report inaccurate A report in The Sun about fighting between British and German veterans at a second world war memorial service to mark the 50th anniversary of the Battle of Crete was inaccurate, the Press Complaints Commission said today. The Sun's reporter in Greece

#### admitted that veterans could not have been involved in the brawling, which happened before they arrived in Crete, the commission said.

Plea for children The international system for disaster relief is failing to respond to the needs of young victims, Save The Children says in its annual report "If there is to be a new world order for children it must include better protection during emergencies." Nicholas Hin-ton, director general of the charity said. "Children's rights to food, shelter and health must be said to the health must be maintained in

#### such circumstances." **Boxing safety**

Robert Atkins, the sports minister, is to meet the British Boxing Board of Control and Peter Hamlyn, the neuro-surgeon treating Michael Watson, the boxer who suffered brain injuries, in London on Wednesday to explore moves to make the sport safer. Watson, who is still on a ventilator, was reported yesterday to be in a stable condition. Mr Atkins wants to improve medical supervision at fights.

#### Chain reaction Town hall staff in Gloncester

are in be paid 15p a mile for getting on their hicycles as part of a scheme by the city council to encourage people to leave the car at home. Under the scheme staff will be able to get interest free loans to buy bicycles. A spokesman said: "It will save us money in the long run because we will save on the mileage rates paid to staff for using their cars on council business."

### Ford unions demand 8% but put priority on jobs

UNION leaders will today security their greatest priority which Ford has invested £500 demand increases of between in the pay negotiations as long million, will power most of

manual workers at Ford in the to find profits. most important negotiations of the autumn pay round. Ministers eager to contain wage inflation know that the Ford deal sets a benchmark figure for the rest of industry

with dozens of wage agreements still to be negotiated for hundreds of thousands of workers in the weeks up to If Ford's blue-collar workforce wins pay increases above

the inflation rate, then negotiations in other companies and town halls are expected to use the settlement as a target.

The Ford claim is mild this year in comparison to pre-vious years in which Ford workers have enjoyed some of the biggest wage increases in manufacturing industry. Their two-stage deal in 1989 gave 10.8 per cent in the first year and inflation plus 2.5 per cent in the second.

Attitudes will be moderated this year by Ford's struggle to maintain sales in the recession. The company has lost sales so far this year of more than 101,000 cars worth £800 million at showroom prices.

Its main Halewood plant on Merseyside has been working on short time since the summer leading to fears that, without substantial increases in productivity, it could be a target for elosure Union leaders are expected to make joh

By KEVIN EASON, MOTORING CORRESPONDENT 6 and 8 per cent for 29,000 as Ford continues in struggle

The severe depression has put the motor industry on the offensive for the first time.

### Plastics blaze: a pall of smoke hangs over the recycling plant in Thetford Oxford scientists asked to help date iceman

By MATTHEW D'ANCONA

OXFORD university's carbon-dating unit has been asked by lunshruck University to date the remains of the prehistoric iceman discovered last month on a glacier between Austria and Italy. The Oxford team will determine the age of the body, which was found 10,500 feet above sea-level hy a holidaymaker visiting the Similaun Glacier in the Val Senales. The frozen body was originally

thought to be the 500 year-old corpse

of a soldier serving under Duke Fer-

dinand of Austria and the Tyrol. But

recent estimates suggest that the Similaun iceman is probably a Bronze Age hunter. Austrian archaeologists have discovered 70 artefacts near the site, including a bow-string, and fragments of a jacket and a pair of trousers. They believe that other bodies may be on the glacier, hut must await the spring for further exploration.

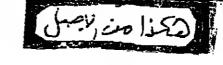

The discovery has been troubled y acrimonious disputes and scientiincompetence,

A diplomatic wrangle broke out last week when it emerged that the excavation site was 400 feet behind the Italian border, rather than in Austria as had been assumed. It was agreed that ownership of the body would be ceded to Italy, while Innsbruck university would take charge of the scholarly post-mortem. Transference of the remains 10

Innsbruck was poorly handled, causing the body irreparable damage. The exhumation of the mummified body from the glacier was carried out by forensic scientists and moun-tain rescuers who had little reason to suspect its value and antiquity. Film shol at the scene of the unearthing showed them hacking the body roughly from the ice, and archaeologists at Vienna university described the exhumation as "grossly negli-

At Innsbruck university the body was allowed to thaw for 48 hours before being refrigerated. A mildew which formed on its surface has now been removed, hut some permanent damage may have been caused.

Professor Werner Platzer, of Innsbruck university said he was looking forward to working on the project with the Oxford scientists and added: "In this field of research, Oxford is

### Funding for Aids 'linked to false forecasts'

land Klein, Arabella Polien. Tomasz Starzewski, Workers For Freedom, Nicole Farhi and Jean Muir. Ms Pollen's country and western rhythm ran successfully throughout

striped lodian blanket jackets and pretty gingham fullskirted frocks to evening separates. Betty Jackson's ladylike collection successfully launched the new long skirt, while Helen Storey, nominated in the Most Innovative Designer category at tonight's awards, was resourceful in her search for original, inexpensive fabrics.

### Catwalk is going out of fashion

By RAY CLANCY AND LIZ SMITH

SOME of the world's highest paid models fly into London today to take part in the fashion awards but they are accepting cut-price fees.

British fashion designers have never been able to afford the £5,000 that Linda Evangelista, from Canada. earns for a show. Tonight she will be taking home a much reduced £1,000 for modelling about ten outlits.

According to the fashion world, it is a sign of the recession-hit times. In Milan shows were using an average of t6 models against 25 in previous years. Observers believe that the stringent British attitude is set to take

Jasper Conran does not believe in paying models high prices to wear his clothes: in fact he does not use models at ali. He fits ali his designs for the actress Karrine Boorman, his sisterin-law. He says he is "very tired" of models who charge a fortune for stoniping up and down the catwalk.

The high fees add up to high price tags on designer clothes in the shops. This is what the models cost: Evangelista, Naomi Campbell, Claudia Schiffer and Cindy Crawford: 25,000; Christy Turlington Helena Christensen and Yasmeen Ghauri: £4,000; and Karen Mulder: £2,000.

### **Enquiry** after siege man killed

By Peter DAVENPORT

AN ENQUIRY into the fatal shooting of a gunman by police began yesterday amid shooting of a gunman by concern that the man had recently been released on bail by a court while facing fire-

arms charges.

Derek Wallbanks, aged 40, who had convictions for manslanghter and the attempted murder of a policeman, was shot dead after a seven hour siege on Tyneside on Saturday. It emerged yesterday that he had been arrested on June 14 for conspiracy to rob and firearms offences and was remanded in custody to appear before Newcastle magistrates on September 4.

He was given bail on condition that he reported daily to police in his home town of Consett, Co Durham, lived with his adoptive parents and observed a night curfew. On September 12 be broke the conditions and went on the

He was traced to Brunswick Village, north of Newcastle,

where the siege began. Yesterday Richard Coyles, vice chairman of the Police Federation, said it was outrageous that Wallbanks should have been granted bail.

In 1947 Wallbanks was jailed for five years for attempting to a constable and in 1982 was sentenced to 14 years for the manslaughter of a taxi driver in Epping Forest.

### **Thames** voices optimism

By MELINDA WITTSTOCK MEDIA CORRESPONDENT

THAMES Television executives were confident last night that they would regain their lucrative ITV franchise when the tndependent Television Commission announces the results of the Channel 3 auction on Wednesday.

Despite widespread industry upinion that Thames has lost out to Carlton Communications, which has most certainly submitted a higher cash hid. Thames executives believe they will beat Carlton on grounds of quality programming and management expertise. "A lot of people have written us off too early." Richard Dunn. Thames' chief executive, said

Thames, which delivered a ferocious critique of Carlton's programme proposals to the commission several months ago, said yesterday that it was likely its rival had failed to cross the quality threshold. But a Carlton spokesman said his eumpany "remains confident about the quality of its bids". Carlton is also bidding against TVS, which is seen as vulnerable on the grounds that it might have overbid.

### The burghers who want to end it all

By Douglas Broom, local government correspondent

cases of municipal euthanasia, a town council is boping to have itself abolished. All 14 members of the

councit at Horley, Surrey, were elected last May on a manifesto that contained a single promise: to abolish the council and throw themselves out of office as quickly as possible. They argued that poll tax payers in the town were paying twice for council facilities provided by both the town council and the local borough of

Reigate and Banstead. A desire to reduce poll rax bills and impatience with municipal duplication was credited with sweeping the 14 independents to victory, unseating Conservatives who had run the town council since 1974. Once in office, however, the independents found things were not as simple as they

had expected. Terry O'Neill, chairman of the recreation committee, said they first wrote to Michael Heseltine, the environment secretary, whu told them they should contact the horough council, which would pass their request for extinction to the

IN ONE of the few recorded local government boundary commissioo. The borough council told them it wanted time to consider the financial implications of abolition, and suggested carrying out a parish review of the whole area.

Then, as if things were not complicated enough, someone suggested leaving the whole affair to the new local government commission, which will oext year launch a fundamental review of local government structures. None of that cut moch ice

with the independents. Mr O'Neill said: "The borough council is just dragging its feet and wasting time. We wanted it all to be over by now, but it looks as though it could take years." His suggestion that the

Tories, who control the borough, were delaying a decision in the hope of winning back the town council at the next election, was dismissed as nonsense by Richard Bennett, Conservarive leader of the borough council. "We need to examine this whole thing very elosely. We cannot just take over the town council's facilities without risking charge capping."

### The world's finest laser technology runs on air

## Protesters fight road on stilts running through beauty areas

eavironment groups in fight- cil has been rent between the liams, whose grandfather, the ing a new road which it is prosperity the new road might late Viscount Clifden, lived at claimed will irretrievably damage some of Cornwall's finest gardens and landscape.

the A38 east of Bodmin are being opposed by local people and the Cornish Gardens Trust. The Countryside Commission has also expressed grave concern. Feeling is running high because the protesters argue that there is an alternative, potentially cheaper and far less scenically damaging route through largely exhausted china clay workings north of St Austell, which are considered a hlot on the landscape.

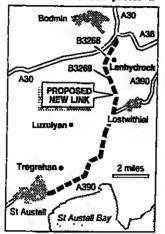

The new road would cut a swath across the edge of the fine garden at Tregrehan, rated grade 2 by English Heritage, bringing the permanent drone of traffic into an historic garden. Further north the new road would bring heavy traffic to the gates of Lanhydrock, one of the National Trust's most famous West Country properties at present surrounded by quiet roads.

Members of Blaise Road Action Group, which is leading the local opposition, are particularly upset at the way the new road would be carried on stilts across the entrance to

RESIDENTS have joined spot Restormel district countion order on it." Ann Wilbring and the outcry of local Lanhydrock, said: "To want people at damage to the to destroy this unique, unenvironment.

agreed to study more closely the environmental impact and call for an examination of proceed." alternative routes. The proposals will be reconsidered on Wednesday by the transport the road

Tom Hudson, owner of Tregrehan, said: "The road seriously affects the historical integrity of the parks and gardens. Every tree affected by the road has a tree preserva-

### **UK** chess prodigy impresses Russians

By RAYMOND KEENE

ONE of the country's young chess champions has returned home after becoming the youngest player of his age to take part in a training scheme organised by the Russian Chess Federation and normally reserved for their own promising youngsters.

Gavin Extence, aged nine, from Lincolnshire, has collected an impressive list of junior titles. When news of his prowess spread to the Russian chess authorities he was given a week's invitation to the St Petershurg Palace of Young Pioneers, where the brightest in intellectual and sporting disciplines are nurtured.

The trip gave Gavin firsthand experience of the famed Russian training methods and an introduction to many grandmasters. He more than held his own in games against Russians of his own age, though he found the teenagers some-thing of a handful.

Gavin attends Swineshead primary school in Lincolnshire and the trip was sponsored by the county council. Chess at the school has been promoted by a teacher, Ted Nottingham, who starts each day by presenting pupils with the chess problem in *The Times* and which Gavin tends to solve in seconds.

Bright eyes: Gavin starts another day at school with a chess poser from The Times

### Over 6m out of work since last year

By Philip Bassett INDUSTRIAL EDITOR

GOVERNMENT figures to be announced this week will show that six million people have become unemployed for some time since the number out of work started rising 18 months ago, according to the latest monthly analysis by The

After last week's further fall in inflation, ministers are readying themselves for another increase in unemployment when figures for September are published on Thursday. Seasonally adjusted unemployment will rise again, with an expected increase of around another 60,000 expected to take the current total close to 2.5 million.

While the monthly season-ally-adjusted figures are gen-crally seen as the best indicator of the unemployment trend, they measure only the current level of unemployment, not the number moving out of and into work. Some economists see unemployment as a pool, with an inflow and an outflow, and the number out of work as the difference between the two.

Using data held on employment department computers, analysis carried out by The Times shows that since the jobless level started to rise again in March last year, the. number of people who have become unemployed is more than 6.2 million.

From March 1990 to the end of last year, 2.97 million people became unemployed, while from January to August this year a further 2.94 million went out of work. Figures to be announced this week are likely to add at least 300,000 to the total, taking it to more than 6,2 million.

The Times' monthly analysis shows that the number moving out of unemployment over the same period as the six million becoming unemployed totals about 5.4 million, taking account of those to be announced this week by Michael Howard, the employment secretary. The number moving into unemployment over the period averaged 328,400 a month, while those moving out of it averaged 285,200.

As well as the unemployment figures, ministers will be closely studying the latest figures for the rise in average earnings to see if the present growth in earnings of 7.5 per cent across the economy can move below this level for the first time in a decade.

Survey evidence from the Confederation of British Industry suggests that pay settlements are continuing to

### Mellor offers musical refuge

By MICHAEL HORSNELL

THE intervention of David Britain for a concert series six long line of renowned Russian Mellor, the music-loving chief secretary to the treasury, which secured the sanctuary in Britain of Russian composers Dmitri Smirnov and Elena Firsova after their visas expired this weekend, has helped denude Russia of its top

Mr Mellor, whose intercession with the Home Office on their behalf led to threeyear residency permits for Smirnov, aged 42, and his wife, aged 41, said yesterday: "It is a sad truth that most Russian composers like to

leave and live here. "I was only too happy to help and I am delighted for them but my role has already been sufficiently pointed up and I should not dominate prize day. I did my duty as I

am always pleased to do."

### Turkeys plug into the grid By NICK NUTTALL, TECHNOLOGY CORRESPONDENT

The project has sought

AROUND a million and a half turkeys are poised to play a part in government plans to produce electricity from environmentally friendly sources.

Proposals have been submitted for energy department approval for what is believed to be Britain's first turkey droppings-into-energy power station. The onemegawatt scheme, which is expected to get the go-ahead in the next few weeks, should produce enough electricity to heat and light 1,000

bomes\_

Nextgen, a farm equipment company behind the scheme based near Bisbop's Castle, south Shropshire, believes Britain might produce enough turkey droppings to support more than five more stations powered by the

backing under the government's Non-Fossil Fuel Obligation, a levy which pays operators of wind, water and waste-powered power stations a special price for their electricity during a project's start-up period.

John Wakeham, the energy secretary, is expected to announce which of the more than 200 projects that have applied this year bave been given the go-ahead. Last year, the government approved Britain's first chicken droppings-intopower station at Eye,

Suffolk, Fibropower, the company behind the Suffolk project, has opted to incinerate the fuel to produce steam to drive an electricity generating turbine. The turkey litter station will, instead, use anacrobic digestion of the waste to produce methane gas as a generator fuel

Sarah Turnbull, of Nextgen, claimed yesterday that anacrobic digestion, a process in which microbes break down wastes into gas, had significant advantages. Byproducts include a peatlike material, which should help to reduce pressure on threatened peat bogs.

Some of the heat produced from the system is used for keeping the anaerobic process at 98.4F while the rest can be used to heat greenhouses or district water schemes. Around 60 tonnes of turkey droppings will be brought in daily from 20 to 30 local farms to the site at Leebotwood. Residents have voiced concern that the project might lead to unsavoury aromas.

At Abbey National, we have a rather unusual habit, fitting homes and mortgages to people, and not the other way round. Low-start Mortgages, First-time Mortgages, large mortgages and not so large mortgages. All with a very keen rate.

But life isn't just about getting a mortgage, we also offer insurance to protect your home and contents. And we can help you find a home. Through our estate agency, Cornerstone, we provide a complete service, with all the help and advice you need to make moving in easier. Drop into your local branch or call 0800 555 100.

Secured loans and mortgages require a charge on your property. All loads subject to status and valuation. Written quotations

# EVOLED ON EIER

here's no mistaking the new 9000CS.

it's a Saab through and through.

From its classic Saab lines to its characteristic handling qualities.

Evolved around the pilot as driver,

Saab have forged a unique concept.

A car so engineered and refined that
all individual parts unite in a common
purpose.

An exciting ride with greater safety and more confident handling.

A subtle new body shape, sculpted by advanced aerodynamics, not to be merely fashionable but to possess positive 'ground-effect,' road-hugging capabilities.

New suspension geometry, shock absorbers and tyre profiles to interact with the above. And ABS as standard.

Reinforced by a better balanced, torsionally stronger chassis.

(A chassis which is more able to resist collisions and indeed, exceeds the US Federal Safety Standards for 1996 by a phenomenal 26%.)

Its aircraft heritage is evident throughout. With every detail designed to give the driver correct information and a quick, precise response to any situation.

As the F.T. said "The driving position, location of controls and the general feel of the car are so good you know an enthusiastic top management does its own product testing".

The 9000CS has been yet further refined to be the smoothest, quietest Saab ever offered.

Packaged from just £18,370, the 9000CS range includes two tax efficient models.

16 valve, 2.0 and 2.3 litre, injection and turbo variants are available.

The new 9000CS.

The most Saab you can buy. Or should that be fly?

Law for the young: the act spells out parental responsibilities and the care and custody of children

### Grandparents fight for rights

A GRANDMOTHER and grandfather in Avon will be one of the first couples to lodge an application under the Children Act to seek regular contact with their grandson aged six (Frances Gibb writes).

David Burrows, their solicitor, said: "The parents are separated and are being difficult about it. Under the act, the court is obliged to ask the child what he wants, The grandparents will have much greater rights."

The case is one of many which solicitors throughout England and Wales have been preparing to lodge today to reap the full benefits of the new legislation. At present, grandparents can go to court only if divorce proceedings between the parents have started, or they must go through the complicated route of seeking care and control through

They can now apply at any time to seek either contact with a grandchild or SMCTORS VIEW

even a residence order so the child can live with them. In reaching its decision, the court has a duty to find out what the child wants.

For solicitors, the act means a radically new way of thinking about such cases. Vincent McAuliffe, a solicitor with T V Edwards, east London, said: "It introduces a whole new philosophy. We are having to be re-educated and to convey the new message to clients."

Couples will be told that no longer are orders for custody and access to be granted by courts. Instead couples, married or not. separated or not, will have to decide jointly what is best for the child. Orders will only be made if that is necessary in the child's interests. But there has been a last-minute flurry in law firms as solicitors rushed to lodge petitions under the old

### Minister rebuts charity protests

THE government has denied claims by five hig charities that local councils do not have the resources to implement the Children Act (Jill Sherman writes).

Virginia Bottomley, the health minister, said expenditure on social services should be up by 23 per cent this year after rises in local authority standard spending assessments. Money had also been set aside for training social workers and other professionals involved in child care.

Mrs Bottomley conceded, bowever, that no money had been set aside specifically for the Children Act - apart from £5.7 million for the new guardians appointed by the courts to investigate children's circumstances. She also made clear that councils could implement the act in stages, with provision for children leavmg care and services for disabled children taking longer than others aspects. Barnardo's, the National

RESOURCES

Children's Home, the Children's Society, the NSPCC and Save the Children, all of whom support the objectives of the new legislation. claim that local authorities will be unable to meet their new responsibilities due to lack of funds. Roger Singleton, director

of Barnardo's, said: "The Children Act is long on commitments but short on cash. The definition of children in need is too dependent on how much money local authorities have left in the kitty." Probation officers worried about funding will say today that the act will run into difficulties unless casb is set aside for their extra duties.

A survey carried out by the Association of Directors of Social Services showed that nearly half their local authority departments bad no policy for helping young people leave care.

Stricter controls could be waived

SOCIAL SERVICES CORRESPONDENT

BOARDING SCHOOLS

THE government is expected to amend regulations to the Children Act to ensure that independent schools with a small number of boarders are exempt from some of the new stringent regulations covering chil-dren's homes. The changes, which follow lobbying from independent schools, could be pushed through swiftly. without the normal threemonth consultation period.

Under the act, every school with fewer than 50 boarders will have 10 register as a children's home and pay a registration fee of up to £3,000. Social services departments will be able to inspect all private boarding schools, but those classified as children's homes face stricter controls.

The Independent Schools Joint Council has been campaigning to get the regulations changed so that the 150 or so schools affected would not have to register as homes. Dr Arthur Hearnden, the council's general secretary, said it feared that parents would be particularly concerned if schools were classified as there was an inference that children had nowhere else to go.

Health department officials are understood to have drafted amendments to certain regulations covering children's homes to exempt some schools.

Virginia Bottomley, the health minister, said last week that she had asked local authorities to be "prac-tical and flexible" about implementing the changes in schools. However, she added: "There are too many cases where children have been and still are neglected and abused in boarding schools, often the smaller

Under the act, any private boarding school faces closure if it falls below the required standards.

### **Police** abandon car chase

A car chase which began with a raid on a sports shop in Exeter, Devon, ended 80 miles and three counties later when officers abandoned the pursuit for fear of endangering lives, police said yesterday.

Up to four police cars followed the stolen Rover saloon towards the M5 at speeds reaching 135mph after the raid on Saturday morning. The car headed back through heavy rain towards Bristol, where it had been stolen.

After the car left the motorway at Weston-super-Mare, Avon, and sped along the A370 towards Bristol city centre, police ended the 45minute chase.

### Fire deaths

Leslie Meakins, aged three, and his 18-month-old sister Learna died in a fire at their council house in Brook Street. Colchester, Essex, yesterday morning, which police say began in the backroom where the children were playing. Their mother, Joanna, aged 21. was taken to hospital suffering from shock.

### Dogged rescue

Tweed, a Lakeland terrier trapped for three days in a rabhit warren near Scarhorough, North Yorkshire, was dug out alive by firemen after his owner heard barking

### Tight fit

Britain's smallest fire engine. the two-man Mule, has been brought in to negotiate the streets of Polperro. Cornwall, which, often less than 5ft wide, are too narrow for fullsized engines.

### Driver held

A man aged 18 was being questioned by Avon police after a four-day hunt which began when a stolen Morris 1000 crashed and its driver took a shotgun from a farmer at Winscombe, near Westonsuper-Mare, Avon.

### **Premium Bonds**

He stressed that the poten-

mycorrhizal types, exist in a close and essential relationship with the roots of trees, exchanging nutrients with them. Their disappearance would be a threat to woodlands in general. Explanations of the Euronean decline range from acid rain (the favourite) and global

warming, to habitat loss, but British experts say more information is needed. The British Mycological Society will produce another 100 distribution maps next year and encourage universities to carry out research. However, dedicated ama-

teurs can also make a contribution. Rita Cook, a retired Cheshire teacher and mushroom enthusiast, has launched a recording scheme for the North-West with a grant from the British Ecological Society and belp from Liverpool Museum. This autumn 300 amateur naturalists will be carrying ber checklist of species.

She said: "In this country we tend to be afraid of eating wild mushrooms so we haven't done any intensive recording with conservation in mind, and it's time that we

## What are you missing by not banking with Firstdirect? (Apart from 5% interest)

If you're going to bang on about your current count interest rates it helps if you've got a big bass drum. Nothing lasa than 5% (gross p.a.) in our opinion. Because we're not a high street bank we have no high street overheads. Therefore the interest rates on our current account will be consistently higher than our competitors. See for yourself in the table above.

Firstdirect is the only banking service that eneble you to talk to expert friendly staff who have all your details to hand, 24 hours a day, 365 days of the year. Which means you can do your banking when it suits you, not when it suits us. And because at Firstdirect averything is done over the phone you can do alt your banking from wherever you like. Be it at home, in the office, in the car anywhere in fact.

APART AN AUTOMATIC OVERDRAFT

A £100 cheque guarantee card isn't a privilege at Firstdirect. It's standard. Our card also allows you to pay by Switch through hundreds of stores throughout the country. Better still, you can take out up to £500 a day from any Midland, NatWest, TSB, Clydesdale or Northern bank cash machine. Paying money into Firstdirect is simplicity itself. Just pop into any of the high street banks, or, if you don't fancy standing in a queue, you can post cheques to us.

If you think you might need an overdraft we can agree a facility as soon es you open your account. And as long as you stay within it we won't send you any horrible letters (promise) and there's no fee for transactions.

At Firstdirect we can arrange the payment of all your bills. You just phone us up, tell us who to pay, how much and when, and we'll do the rest.

So, now you know exactly what you're missing, why not put us to the test? For a free current account information pack, either phone us free on 0800 222 000, or fill in the coupon and send it to us (no stamp required). Either way you can't lose.

## Spirit of communism poised to pounce on new Soviet order

THE old Soviet order has truly turned upside down when Pravda proclaims, as it did last week, that the Communist party was "the quintessence of the totalitarian state, the monster which suppressed everything and verybody without exception". Good riddance, continued the commentary in the Gremlin's old house organ, vhich converted after August's abortive coup to the democratic cause, without relinquishing that austere Victorian tone.

Banished from its offices, its domestic wealth confiscated and its activities suspended, the once omnipotent party of Lenin would seem to be dead. Acording to a new poll, it enjoys the trust of two per cent of the people,

Charles Bremner in Moscow studies attempts by the old Communist party apparatchiks to hold on to power by regrouping under new banners

compared with 23 per cent at the start of 1990. However, another poll this week showed that 40 per cent believed communists would regain the levers of power in

indeed, the spirit of the vast machine lingers on in a multitude of ways and, in the view of some reformers, could make a come-back. Lev Ponomaryov, a leader of the Democratic Russia movement, said: "It is absolutely wrong to say that we have put an end to the communist

regime. Only the head has been cut off. The roots remain. In the provinces, power still lies with the old nomenklatura. The conservative forces are trying to

PERFOUD. Beyond the provinces, in some of the outer republics, the old ruling class has not even relinquised its grip. It has merely changed its name and taken on nationalist colours. In Uzbekistan it has just renamed itself the People's Democratic Party. In the Ukraine, reformers are joking sourly that the only thing that many talented people in the has changed is that the appa-party, he says. "They should ratchiks have switched buildings and hats. Even in Moscow and St

Petersburg, Boris Yeltsin, the Russian president, and Anatoli Sobchak, St Petersburg's crusading mayor, have surrounded themselves with former communist executives, to the dismay of non-party reformers. It was inevitable that Russia's new governors would draw on the old network of high administrators, simply because they need their talent and experience just as the bolsheviks took on tsarist high functionaries and secret police officers.

Eduard Shevardnadze, the former foreign minister and party boss, sees nothing wrong in this. There were

be able in continue to work while we are moving towards a new sort of society without confrontation, without victims, bloodletting, without civil war."

However, Mr Shevardnadze has given a warning that hardliners could use discontent to make another grab for power. Among those hoping to continue in employment are the lens of thousands of political officers, the old red commissars, attached in the armed forces. They are signing up as psychological counsellors, a

why-created post. While the old party's activities are still suspended, diehard believers have started organising new groups, rangist "Unity" to the reformist Communists of Russia of Roy Medvedev, the former dissident historian. The reformist group claims the backing of nearly half the deputies in the Russian parliament and President Gorb-

achev's support. Mr Medvedev thinks there is a big base for a strong new marxist movement among the eight million in Russia who still belonged to the communists. Even three million members would make such a party far bigger than any other, he says.

The new democrats of Moscow particularly those pushing hardest for a completely free market, are sure that Mr Gorbachev still be-

According to Konstantin Borovoy, the head of the new commodity exchange and a member of Mr Gorbachev 's business council, the Soviet leader remains a true communiat at heart.

If the old apparatchiks ever attempt a come-back, they will have no shortage nf funds, at least according to reports and rumours circulating in Moscow, as investigators scour the world, hunting down "the party's gold". Mr Gorbachev says there was nothing illegal in the party's funding and denies knowledge of any mafia" connection. He wants the courts to decide the fate of the party's wealth, which is already being fast distributed as spoils by Mr Yeltsin and the other new rulers.

### Gorbachev calls on republics to back new political union

From MARY DEJEVSKY IN MOSCOW

economie union and indicated that he hopes to salvage some form of political union between Soviet republics.

Looking tired and occasionally at an uncharacteristic ers have expressed serious loss for words, Mr Gorbachev said in a television interview that the redrafted Unioo Treaty oo political union should be signed at the same time as the economic treaty which is due to be concluded in the next week. "If we do not decide the fate of the state," he said, "there will be no stability and this cannot but affect the

Mr Gorbachev also attacked the idea voiced by a senior Russian official that Russia should seek economic independence. Some, he said, seek a "soft, weak union in which Russia can separate itself off eventually from the other republics and become a flourishing state by itself". But, he added, "what union

### Germans fail to end race attacks

From Ian Murray IN BONN

SENIOR politicians from Germany's main parties described as unworkable the only plan agreed for dealing to give peasants a real innatural. But we need the with the upsurge of xenophobia despite the increasingly cultural production. Whole violent attacks on foreigners at the weekend. With the Klu Klux Klan

reported to be recruiting and organising members in both east and west Germany, police have pressed for more manpower as the only way to bring the wave of violence under control. Helmut Kohl, the Christian Democrat (CDU) chancellor, continues to call vainly for a change in the constitution which would stop anyone entering Germany from a country where there is no political persecution. "We must not stand idly by and watch the asylum laws being ahused," the chancellor said on Saturday before denouncing the "fools and criminals" responsible for attacking foreigners. "Many have lived here for a long time and we owe our prosperity in part to their hard work," he said. His plea for tolerance, how-

ever, received far less publicity than the announcement hy Friedhelm Ost, the CDU chairman of the Bundestag's economic committee, that each of the half million asylum-seekers in Germany is costing 15,000 marks (£3,000) a year. These inevitably provocative figures mean that asylum seckers are now costing six hillion marks a year. With taxpayers already complaining about increased contributions to pay for unification, the size of the hill to look after foreigners is bound to stoke resentment and provide tacit support for skinhead attacks on foreign hostels.

The plan, agreed last week which was meant to halve the numbers arriving, has run inlo serious opposition even though it was agreed by the leaders of all the main parties. The idea was in hold all asylum seekers in well-protected camps while vetting princedures were heing speeded up to sort out the genuine cases before expelling economic refugees. Some of the most serious objections canic from Bavaria, where a third of all the refugees are being housed.

militions of people, Russians, in other republics, in Kazakh-stan, the Ukraine?"

He was equally adamant that the Ukraine, whose leadmisgivings about both an economic and a political treaty, would come around to joining a new union. Almost as though the August coup had oot happened, Mr Gorbachev said: "We cannot break up, we must share the same space and co-operate with each other. That is the new union. I can't conceive of the union without Ukrainians and Russians everyone who lives there, will

come to the same conclusion." Mr Gorbachev's passionate insistence on the need to preserve - in practice, to restore - a political union echoed his threat two weeks ago to resign if the union disintegrated. It also sets him apart from several of his advisers. At the State Council meeting on Friday, his ecolinsky, said that priority should be given to the economic agreement. A political treaty, he said, was much more complicated and would take too much time at present.

In Saturday's interview, Mr confused state of thinking on as such, he spoke of the need branches of the economy, he said, should be transferred to

### lieves in "socialism". Russians keep poor bankers

waiting From Anatole Kaletsky

IN BANGKOK IF YOU want to ask the bank manager for a loan, it is generally a good idea to wear a tie and to arrive on time for your appointment.

The Soviet delegation to the annual meeting of the International Monetary Fund and World Bank just about managed to follow the first precept. However, they failed dismally on the second, to the visible irritation of the finance ministers, officials and bankers gathered in Bangkok for what is sometimes described as the annual geocral meeting of

World Economy ple, Officials, such as Alan Greenspan, the chairman of the American Federal Reserve Board, and Helmut Schlesinger, the head of the German Bundesbank, are not used to being kept waiting, even by their own presidents. So they were oot quite sure how to react wheo Grigori Yavlinsky, the the Soviet Union's present economic supremo, arrived in Bangkok two days late.

The Japanese thought they had overcome the problem by inviting the Soviet delegation to a hastily arranged dinner. However, when they announced shortly before the dinner that Viktor his plane, even the imperturbable bankers showed signs of annoyance. "Today be misses a plane, temerrow he'll miss a debt payment," observed one official. Even the Soviet apologists did not know what to make of Mr Gerashchenko's official excuse - that he had decided to travel to Bangkok via Scoul, to keep a

prior engagement.
The G7 leading industrialised nations, whom Lenin would have described aptly as the executive committee of the international bourgeoisie, do not expect to be stood up in favour of South Koreans. In Mr Gerashchenko's case, the ordering of priorities was especially surprising. After the Soviet coup attempt he was removed from his post as a suspected communist sympathiser, but he was reinstated partly in response to pressure from the Western banks.

Mr Yavliosky, who managed to arrive earlier, had a better excuse for his delay. He was detained in Moscow by the negotiations on a new inter-republican treaty.
Western officials admitted

that the G7's decision to send yet another delegation to Moscow before parting with any money was motivated partly by their lack of confidence in the interlocutors Moscow had sent to Bangkok.

Moscow mission, page

## Storm clouds darken Columbus voyage into history

FTOIT FRANK SMITH IN LISBON AND PAUL BOMPARD IN ROME

AS AMERICANS prepare to imperialist, a racist, a milimark the increasingly contentious anniversary of Chris-Iopher Columbus's discovery replicas of 15th century Spanish ships set sail for the New Portuguese. World yesterday in a re-enactment of his 1492 voyage of discovery.

Walched by Crown Prince Felipe of Spain, the Santa Maria, Nina, and Pinta sailed from the port of Huelva for the Canary Islands from where they will make for Puerto Rico and America. The voyage - the official, but not the only attempt to recreate history 500 years later - will take between 30 and 45 days. Columbus set sail on August 3, 1492 and on October 12 landed on a Caribbean island later named Hispaniola. But to the charges against Columbus — that he was an

tarist, and did not in any case "discover" America - is now added the suggestion that he of their continent today, three was neither Italian (Genoa claims him) nor Spanish, hut Augusto Mascarenhas Bar-

Anckland - New Zealand police have confirmed that remains found in North Island hush are those of Sven Urban Hoglin, a Swedish tourist who disappeared two years ago. Last December David Tamihere was convicted of sexually torturing and murdering him and his Swedish girlfriend, Heidi Paakkonen. (Reuter)

### Venice flooded

Venice - The canals of Venice spilled over their banks inundating about 40 per cent of Venice's historic centre as a strong sirocco hlew the Adriatic higher into the Venetian lagoon. The high tide, or acqua alta, left tourists wading barefoot in St Mark's Square. Experts forecast more flooding. (AP)

### US steps up pressure over peace talks

From Christopher Walker in Cairo

Secretary of State, yesterday began the eighth leg of his marathon effort in convene a Middle East peace conference, as tensinn rose in the region.

Western sources said that even if Mr Baker was unable to nvercome all the nbstacles during meetings in Egypt, Jnrdan, Syria and Israel, he was likely tn recommend issuing invitations to the conference, due to open in Europe hy October 31. One official said: "The State Department thinking is that name of the parties would be willing to face international approbium as the side which failed to attend talks hosted jnintly by Washington and Moscow."

1967 and withheld in an that those attending must attempt to persuade the Israeli have no nvert links with the

Issued by H M Government

JAMES Baker, the American government to agree to a Palestine

The week will present Mr Baker with the most delicate diplomatic challenge of his career. There were angry state-

ments in the Arah media yesterday about Israel's settlement policy, and embassies in the reginn were tald in be an alert for terrorist attacks designed intended to sabotage the conference. On Saturday, President Mubarak nf Egypt met Presi-

dent Assad nf Syria in Cairo, as part of an Arab drive to present a co-ordinated Arah stand during Mr Baker's trip. The nfficial Syrian paper al-Thawrah later claimed that last week's occupation of Arah The view that the United houses in east Jerusalem was States and the Soviet Uninn the first of a series of Israeli had reached broad agreement moves to thwart the final was reinforced by yesterday's round of the Baker missinn. would meet Boris Pankin, the
Soviet fireign minister, in that the barrier of Palestinian Jerusalem on Friday. Ameri- representatinn could be surcan afficials hope that by then mnunted after meetings in the Soviet Uninn will have Washington last week between agreed to restore diplomatic Mr Baker and a Palestinian relations with Israel, broken in delegation. Israel is adamant

Liberation

Saturday's confirmatinn by King Husain that Jordan would attend the conference was seen as evidence that negotiations would begin nn the composition of a joint Palestinian-Jordanian delegatinn. The Palestinians have yet to deliver a clear assurance on the talks. But American nfficials believed that they would join such a delegatinn.

• Washington: American efforts to huild a Gulf security alliance have stalled nver Saudi wishes to develop a substantial army capable nf large-scale nffensive action, The New York Times reported yesterday (Martin Fletcher writes). Such an army would require American weapoury and training nn a scale that President Bush is not ready to annnuncement that Mr Baker But nfficials at the State provide, the report said, and Middle East power.

> However. Washington is having to handle the negotiations with extreme delicacy because it is counting nn Saudi support and co-operation during the firthcoming peace talks.

Poison alert: Genia Cohen, 65, of Israel's extremist Tehiya party. Police are holding six Arabs suspected of trying to poison her in hospital, where she was admitted for a wound sustained in settling Jews in Arab houses

Western hostages

### **UN** visit boosts hopes of release

From Michael Theodoulou in Larnaca

Lebanon were boosted last Ciccippio, never transpired night with the arrival in the Islamic Jihad last Sunday released a videotaped internostage negotiator.

Giandomenico Picco ar-

rived in Damascus after lengthy discussions at UN headquarters during the General Assembly with senior officials from Iran, Israel, Syria and Lebannn. These included Uri Lubrani, Israel's top hostage negotiator, and Dr Ali Akbar Velayati, Iran's foreign minister.
UN nfficials said that as a

result of those talks, Signor Picco felt it worthwhile returning to the reginn. The Iranian newspaper, Tehran Times, reported that a western Signor Picco, an Italianborn diplnmat, made similar trips to the reginn shortly before the releases of John McCarthy, Edward Tracy and

Jack Mann. It has been nearly three weeks since the last western hostage, Mr Mann, was freed and the expected release a

HOPES of a breakthrough in the foreign hostage problem in Americans, possibly Joseph view with the American journalist, Terry Anderson, whn said "we can expect good

news very soon". Signor Picco has been at the centre of behind-the-scenes efforts to free the hostages since August, when McCarthy was released with a message to request the help of Javier Pérez de Cuéliar, the UN Secretary General, in brokering a deal to exchange the westerners for Lebanese

prisoners captured by Israel. Israel is willing to comply provided it receives confirma-tion nn the fate nf several of its hostage, possibly an American, would be released soon. It is particularly innnn. It is particularly in-terested in British-born airman, Ron Arad, the only one almost certainly still alive.

Instead of the one-off overall exchange at first hoped for, the process has developed into a tortuous one, each step marked by Israeli and kidnappers' allegations of bad faith. Both insist it is the nther side's turn to make the next move. Much of Signor Picco's task

centres on creating face-saving ways nut of the deadlock. Last month, on the day Mr | Congress choice Mann was due to be freed, his kidnappers announced they had decided not to release him Indian airlines pilot and Indian ai until Israel returned 20 mnre Lebanese prisoners. Five days candidate for the Amethi later, the Revolutionary Justice Organisation mysteriously changed its mind, issuing a statement announcing Mr Mann would be freed and thanking the UN Sec-retary General for his efforts. It made no mention of the 20 Lebanese prisocers.

Complicating matters farther are signs that the kidnap- Brazil, urged Brazilians to pers are in some disarray, with squabbling between the various groups over which should population control 40 per cent free the next hostage. ### Rain queen

Bulawayo - Thousands of Zimbabweans in parched Matabeleland pleaded with the Queen to stay longer after rain coincided with her visit to Bulawayo, People cheered and the Queen said, "Here we are" when a torrential downpour suddenly started at the outset of her visit. (Reuter)

### Burmese tipped for peace prize

By Michael Binyon, diplomatic editor

AUNG San Suu Kyi, the suspicion of all foreigners, Burmese opposition leader, is strongly tipped as winner nf this year's Nobel peace prize, to be announced in Oslo today. Aftenposten, Nnrway's

leading newspaper, said yesterday that she was a "strong candidate," and several other leading contenders appear convinced that she will be awarded the prize. Her victory would send a strong signal to Burma nf world condemnation of the military junta that nverthrew the elected government in 1990, imprisoned dozens of members of parliament and used widespread torture to maintain a brutal martial law regime. Under house arrest in Burma, now officially re-named Myanmar, since July 1989, Daw Suu Kyi returned to her native country in 1988 from Oxford, where she taught politics. She is the daughter of noe of Burma's

teaches at Harvard. Human rights groups have recently stepped up their campaign against repressinn in Burma. Refugees have given graphic descriptions of turture and killings. Article 19, a British-based group campaigning against censorship, said even talking to foreigners is now considered a crime in Burma. One lawyer was given a 14-year sentence for giving a telephone interview to the BBC.

independence heros, Aung San, and is married to a British lecturer who now

Amid a government campaign inciting hatred and

thousands of writers, stu-dents and intellectuals have been imprisoned. No foreign visitors are allowed into the country.

Daw Suu Kyi has nevertheless appealed for compromise and non-violence. She would certainly face a vitriolic campaign of denunciation if she wins the prize, consisting of a gold medal a diploma and a cheque for \$1 million (£588,000). But the regime would probably be

arrest since 1989 afraid to take further action

against her. This year more than 60 people and groups were nominated for the prize. They included the Salvation Army, said to be a close contender, the Pope, President Bush, President Landsbergis of Lithuania Nelson Mandela, the leader of the African National Congress, and President Hanf Czechnslovakia. President Havel, however, is understood to have voted for Daw Suo Kyi.

witnesses yesterday told her of the alleged sexual Thomas, appeared to have helped himself after spending Whatever the outcome of an entire day before the panel eoce Thomas, Presideot the Senate's vote tomorrow, to angrily refute Ms Hill's allegations that he pressed her for dates when they worked together in the early 1980s, panel of senators began a airing of the taboos of sex and making lewd comments about second week of televised hearings in decide whether to rebuttal of each of Ms Hill's refused. An opinion poll for The Washington Post/ABC News showed that Americans were more likely by two to one particular – for succumbing to to believe his side of the story, racial stereotypes of black although women were inmeo's sexual behaviour. clined to side with Ms Hill. The judge's mentor and most prominent Republican supporter, Senator John Danforth of Missouri, said his protégé was "standing tall".

But Americans had more questions after a strong Republican counter-attack to Ms Hill's prim, composed and widely believed statements three days ago. Orrin Hatch, a senator from the heavily Mor-mon state of Utah, built an argument that Ms. Hill either fabricated her lurid accusations or was fed hy "slick lawyers - the worst kind" from liberal interest groops To back his theory, he read a reference from the book The Exorcist to a pubic hair in a glass of gin. The extract, he said, resembled an anecdote by Ms Hill of an alleged remark by her former boss about a can of Coca-Cola on his desk. He also quoted details from a sexual harass-ment case in 1988 that referred to a film character named Long Dong Silver with a large penis. Ms Hill alleges that Jodge Thomas mentioned

the character to her. But popular opinion looked vulnerable to further turns as the Senate panel began to hear witnesses prepared to vonch for the integrity of both Ms Hill and Judge Thomas. The day opened with testimony from a former co-worker of Ms Hill who said her friend confided that Mr Thomas's behaviour toward her was "inappropriate", sexually re-

lated and had induced stress. An atmosphere of unleashed female anger at years of demeaning treatment by men in anthority at work has caused some stations to put women journalists on air to carrier in the world on report the unfolding drama.

In-flight comfort: a manacled prisoner dozing under the watchful eye of a marshal as another enjoys a glimpse of the outside world

### Chain gang takes a flyer

From James Bone in New York

ONE of the passengers oo the 17.30 flight out of Lexington, Kentucky, refused to pull in his feet from the aisle, so the steward ordered him to the back of the airliner, an old Boeing 727. When he complained, the steward simply belted him to the seat with a nyloo cargo strap. "He was trying to get comfortable," the steward explained.

"Con Air" is like a tourist's nightmare of a budget airline caught in a price war. Passengers who protest too much have a stocking slipped over their heads to shut them up, a beefy steward accompanies everyooe to the lavatory and watches through the open door, and the only carry-on luggage allowed is handcuffs. It is possibly the only

which you are oever allowed to take off your scat-belt off. "At this time all inmates will buckle their seat-belts," the in-flight anoouncement declares menacingly.

Wearing of the seat-belts is not optional. Keep your heads, shoulders and feet out of the aisles. Do not ask questions concerning the flight schedule," it adds, helpfully. "They will not be answered." The air operatinns division of the United States Marshals' Service is charged with flying convicts around America hence its

nickname "Con Air". The service began flying its own aircraft in 1984 because of the cost and risk of carrying dangerous prisoners on commercial airlines and the inconvenience of moving them by road.

Last year, the service carried 48,000 inmates - ranging from Colombian drug lords to serial killers - to 3g American cities in its fleet of two airliners and five smaller planes.

"They treat you like a murderer," Paul Silver, a New Yorker on his way to a drug trial in Kansas, complained as an array of murderers in adjacent rows looked on scowling. All the passengers travel in leg irons and handcuffs, linked by a chain that runs around their waists.

The most unruly are, in addition, "black boxed" -meaning that their handcuffs are held in place uncomfortably close to their torso by a plastic black box fitted to the chain between their wrists. All are frisked not only on boarding, but

also when disembarking, as several heavily armed guards look on.

With as many as 96 hardeoed criminals oo a single flight, the question of a possible hijack naturally arises. In December, 1989, two prisocers escaped from their restraints and made a bid for freedom as their Con Air flight landed at Oklahoma City. Then other prisocers got up from their seats, still manacled, and tried to get out of the emergency exits. The pilot had to stop the plane in the middle of the runway and waved the only pistol available. waved the only pistol available to the crew in flight before the insurrection stopped. It took a jolt of 50,000 volts from one of the stun gun on board to subdue the last of the would-be escapees.

Supreme Court nominee

### Thomas prepares for his day of judgment

and two women of the United States Senate are due to decide whether Judge Clarence Thomas of Georgia is fit to serve as the first black conservative in the natioo's Supreme Court. It ought to have been a routine affair - a little carefully eootrolled acrimooy, some posturing and puffing by senators followed by the traditional obedience to the president's prerogatives in appointments to the country's highest constitutional authority. Instead, the vote will take place against a political landscape that has become pitted with slime-filled craters and lit with the fires of long-

dormant voicanoes. After an extraordinary weekend which few Americans will quickly forget, racial, sexual and ideological passions have been fused to form an almost nocontrollable force. Last week the White House called the affair "a firestorm". Yesterday a supporter of Judge Thomas lik-ened it to the "accidental discovery of the atomic homb".

Io testimooy which supplanted soap operas, cartoons and ball games oo television screens across the country, Anita Hill, a hlack law professor aged 35, coolly described how Judge Thomas had sexually harassed her ten years ago. He had likened his sexual prowess to that of the pornographic film character, "Long Dong Silver" she said, and had once asked her how a pubie hair got on his Coke bottle, conjuring frightening recollections, her supporters argued, of other cliches of sex

crimes against women. Judge Thomas, his voice frequently close to breaking sidewise by women's groups denied every allegation from the woman who was his

of a Supreme Court nominee, writes Peter Stothard in Washington ing". ## Friendships still sky-high

any Britons had their first eocounter with Americans in the second world war when the GIs appeared with their nylons and gum, and were over paid, over sexed and over here". Few people realise that a small group of flyers was similarly educating the Americans in British culture.

A combination of crowded skies, unreliable weather and enemy action made it nec-essary for Britain to train some of its fighter pilots outside the country during the war. Most were shipped off to Canada, but in 1941 a few were sent to the Midwest of America, where six flying

schools were set up.
The British Flying Training
Schools (BFTS) were initially covert operations with cadets wearing civilian suits. However a week before Japan's attack on Pearl Harbor and America's entry into the war, they were allowed to wear their RAF uniforms, and this made them an immediate hit with the American public.

Alan Bramsoo was one of the cadets sent to Terrell, Texas, and he is chairman of anniversary in Texas this had seeo anything like us be staying with families they before. As sooo as we wore our have kept in touch with. RAF uniforms we were invited into people's homes and

At 71, Mr Bramsoo still friendships have endured, and tests planes for flying maga-zines. "I doo't think Terrell members going to Terrell will

The British cadets were a hit with the girls, according to Mr were headline news in all the papers." Residents set up a services hospitality centre. "A wind the gars, according to also perfect gentlemen. "We had a wonderful statioo adjutant sign said, Give a serviceman called Palmer. He would tell a lift' and cars used to queue us we were ambassadors for on long weekeods to take us our country and we would where we wanted," he adds. have to behave ourselves.

After the austerity of wartime Britain, the cadets took

several days to touch ground when they arrived in Texas. "The food was superb. We had never heard of iced tea and iced coffee before, and there was as much meat and fruit as we wanted. The cafeteria was spotless and played all the latest hits, the lnkspots and Glen Miller."

There was a small RAF staff to supervise the cadets, but their instruction was given by here we wanted," he adds. have to behave ourselves. Texan bush pilots, stunt pilots be the party of a lifetime."
"Bass's drugs store was the Some did go back after the war and crop sprayers. "They

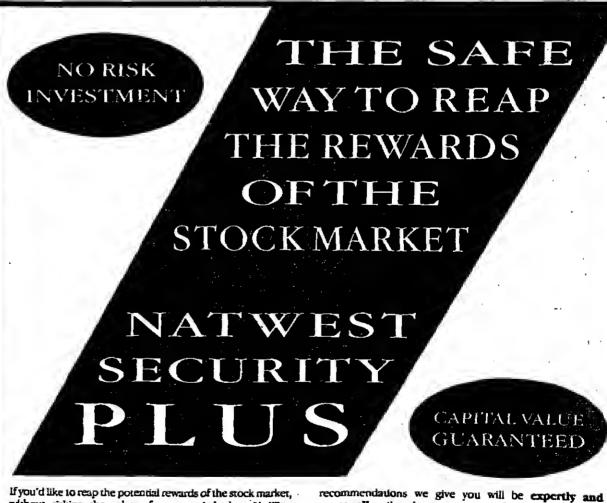

than just flying. But we taught them a lot as well. 'It's a piece of cake' and, 'What a hell of a bind' they seemed to find amusing phrases."

From June 1941 until the schools closed at the end of the war, 27 courses handling a total of 2,200 student cadets passed through Terrell. A small number of American cadets were also trained and were awarded US army air force wings, the RAF brevet and two medals for service in a British and an Allied unit. Terrell-trained pilots received three Air Force Crosses, four Distingished Flying Medals and the VC and an AVC and many went on to successful careers, including Air Chief Marshall Sir John Gingell, who is now Serjeant-at-Arms to the House of Lords (better known as Black Rod) and president of the association.

f the association, formed in 1984, Mr Bramson says: "We have 700 members, 200 in the US. Our wives attend reunions, they like to see their husbaods as 19-year-olds again. You can fill a room with Terrell-trained pilots who oever met during the war and the bood is instant."

The 220 members and their wives fly to Dallas today. "We are taking our running shoes," Mr Bramson says of the reunion. There will be a barbecue, flights in a Spearman we once knew so well and a banquet where we shall be made honorary citizens of the state of Texas

"Welcome back RAF banners will be across the streets when we arrive. It is going to

without risking the value of your capital, then NatWest Security Plus service may be the ideal investment for you.

With Security Plus you combine the reassurance of savings with the rewards of investment in insurance

All you need is a lump sum of £2,000 or more which you can invest for a minimum of two years. We'll show you how to maximise the benefits offered by Security Plus according to your needs. For example, you could choose the no risk option that guarantees the return of your original capital whilst taking advantage of any rises in stock market values. Or, if you are prepared to take a small element of risk in your investments, our cautious option offers a potentially moch higher return on your money.

The Security Plus service is flexible, and the choice is emirely yours. Whatever you choose, you can rest assured that the personally tailored to meet your needs.

To find our more about Security Plus, which is operated by our subsidiary, National Westminster Insurance Services Limited, or the rest of our range of savings and investments, please call us FREE on the number below (Monklay to Praday 8am to 8pm, Weekends 9am to 6pm). You can also use this number to arrange an appointment with a NatWest financial adviser, either in a branch or at your home. We'll be looking forward to hearing from you.

## The man who built a tower for the Tate

fler driving through the narrow archway leading to Sir Anthony Caro's studio, a former piano factory in Camden Town, northwest London, I found his ample parking space almost filled with colossal sheets and cylinders of rusted steel. Stacked alongside a mighty ship's anchor culled from a maritime scrapyard in Chatham, Kent, they all looked ready to be incorporated into Caro sculptures.
But they have endured a long wait, for Caro has spent most of the past six months labouring on by far his tallest and most ambitious work to date: the 25-ton Octagon Tower spiralling 22st into the air.
Poised halfway between sculp-

ture and architecture, this walk-in cluster of twisting stairways and secret chambers will form the exhibition on Wednesday. "It's taken up our lives this year," Caro says. "We've had 17 people working on it, and the noise has been uphalicable of the same of the unbelievable at times. Because this is a very residential area, I tried to minimise the disturbance and wrote letters to all the neighbours. But when we moved the tower outside, somebody started throwing eggs at us."

Now a white-bearded yet spry 67, Caro remains undaunted by this outhurst of local resentment. Since Henry Moore's death in 1986, he has been widely regarded as Britain's most eminent living sculptor. All the same, neither in-ternational fame nor a knighthood prevent him from regarding the Tate show with apprehension. Part of his concern centres on practical considerations. "The tower contains six separate flights of steps and a number of rooms on different levels," he explains. "I like the idea of people entering it, climbing up and walking round inside. The work can't be experienced properly otherwise. But I feel inhibited by the problem of public safety. Nick Serota [the Tate's director) said to me: 'Don't worry, you're making a sculpture, so concentrate on that,' But if somebody falls, the steel will hurt them and it'd be awful. The Tate

would have to close the tower." Despite his immense productivity, and the panache with which

his sculpture is cut and welded into flamboyant form, Caro sounds surprisingly anxious. "I'm very insecure, always worried," he confesses. "When I'm working, I don't have the confidence to say." That's it.' I need a lot of confirmation from people whose opinions I respect, like the critical confirmation from the critical states. Clement Greenberg or my wife Sheila. She's an artist herself, and since her studio is above mine, we talk about each other's work the

Commissions make him particularly anxious, and he has done his best to avoid them. But the Tate invitation, to display work

throughout the building's central spine, provided an opportunity to work on the grand scale. Increasingly fascinated by the relationship be-tween sculpture and architecture, he realised that the Tate's high octagon space would enable him to install a full-size example of "sculpitecture".

Even so, the immensely complex task of assembling the tower's 61 individual pieces, in a studio too low to let him assemble and appraise the whole structure with case, was arduous. "With commis-sions, I'm inclined not to leave them alone," he says. "I fuss about whether it'll get done in time, and

whether some idiot will huy it. I've

already been asked to show it

An exhibition of Anthony Caro's latest work opens on Wednesday. Richard Cork

interviews the grand old rebel of British sculpture

again at the Seville Expo next summer, where they want to rename it *The Tower of Discovery* to fit in with the 500th anniversary of Columbus's arrival in America. But I dnn't know who would ever want to acquire such a thing. Sheila said I should paint it white, and call it the white elephant."

Caro's sense of humour has prevented him from falling into a Grand Old Man persona. The very opposite of stuffy or remote, he came instantly concerned when I mentioned that my back had been strained the previous day. "Oh, God", be cried, "is it terribly painful? All sculptors suffer from

hack problems, you know, so let 'Sheila said me give you the I should paint card of a marvellous osteopath 1 it white, went to recently." Then, without and call it warning, he asked me to take off my the white jacket. I complied, wondering what on earth he had in elephant mind, and then

found Sir Anthony advancing on me with an elaborate electrical appliance in his hand. "Where does it hurt?" he asked, pressing the humming instrument against my back. "Is that any better?" he enquired after a while, continuing to deploy his massaging device with admirable vim. There was a sculptor's relish about the way he manipulated my aching body, and it responded well to his unexpected ministrations.

spontaneous gesture seems in retrospect wholly typical of his attitude to art. He thrives on unpredictability, and in recent years has never hesitated to push himself in fresh directions. When he first revolutionised British sculpture in the early 1960s, welding steel into brilliantly coloured abstractions and dispensing with the customary plinth, his flouting of convention appeared radical indeed. An entire generation of emergent sculptors was nourished by his controversial initiative, and he seemed at that stage to have broken decisively with the classical tradition esponsed by his teachers at the Royal Academy Schools. Charles Wheeler, then a celebrated sculptor of public monuments and later the Academy's president, told the Greeks, you'll get a lot of ideas about style from them".

are recalls Wheeler's remark with disdain, and his audacious leap into abstraction was inspired above all by the welded sculpture of David Smith, which he saw during a trip to the United States in 1960. His move was denounced by many critics. But Caro was unrepentant, and there is still a subversive streak in him, a rebel-liousness which recently prompt-ed him to rebuff an invitation to join the Royal Academy. A visit to the "bloody awful" Summer Ex-hibition persuaded him to say no, "but if the RA could treat sculpture and painting with the same seriousness it gives architecture, the show wouldn't be the crowded mess it is today. There's no point in pouring a bucket of clean water into a dirty river."

Six years ago, though, the arch-modernist finally made a trip to Greece. The Hellenic experience impressed him far more than he would ever have thought possible, and another of his Tate exhibits is a 77ft-long homage to the Temple of Zeus at Olympia.

As the Tate show will disclose,

After Olympia is in no sense merely imitative of its august source. But Caro, like Picasso before him, is now engrossed in a

Sculpitecture: "I like the idea of people entering it, climbing up and walking round inside," Caro says

fruitful series of dialogues with great artists of the past. Maner's Dejeuner sur l'Herbe and Rubens's Deposition have also generated freely inventive Caro variations over the past few years. They show the supposedly diehard abstractionist prepared to tackle complex figurative compositions, and his former obsession with steel is giving way to a more open-minded use of other materials.

Last year, on a visit to Janan, he made a series of sculptures with Washi paper - "you can't tear the stuff, and it's so strong that the Japanese even make armour out of it". None of these pieces has been exhibited. Caro also has ideas for cardboard sculpture as well as carvings in concrete. "I've had no time so far this year," he says, "but when the dust settles at the Tate I'll get down to them."

Does he expect his work to continue changing so dramatically in the future? "Oh, I hope so," he replies. "If I see a path and want to go down there, I've got to do it. Otherwise, you see, I'd be bored.' Sculpture towards Architecture opens on Wednesday at the Tate, Millbank, London SW1 (071-821 1313), Mon-Sat 10am-5.50pm, Sun 2-5.50pm, Caro is also exhibiting new work at the Annely Judo Gollery and the Knoedler Gallery.

### The great improvisation gamble

Rambert dancers are taking a calculated risk in a new piece

by Laurie Booth,

**Debra Craine writes** 

aking it up as you go along: the ultimate indulgence or the ultimate inspiration? The art of improvisation has always risked the one in pursuit of the other, which is perhaps why dance audiences sometimes approach the form with a healthy degree of scepticism. They know there can be nothing so boring as bad improvisation, but equally there can be nothing so exciting as the magic produced when daring and uncertainty lead to unexpected leaps of

imagination.
Still, for any large-scale contemporary dance company to embrace such an unpredictable genre is a gamble. Consequently the list of improvisatory works in the repertoires of British companies is short: in 1972 London Contemporary Dance Theatre performed Dance by the American Remy Charlip, in the same year Rambert Dance Company presented John Chesworth's Ad Hoc. Since then, the form has been kept alive by independent

Making it up: Booth with Rambert dancer Amanda Britton

artists working outside the

established companies. Now, however, Rambert is making another foray into improvisation, commissioning a new work from Laurie Booth, Britain's leading

contemporary dance im-proviser, for its current au-tumn tour. Richard Alston, Rambert's director, was at-tracted to Booth's highly individual physical language, inherent in a choreographic vocabulary influenced by contact improvisation, release techniques and capoeira, the Brazilian martial art. The commission marks a departure for both Rambert and Booth, who has spent the past 15 years as an independent

artist promoting, through his own performances, the philosophy that "any species which stops improvising dies out".

Booth is clearly having a good year. He has created a new show besed on the Egyptian Book of the Dead – New Text New Kingdom – for his Text, New Kingdom - for his

**ARTS REVIEWS** Rock, opera

London premiere of his new piece for Rambert will be one of the highlights of that company's first West End season next week.

Working with Rambert is giving Booth his highest profile to date, and along with it the chance to do a little proselytising on behalf of the art form. "I felt I had a commitment to raise the profile of improvisation in the public eye," he says. His new piece, entitled Completely Birdland, takes its inspiration from the jazz musician Charlie Parker and its title from Birdland, the Broadway club named after him. "Charlie Parker has an awful lot to do with the piece in the sense that he was the great improviser. His material has a classical structure, it has the status of classical jazz, and yet he was out there playing a different tune every night."

S et to a commissioned sound score by Hans Peter Kuhn Commissioned Peter Kuhn, Completely Birdland is part improvisation, part set choreography, although it honours the basic tenet of improvisation; every time it is performed the piece will be different. Booth has choreographed sequences of fixed steps but the order in which they are performed is decided randomly, just minutes before the dancers go on stage. "It's improvised in the sense that the dancers have to observe what's going on and they have to choose when and how they place their material into that matrix. There is a certain degree of telepathic function passing between them; they have to know how to read each other's minds."

And if they don't? The thought of six dancers acting out their own private scenarios at the same time sounds a little dangerous. But then risk is what improvisation is all about. "One of the functions of art in the 20th century is to hring our nervous systems up against the unknown in a wav which is environmentally sound," Booth says. "We don't have to go out and slaughter buffalo in the Midwest to discover frontiers. We actually have our own frontiers so it's very important for artists to find out what that edge is, that unknown."

 Rambert opens at the Royal Northern College of Music, Manchester, tomorrow, and at London's Royalty Theatre on

### **CLASSICAL MUSIC**

### An orchestra arises from the Bastille

own company which will be WHEN the Paris Opera's new, after the concert. seen later this month (October home at the Bastille opened, it The composer has also 30-November 2) at Riverside was with all the proper given his imprimatur to Studios as part of the Dance appurtenances of a French Chung's recording of his Barenboim as musical director. What may not have been apparent at the time, two years ago, was that replacing Barenboim with Myung-Whun Chung entailed a commitment to a programme of reform, through changes of personnel and through extending the orchestra's work into the concert repertory. There have been attempts before to create in Paris a great

French orchestra again, but Chung may be the person to make it happen: certainly his music-making has a decisive sense of resolve, which has nothing to do with showiness. As he demonstrated in Paris ast week in a curious concert coupling of the Saint-Saens 'Organ Symphony' and Messiaen's L'Ascension, his is kind of detached dedication, a passion driven selflessly and from the bass (inasmuch as the dry, shrill Bastille acoustic allows one to hear it). Messiaen himself speaks of Chung's "calm", and of his rare ability to sustain a long slow movement. We had just

been listening to Chung recording the final string adagio from L'Ascension the day **CLEARANCE SALE**

Umbrella festival; he has just national monument: a mas—Turangalila symphony, which won a 1991 Digital Dance sive piece of hardware, grand will be released next month as elation screwed up to a pitch orchestra, and there are plans Award, which will fund another new work; and the public dropping of Daniel marking Chung's debut as a companion recording of Bizet and Les Troyens, both with Deutsche Grammophon contracted artist. Messiaen has also asked Chung to conduct the European premiere of the work he is completing for Zuhin Mehta and the New York Philharmonic next year, a massive score in 11 move-

ments, requiring two hundred

What perhaps will have impressed Messiaen particularly about the Turangalila recording is its implacability, the feeling of a colossal necessity, inhuman or superhuman, in the percussion clockwork and the driving speeds of the fast music — speeds which, as a helpful by-product, enable the whole symphony to be contained on one compact disc. Here, though, as in the Saint-Saens in concert, Chung may sometimes press his players harder than they can quite go, as if setting out the goals

they are all aiming towards. There are also besetting problems of fuzzy attack, as we heard in the opening movement of L'Ascension, which showed up too, maybe sadly, how much the specialness of French brass sound has been evened out. But if there is

### Thatcher goes too far

Peter Riddell advises John Major to

make a break with his mentor

argaret Thatcher increas-ingly reminds me of Geoffrey Boycott at the end of his time with Yorkshire in the mid-1980s. There is a similar refusal to accept that a great career is over, that it is time to move on. There is talk of betrayal; factions are formed and supporters defend their leader, suspecting the

motives of successors. But in politics, as in sport or business, no one has an indefinite lease. People have a certain time at the top, when their experience and talents are deployed to best effect and at full stretch. Five or six years in the cabinet has been the average; a decade is highly unusual. Roughly the same periods apply with the chairmen of many public companies or permanent secretaries. Any longer and there is risk of staleness, complacency and inflexibility. Existing ways are

seen as best; mistakes are made. By the time Mrs Thatcher resigned last November, only five ministers had been in her cabinet since the mid-1980s. In most cases

the departures were because they had nothing much further to contribute. They had done their bit. Similarly, just four members from Labour's shadow cabinet of ten years ago now survive. Only in exceptional circumstances can politicians prolong careers at the top; Gladstone managed constantly to renew himself over more than half a

stayed too long; she ought to have retired after ten years in Downing Street'

century and Lloyd George was at the top for 15 years before the second eleven ousted him in 1922. Rarer still are successful second comings; it was only the second world war that rescued Churchill's career. More recently, Roy Jenkins failed to recapture his earlier command of the Commons after his return in 1982, and Cecil Parkinson's second period in the cabinet from 1987 to 1990 was not nearly as successful as his first from 1981 to 1983.

This sense of mortality, of limits, is very Tory. It fits with an organic view of politics, oot the crusading approach of a Mrs Thatcher. She was indisputably a great prime minister, changing the face of British politics. Her mistake was to have stayed too long; she ought to have retired to 1989 It is understandable that oow she finds it hard to adjust: she was never rejected by the voters, only by her colleagues. In public, Mrs Thatcher has tried to behave correctly to her successor, seeking to avoid comparisons with Edward Heath (though his opeo dissent only began three or four years after he was ousted). She resisted the temptation to respond to the calls of "speech" from activists when she appeared at the Blackpool conference, telling friends she did not want to rock the boat. But it was touch and go

for the party managers. More serious have been private comments by her which have gained wide circulation, and possibly embellishment in the pro-

#### RIDDELL ON MONDAY

cess. Remarks at a private lunch in Blackpool about how she had done the hard work and made it easier for her successor were being retold within hours. Her alleged Major's team are common currency among Tory MPs. Senior ministers also complain that Mrs Thatcher rings them regularly with advice. It can be time-

onsuming. So far all this is just a nuisance for the Major team. But even Lord Whitelaw, who, after all, made loyalty to Mrs Thatcher an overriding priority for more than a decade, last week felt it necessary to offer her advice. In a Channel Four News interview, he said: Once you have given up something you have got to set out on a new course. You have got to leave people who take over from you to

do it. They have got to play the hand their way and 'Her mistake they have got to have their pos-ition." He did not was to have believe that Mrs
Thatcher yet
understood, "But I
think it is important that she does". This is simi-lar to Harold Macmillan's advice about old actors hanging

around the green

Mrs Thatcher is, of course, entitled to express her views. She is, for instance, right to regard European mooetary and political unioo as a matter of principle, in contrast to the Major team's almost Wilsonian obfuscation. Ministers have adopted the oecessary political tactic of trying to appear both pro-European and tough in talks, though it could backfire. But by participating in the debate Mrs Thatcher forfeits the status usually attained by former prime ministers of being above the conflict. When she eoters the arena she becomes a player like any other,

ome ministers believe, and hope, that Mrs Thatcher is becoming less of a threat. They argue that the frequency of her interventions, notably in America, has reduced their impact has increasingly isolated her from other Tory MPs. While many ministers fear that she will find it impossible to avoid criticising any likely Maastricht deal, they believe that her attack may be like a bomb test in the open, making a lot of noise but burting no one. That may happen, but it is also possible that any intervention will aggravate existing Tory divisions over Europe. Mr Major has so far behaved

impeccably towards his predecessor, at times almost with too much deference. But the time may come when he has 10 remind her publicly that she is no longer prime minister, and that he is. It might even help him win the

### Gale of change at a dictators' tea party

e is 60, came to power leading a fervent nationalist campaign against the British, and has not held a contested election for years. Plagued by corruption, his country Michael Binyon forecasts a Commonwealth revolution longer the obsession, inhibiting members want to impose neocolonialist structures

discussion of the beams in many delegates' eyes. A new secretary general is determined to change is slipping rapidly into debt, while exiled opponents step up their human rights campaigns. Now the the perception of the acme of his amhition is to chat to Harare should be a turning the Queen. He is "Chogm" man -the composite head of state at the

point. Good government, most agree, must be the new theme. Chief Emeka Anyaoku, the secannual Commonwealth Heads of Government Meeting.
The Commonwealth is one of retary general, wants the Commonwealth to send monitors the last multinational groupings where dictators find a friendly welcome. They will be in Harare to all countries where elections are controversial or contested. But good government turns the focus on the Commonwealth's own this week, debating proposals for human rights initiatives while the members, deeply embarrassing for tides of democracy undermine Chogm man. And any charter of their one-party states. But the old days are gone, for the Commonhuman rights risks falling foul of accusations that Britain and the wealth as well. South Africa is no older, white Commonwealth

Britain has made much of linking aid to good government a policy it is now urging on fellow European Community members and the United Nations. But where Commonwealth countries are involved, it is strangely inhibited from speaking out. Ministers, for example, have agonised over when to go public in their criti-eisms of Daniel arap Moi, the

Kenyan president, to the bewilder-ment of Kenyan dissidents. Two arguments seem to prevail. One is that it comes ill from Britain, the former imperial power, to be seen hectoring and lecturing. Britain wants its senti-

Canada, where the charge of neoimperialism would not stick. Second, it is argued that the Commonwealth has no leverage except that of moral suasion. The Commonwealth acts mainly as a mutual self-help society. Straddling regional, political and economic groupings, it can call on members in such bodies as the Group of Seven, the Islamic Conference or the Organisation of African Unity to represent the wider interests of fellow members. For this mutual trust is essential except that of moral suasion. The For this, mutual trust is essential.

The Commonwealth must convince the rest of the world that it shares a respected set of values. This is why the Chogin caricature is so damaging. Chief Emeka, a courteous, soft-spoken Nigerian, has used meetings with third world leaders to tell them the pressure for democracy is rising, and that they must respond to it. But he will not go public, believing that his office would earn only

opprobrium and mistrust.

Harare will see a determined attempt to relaunch Commonwealth economic co-operation and like matters. None of this will matter if the body is not seen to take a tougher stand on democracy. Among the ideas being mooted is a proposal that no country where a military coup has ousted a democratic government be allowed to attend future conferences. It is a mild sanction, whose force is only symbolic. But it would at least deny future dictators their teatime ch the Queen. And that would be the end of the Chogm caricature.

Bernard Levin wonders at the optimism that continues to bury money in an unneeded tunnel

ments to be voiced by Australia or

## An open-ended commitment

t is generally agreed that when Adam delved he must have had some purpose in mind, but hitherto there has been no unanimous agreement as to what he was delving for. Now, bowever, it can be said with certainty that whatever he was after it was not a Channel tunnel, even if only because he couldn't have been so daft. Yet this preposterous bole in the ground, a hole which swallows money so fast that even the biggest and most efficient firms of noughts-manufacturers are unable keep up the supply, is still being financed by many who ought to know better, and by even more who do know better. (I have had the famous headline "Banks too deep in tunnel to go back" embroidered on all my handkerchiefs.)

Last week, the Eurotunnel halfyear results were published, and that monumental blowhard Sir Alastair ("Blame everybody but me") Morton was oo hand to preside over the wake, though some of the shareholders, I imagine, would rather have gone back to sleep. For consider, when Eurotunnel was soliciting investment in the celebrated borizontal mineshaft (I leave out the banks, which deserve everything that's coming to them), the punters, poor devils, who bought the shares because these would come in handy when old age loomed, were told that the total cost of the cotire white elephant would be £4.7 billion, which io general they believed (That's oothing many of the people in charge believed it, or

at least thought it politic to do so.) When, therefore, the figure reached £6 billioo, some embarrassmeot was felt, but since there unroll it in. The design of the down from the six billionth floor. Eurotunnel did its sums again (or possibly for the first time), and worked out - I bet they called in the best brains of the company to do it - what figure would suffice to cover everything from then on, an umbrella under which the project would remain unwet until the fireworks announced that the hole was open for business. The ne plus ultra was £7.2 billioo; you might even say that the buck stopped there.
Oh, that footloose buck! Last

week, the shareholders, some of them, I dare say, distinctly white around the gills, learnt that there was a rent in the umbrella. The price has now risen to £8.05 billion, and among other varieties

of consternation, there was an announcement to the effect that there will be oo dividend until the year 2000, (A rough computation, on the present basis, shows that in 2000 the first dividend will be promised for 2005, in 2005 it will be promised for 2020, in 2020 it will be promised for 2050, and so on. I do hope that the share certificates are at least pretty.)

The list of excuses, of course, would stretch from Dover to Calais, were there a tuonel to through must, for safety, be altered; the passenger coaches have to be widened; TML, the company which actually dug the famous hole, is demanding a billion or so to which it claims to be entitled. and this dispute may yet end up in the courts, so guaranteeing that the first passenger to cross will do so in the year 3007; Eurotunnel, not content with denying the claim, is insisting that the project is far behind schedule and it is all TML's fault; TML counters with the mournful news that "Eurotunnel does not look like having any trains to run on the system": and now - when sorrows come. they come not single spies, but in battalions - another from has

been opened, in the shape of the

perfectly delightful row about the route that the trains (if any) will follow to London.

Pat on cue comes Sir Robert ("Call me Bob, it might make the trains run on time") Reid, de-nouncing the choice of route as a political fiddle, while Sir Alastair gets his breath back (and having got it back makes sure that everyone knows he has by scream-"Disaster . . . congealed mess... delay the project until the oext ceotury ...").

Mrs Thatcher was prime minister, was adamant that the tunnel would not get a penny from public funds; indeed, an act of Parliament was passed to make sure. But you can get any oumber of skilled boundary-blurrers these days, and the work on the railway line from the tunnel alone will give all sorts of opportunities for

an ingenious transport minister. Huckleberry Finn's technique for finding something he had lost was to throw another one and then go seeking it; the theory was that losi objects always get together. As I recall, his success rate was low. But that was a book, and a book for children, too, we in Britain have an appalling record of throw-

ing bad money after good. I recall that some ingenious person, while Concorde was being built, drew a graph representing the successive stages of the claims that very soon no more money would be necessary; the graph was practically perpendicular. "Overruos", as they are romantically called, are inherent in work that takes time, . as anyone who has ever had the builders and painters in will know. But when you are making something that is to take billions, and fied that the number of the said

short space of time, surely someone concerned with the project must point out that something is rather amiss? No! Nobody does. That is the great and awful paradox; the expenditure goes spiralling up, and nobody sees anything odd. This is quite separate, you must under-stand, from the theory that if you have poured billions of money on a device for turning lead into gold. you are bound to go on pouring more billions, as it would be a waste to stop now. (That is how

our banks operate, as we all

know.) It is mad, but it is not

randomly mad; sometimes the

gambler's last coin does bring the

money pouring into his lap. But the other kiod of money-lunacy is

based on the geouine belief that the more millions you pour into the hole, the more colossal the return will be. Well. I cannot prove that oo-

body oo this side of the Manche will get a penny out of the Channel tunnel before a couple of generations have come and gone, if then, All we can do is sit and wait, remembering what Nanny said: them what lives longest will see the most. While we are waiting, though, we can take a few simple precautions, the first and most ing to sell our shares in the thing. True, we may sustaio a loss, possibly a substantial one, in getting out; but who can say that we won't make an even bigger loss if we stay in? Of course, Eurotunnel is not going to go bust; even if the money ran out, some kind of international consortium would be spirited into being to keep it going. And one day, as I say, our descendants may inherit the earth, even though it may be only the earth that was excavated from the tunnel. How strongly do you feel about shares that may not pay you anything even if they pay out in years to come? Here's a test: go to the bathroom and look in the mirror, after shutting the door. Now, tell me truly; how much do you like your grandchildren?

### ...and moreover

### LATTHEW PARRIS older man just about got the

he journey from Buxton to Blackpool is easily accomplished but can require a change of trains in Manchesier. Here, en route from Derbyshire to the Conservative conference last Monday I found myself joining one of those new cross-country "Sprinters". It had come from East Anglia. It was carrying two thieves.

At least 1 think they were

thieves. They were the only other passengers in my end of the carriage. It was very late at night and I was asleep.
Or pretending to be. I had shut

my eyes against the harsh fluorescent light, but I could hear my fellow passengers in the seats behind. As we clackety-clacked out of Manchester, the younger of the two exclaimed: "Bastards!" I opened an eye momentarily, shut it, and decided to listen. He was talking about policemen. He was comparing them with prison warders.

"Don't tell me coppers and screws is the same thing, because

they're different."
"On your wavelength, screws," agreed the older man. I guessed that the pair had only met in the train but already established that they had some-thing in common. "You can say what you like about screws, but they're human. They've got a crap joh to do, that's all. It's not their fault."

There but for the grace of God, said t," laughed the younger man who sounded as if he had once been a southerner, and was quite quick-witted. The irony.

It was possible to see them by a complicated series of window reflections. The younger was in his late thirties, tattooed and heavily scarred from acne. He would not have been had looking, once, and remained conscious of his appearance. He was almost the medallion man who still pulls the lamer birds on a package tour on the Costa Brava. "Talking of screws," he said.

"Do you know Blackpool? It's full of whores. I'll find some tonight. Within an hour, just watch me. I'm celebrating. Been away six months." "Avoiding somebody?"

"Inside." (He named the jail.)
That's why I'm stuck with the bloody railways to get home. Six hours it's taken me. That's one joh this Major bloke can't do too soon: privatise them,"
"Car's better. Always will be,"

said the older man. He was in his fifties and looked like a drinker. "A motor gives you the freedom to come and go as you like. There's a new motorway 10 Oxford and Birmingham since you went inside. M40. Fast!"

"Got a car of your own?"
"Not exactly." A knowing pause, "It was hot." A laugh. "You need the freedom they give you. I sleep rough, sometimes. That's another thing these bloody Tories ought to do. Clear these kids off the streets. Homeless? Put an alsatian up their arse. They'd soon find homes. They are on to a good thing in

London and they know it.

Thatcher wouldn't have put up

with any of this sh\*\*."
"God bless 'er," said the
younger one. "Bloody marvellous," she was. His friend nodded. "How's Blackpool for - you know - looking for a bob or two?" "Crap. Summer's great. busy. Police got their hands full with drunk Geordies. Winter dead. Police got nothing better to do. Up your arse all the time. Walk out the door and the bassles start."

Not just Blackpool, mate. You've been inside but I can tell you everywhere's dead. Nobody's got any money any more. We're all feeling it, not just the Directors . . . "

"tustitute of villains, too, eh?" laughed the younger man.
"Aye, it's this bloody rec...

rec ... rec ..."
"Recession?" Yeah, that's it. You heard about it inside then? I tell you what mate, you are not the only one coming to Blackpool this week. The Tories are here. Conference, like. That Major bloke. Don't know if he's got what it takes. Someone's got 10 stop this recession. Kinnock won't do it. Major's got to kick his arse like she did."

his arse like she did."
"Factors hope so." said the young recidivist. "D' ou think he's plainclothes?" He meant me.
"No," said his friend. "I can spot 'em. But he's not asleep. Probably one of those Tories. One of us, like ...

They both laughed, and caught me smiling.

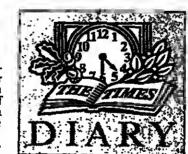

### Speakers' corner

MPs returning to Parliament today will be caught up in a rather different election campaign from the one they were expecting if John Major had plumped for a November poll: the contest for the speakership of the Commons.

The job falls vacant when Bernard Weatherill retires at the gencral election, and many MPs are predicting a straight fight between the Labour MP Betty Boothroyd. noting her experience as deputy-Speaker, and the Tory MP Dame Janet Fookes. The two women are popular on both sides of the House. But other hats are likely to be thrown into the ring, including that of Terence Higgins, whose independent-minded chairmanship of the all-party Treasury com-

mittee has won him respect throughout the Commons. If Labour wins the general election, of course, it may feel one of its own should fill the job. There is a caich: the Speaker cannot vote. So if Neil Kinnock gets in with a small majority he might be only too glad to cut the Tory ranks by one by letting Fookes or Higgins take the job. Boothroyd, re-nowned for her straight talking when she occupies the Speaker's chair, may not let such behaviour pass without comment

Sir Patrick Mayhew, the attorney-general, is also believed to have expressed an interest in the job, while Peter Brooke, the Northern Ireland minister, is another name in the frame. The contest could prove even more unpredictable than the general election, since as many as a quar-ter of the MPs in the next Parliament could be new and thus unacquainted with the personal talents of the candidates before they must decide.

 The best Scottish sunsets can be seen in London. That, at least, seems to be the conclusion of the makers of Drambuie, who are promoting their tipple with a com-petition to find the most beautiful Highland sunset. A picture of the sort of photograph the judges are looking for is enclosed. It is of Tower Bridge at dusk.

### Bright sparks

YET another mishap has befallen the government's energy conservation campaign. John Wakeham has already rejected Michael Heseltine's preferred slogan, HOPE (Husband our Precious Energy), dreamt up by advertising agency Collett. Dickenson and Pearce. Now the stunt to launch the campaign next month has also been scrapped.

Maxima, a subsidiary of CDP. came up with the novel idea of simultaneously switching off all the lights at the Palace of Westminster, plunging it into darkness for the first time since the threeday week, at the moment

Heseltine launched the campaign.
The Central Office of Information, the environment and the energy departments thought it a marvellous way of promoting energy conservation. Alas, there was a snag there is no central switch at Westminster. Maxima has gone back to the drawing board.

### Red sails

THE WINDS of change in the Soviet Union are blowing ever keener, even filling the sails of what is believed to be the first private yacht to dock in the northern port of Murmansk since the revolution.

The ultimate symbol of capital-

ism received a warm welcome this summer, reports the yachtsman Henry Swain on his return. His five-man crew on the good ship Callisto had the briefest of formal checking by customs, whereafter a young man from the Murmansk Shipping Company came aboard to ask in the best Queen's English if Swain needed anything. "Dieif Swain needed anything. "Die-sel? Propane? Food?" said the Russian, brimming with hospital-ity. "Ask for any help you need night and day"

night and day."

The yacht was interpreted as a symbol of goodwill by the Russians, who charged nothing for pilotage, harbour dues or fuel. In return, the British crew handed over its spare ensign to the president of the Arctic Sailing Club.

● To Soviet politics. Whatever the pundits may say about Boris Yeltsin's supremacy over President Gorbachev, the matter has finally been decided in, of all places, the free market. Rights to Yeltsin's ac-count of the August coup will set publishers back over \$1m. Gorba-chev managed just half of that.

### Even-handed

THE OSCAR-winning composer Malcolm Arnold will receive a poignant hirthday present for his 70th hirthday later this month. Two young musicians have created a new version of Arnold's Two-Piano Concerto, written for three hands in 1969.

The piece was written for the piano duo Cyril Smith and Phyllis Sellick after Smith lost the use of

his right hand because of a stroke. The new version, by David Nettle and Richard Markham, converts it into one for four hands. "We've added the bits we feel that Malcolm Arnold would have if he bad done it himself," says Nettle, who was taught by Phyllis Sellick.

49

Both Sellick and Arnold, who composed the theme tune to the film The Bridge on the River Kwai, will be at the Queen Elizabeth Hail for the première at the end of

### What a sauce

THE lengths advertising agencies go to in these recessionary days. In go to in these recessionary days. In an attempt to win the Ragu pasta sauce account last week, the advertising agency Still Price Lintas decided to take seriously the theme that the sauce brings out the Italian opera buff in you. Lined up in its office were a 16-

from Sadler's Wells and the English National Opera, ready to impress the sober-suited men from Brooke Bond, vendors of Ragu. The ensemble launched into a medley of operation desired desired and a medley of operation desired desired and a medley of operation desired desired and a medley of operation and operat medley of operatic duets, designed to illuminate five new ways Raguinspires Mediterranean passion. The jury is still out on their imaginative efforts.

### A HOUSE DIVIDED

Can anything be done to halt the Soviet Union's downward spiral? Each day the news seems more nuninous. While Boris Yeltsin was recuperating by the Black Sea, Russia was paralysed. Ministers quarrelled among themselves, parliamentary factions fell out and Russian nationalism showed an ugly face. The leaders of the 12 republics continue to dither nver economic union, agreeing neither in part company nor to pull together. President Gnrbachev strains to reassert his influence, but in the cacophony his ward seems to count for little.

The Internnumnal Monetary Fund wants to help the transition to a market economy. The trouble, as the Group of Seven industrialised nations told the Soviet delegation to the IMF meeting in Bangkok, is knowing where, and with whom, to begin. The G7, shaken by the failed August coup and ever more concerned at the fragility of democracy, is to send its nwn delegation to Moscow. The delegation's conclusing can be predicted before it arrives. Until a new political and economie framework is in place, no nutside body, including the IMF, can help stabilise the currency or begin the massive task of reform.

The republics are due to sign a treaty of economie union tomorrow. In theory, this ought to establish what will be handled by the centre, what by the republics but the details have still, depressingly if not surpris-ingly, in be negotiated. In Bangkok the Soviet delegation was almost incoherent: late in arriving, unsure what it wanted and

unclear of its nuthority. Presidents Gnrbachev and Yeltsin appear determined to work together. Mr Gorbachev is still insisting on his vision of a reconstituted union. He has a practical point. Stabilisation of the increasingly worthless rouhle is impossible if each of the independent republics sets up its own central bank. Who will determine the level of money supply? Who will take responsibility for raising taxes, setting the level of government spending, or meeting the debts incurred under the old Union?

One of the first things a programme of economic recovery demands is a stable central structure and clear policies on banking, money supply, taxation and government spending, as Sir Geoffrey Howe, now an official economic adviser to the Ukrainian government, told the authorities in Kiev during a recent visit. That implies a political coordination that, to radicals eager to smash the old command economy, smacks of the very thing they want to escape.

The IMF has plenty of experience in dealing with countries with phoney statistics, n bloated bureaucracy and runaway inflation. But normally the IMF moves in when the internal political relationships are at least known, if not stable. The Soviet Union has not begun to define, let alnne enforce, a new post-coup structure and vacillation is unravelling the only structures that exist. While the country bumps along in its old ways, extremism fluurishes and the danger grows daily that the new political and economic freedoms will be overwhelmed.

The West is sufficiently alarmed to consider emergency short-term aid for this winter. But the drifting republics need a plan for sustained recovery. The West can step up its know-how and technical aid and open its markets. For the longer term, if it wants to avoid unproductive arguments about "burden-sharing" it should accelerate Soviet membership of the IMF. That would enable the IMF to reinforce its advice with multilateral credits and in turn, give the private sector a foundation for investment in this resource-rich continent. The prospect of early membership would also be an incentive to firm decisions by the republics" leaders, without which any aid is money down the drain. This week's meeting in Bangkok was depressing evidence of the need for such external stimulus.

### **RUMBLING IN THE RANKS**

Shielded by his regimental tic and by Opposition confusion, Tom King survived his conference ordeal over defence cuts last week. His assertion that the cuts were "based on a full strategic assessment" rather than Treasury arithmetic went without serious challenge. He even managed to make political capital out of the damage the regimental mergers are expected to inflict on the Tories in the forthcoming Kincardineshire by-election. Only the Conservatives, he suggested, would put a duty to let servicemen know where they stand above narrow considerations of electoral advantage. The cheers did not raise the roof, but they gave him the benefit of the doubt.

The two-day debate on defence with which the Commons resumes today will be a rougher ride, even without the awkwardlytimed leak of a letter from the chief of the general staff, General Sir John Chapple, as well as a petition with 750,000 signatures against the abolition of three Scottish regiments and the sound of a royal cry of anguish over regimental fates. These could derail what should have been the thrust of the debate: the ability of British forces to defend the country and contribute to international security.

The leaking of Sir John's letter will reopen the very argument which he advised Mr King to try "to close off" by refusing to be "drawn into explanations" about the regimental cuts. Sir John reports hluntly that "the army thinks we have got it wrong, gone too far and that ministers don't understand", that "smaller but better is a bit of a eon trick." Dissent, according to Sir John, now focuses not on the strategie decision to make deep euts in defence hut on the "final few turns of the screw", an ohlique reference to the extra 9,000 axed, without consultation, from army strength by Mr King this summer. His message is that the government may win the battle over regimental amalgamatinns but still faces an campaign within the army to convince

ministers that a total strength of 116,000 is too small for it to meet its assigned tasks.

The status of the royal family is more complex. The Prince of Wales can presumably argue for the regiments or which he is honorary colonel-in-chief, but with every such incursion into heated controversy, the more he risks a rebuff and the more he diminished his credit on other controversial matters. Sir John's function is likewise to provide feedback from the ranks, though he could as well have conveyed the message verbally. Mr King knows about lobbies and need not be unduly flapped. But he needs to deal with one inference which is far more damaging than the numbers-game: that he has undermined morale by holding the military at arm's length, handing commanders not "options for change" for debate but faits accomplis to implement.

The government would be better placed claim its right to take broad political decisions about defence resources had this year's white paper not devoted so little space to the political context. Mr King was handicapped because Nato itself took the unorthodox decision to settle its new force structures before publishing its overhaul of strategy and operational concepts, to be presented to a Nato summit only next month. Nato's hand was forced by the rush of individual members to cash the peace dividend. Mr King's cuts were thus made in something of a geopolitical vacuum.

This he should acknowledge. If Nato's overall future requires a rethinking (upwards or downwards) of force levels, that should not be ruled out. His priorities, meanwhile, should be those he has already stated: saving as much taxpayers' money as is compatible with sound defence, and concentrating on re-equipping Britain's forces for high-intensity combat. As for the army, it has championed such waste in regimental structures, its use of property and its ancillary services, that it can hardly complain when ministers wield a blunt axe.

### **BORN UNDER ONE LAW**

The Children Act 1989, which comes into farce today, may well change more lives more profoundly than any other new law for many years. Yet the consensus in its favour is such that the Act has generated little controversy. This is a pity. Too few families know how it might affect them. Too few grandparents will make use of their right under the Act to seek regular contact with their grandchildren while the parents are separated, as one couple in Avnn is doing today. Too few voters will notice whether their council is carrying out its new duties.

This statute transforms the legal status of children themselves. It also redefines the rights and duties of parents, other relatives and local nuthorities. Its laudable aim is to use the authority of the law to conciliate rather than to compel, adapting law to take account of the latest metamorphoses of "the subversive family".

Divorce, which now ends one marriage in three, will no longer have winners and losers but rather a new form of "parental responsibility" applying equally to both partners. Out go "custody" and "access". In comes a broader palette of legal options, all of which place the onus on the parents, rather than the court, to decide on the best solution for their child's welfare. For the first time, parents who separate will be forced to consider the interests of the chief casualties

of any divorce: the ehildren. The most controversial area covered by the Act concerns care orders and child abuse. It seeks to mitigate the power of the state as in the disturbing cases in Cleveland,

Rochdale and Orkney - while safeguarding the interests of the child. No longer may the anthorities override parental rights by resorting to wardship proceedings or 28-day place of safety orders; many more children whn may not need to be in care should remain at home. Instead of months passing before the parents' objections are heard, the new eight-day emergency protection orders can be challenged within 72 hours. Parents will have a statutory right of access. Wherever they are affected by the act, the wishes of children must be taken into account, and not as an afterthought.

Finally, by codifying and uniting disparate public and private law, thereby forcing judges, lawyers and social workers to retrain. the act will virtually create specialised family courts. In today's interview published on page seven, the Lord Chancellor, Lord Mackay, is sure the judicial system can absorb the new workload. His confidence is widely shared in the legal profession.

Within some local authorities, on the other hand, there are worries about the cost of helping children in need to stay with their families. The government says that it has provided for these costs, but it cannot prevent councils from diverting the extra money to other things. Children have no votes, and they cannot always make their voices heard above the cacophony of lobbyists. It is right that the government should leave spending priorities to local authorities' discretion. But it would be unforgivable for councils to deny the most vulnerable citizens the support which this act requires.

LETTERS TO THE EDITOR

### Human rights at London's need for an authority Harare summit

From Dr John Marks and others Sir, The forthcoming meeting of the ten Commonwealth heads of government in Harare offers a unique apportunity for the Commonwealth to take a global lead in upholding human rights. Until now it has done precious little in this area: fewer than half the 50 member states have ratified the two UN covenants of 1966, one on civil and political rights, the other on economic, social and cultural rights.

The time has come for a

Communwealth declaration on human rights; the establishment of a standing advisory commission on the human rights of our peoples; and significantly increased funding and a recognised role in this field for non-governmental Commonwealth bodies, such as those which the five of us represent.

Since the last Commonwealth summit there has been unprecedented concern for human rights in Eastern Europe, the Gulf and Africa. It would be an abdication of nur aspirations if the Commonwealth now ignored the needs of its own

Ynurs sincerely, JOHN MARKS (Communwealth Medical Association).
RODGER CHONGWE (Commonwealth Lawyers Association), YASH GHAI (Commonwealth Legal Education Association), SHIRLEY CARR (Commonwealth Trade Union Council), RAY EKPU (Commonwealth

Inurnalists Association). c/n Commonwealth Human Rights Initiative, 27-28 Russell Square, WC1.

October 11.

#### From Lord Avebury

Sir, It has been reported in the Indonesian press, and by Amnesty International, that 200 asylum-seekers from Aceh in northern Sumatra, currently detained in Malaysia, are to be sent back to Indonesia, where they are likely to be tortured and killed.

Over the last two years both Amnesty International and the Washington-based Asia Watch have documented numerous atrocities by the Indonesian armed forces against Acehnese civilians, including massacres which have escaped the world's attention because journalists are not allowed to visit the

Some months ago we appealed to the prime minister of Malaysia, Dr Mahathir, not to break the principle of non-refnulement [nnt driving people back], which is binding on all states, but we have had no reply. At the same time we asked the UN High Commissioner for Refugees to intercede oo behalf of the asylumseekers, but were told that since there was no sign of the government's intention in repatriate them, it was thought best not to make any demarches of even to seek access to the Acchnese.

This silence, which is not in accordance with the UNHCR's mandate, may have been misinterpreted by the Malaysian authorities, and must be compensated now by the widest possible public appeals for the lives and safety of these victims of the Indonesian terror.

The Commonwealth prime ministers' meeting in Harare provides an apportunity for his colleagues to remind Dr Mahathir of his obligation to asylum-seekers under international law. It is to be hoped that others, too, will protest against the intended refoulement and help to

save 200 lives. Ynurs faithfully. AVEBURY (Chairman, Parliamentary Human Rights Group), House of Lords. October 10.

#### **DPP** succession From Mr Chris Heaps

Sir, Some commentators, including your Legal Affairs Correspondent (October 4), have been speculating that Sir Alian Green's successor as Director of Public Prosecutions would be chosen from the ranks of Treasury counsel nr Whitehall mandarins.

Given that over two thirds of the qualified members of the Crown Prosecution Service are solicitors, including the Deputy Director of Public Prosecutions and Crown Prosecution Service Chief Exec-utive, David Gandy, would it not be appropriate for Sir Allan's successor to be appointed from this rich seam of talent?

Yours faithfully, C. HEAPS, Jaques & Lewis (solicitors), 2 South Square, Gray's Inn, WC1. October 11.

### Future of pubs

From Mr Roger Moate, MP for Faversham (Conservative) Sir, Your leading article, "Publicans at bay" (October 11), could not be more wrong. You say that publicans and brewers co-existed in a cosy conspiracy against their customers called the tied house. In this you repeat the error of the Mooopolies and Mergers Commission in its flawed report which was the cause of the present threats in 11,000 public houses.

In fact, given the large number of brewers in the United Kingdom compared with most other countries, the tied-house system gave the customer more competition, more

choice, bener pubs and lower prices. In this case, vertical integration was the best defence of consumer choice. Landlords and tenants have never

been natural allies and this has muddled the waters in the current debate. However, the fact is that the brewers did effectively provide substantial capital investment for many thousands of small businessmen, partly paid for by profits on beer sales.

The government, in its wisdom, has now declared that policy to be contrary to the public interest and,

Letters to the editor should carry a daytime telephone number. They may be sent to a fax number (071 782 5046).

### is in be truly representative of the concerns of London citizens. Yours faithfully, PETER FIDLER, President,

Royal Town Planning Institute, 26 Portland Place, W1.

Association of London Authorities

Sir, I cannot accept that a city-wide mayor on its own is sufficient to

provide strategic government for London (leading article, October 9).

A small, streamlined authority, with perhaps 30 or so members, would offer a better chance of

reflecting the diversity of views in

the capital than a single individual, however attuned she nr he might be

that has gone before, but to provide a lean and focused body which can offer an overview of transport,

planning and economic matters in

the city. One point is essential, though: it must be elected for it to be

Ynurs faithfully, MARGARET HODGE, Chairman,

Association of London Authorities,

36 Old Queen Street, SW1.

This is not to recreate anything

to Londoners.

effective.

October 9.

From the Chairman of the

From the President of the Royal Town Planning Institute Sir, Chris Patten's reported pledee

(details, October 8) tn include a London-wide authority in the next Conservative manifesto will be warmly welcomed by everyone with the interests of the capital at heart. The inefficiency and uncertainty resulting from lack of overall directinn in the co-ordination and guidance of London's planning, transport and economic development have already had damaging consequences, economically, socially and environmentally. London is in

organised, competitors, particularly elsewhere in Europe. The most effective strategie body would be small, flexible and en-trepreneurial - a city management rather than a city administration.
This body should not repeat the mistakes of the GLC but should confine itself to genuinely strategic concerns and avoid petty bureaucracy and excessive interference

danger of losing its place in the league of world crites to other, better

with the boroughs.

But whatever form it takes, it should have some kind of demo-crate authority for its decisions if it

#### Servicemen's homes From the General Secretary of the Royal British Legion

Sir. I wish to comment on your report, "Soldiers may buy service homes" (October 7). Whilst 1 am pleased to see this crucial problem being recognised, it is important to put the problem of servicemen made redundant into perspective. The article states that under the Options for Change programme "nuly 500 families a year were likely to be in serious housing need". This is certainly the current estimate for the first year of the run-down of Options for Change, but there are already 1,500 families in need, a figure which is expected to increase in the latter years of the redundancy programme unless something is

The problem is a matter of serious concern in both the Ministry of Defence and the ex-service organisations. In fact when the redun-

done nnw.

dancies are combined with the normal annual wastage, a minimum of 2,000 families are likely to require housing in each of the years up to

and including 1995. It is these families, particularly those returning from nverseas post-ings, who will face difficulty and for whnm we are all trying in make available the widest possible range of methods for making a first step into hame awoership.

We are aware that the Ministry of Defence is addressing these problems hy setting up a hnusing task force which is due to report in the near future. In addition it is hoped that the government will make available some of the large number nf empty homes in the possessinn nf nther government departments. Yours faithfully,

director, whether nnn-executive or

nut, have increased substantially in

recent years and directors need relief

from this exposure. One way to

achieve this is for the company to

purchase insurance against the per-sonal liabilities of its directors.

In 1989 the government recognised this and by section 137 of

the Companies Act made clear that

companies may purchase such protection an behalf of their boards.

ity insurance has grown rapidly since then, although the British

development of this method of

protection is still well behind that in

the United States and Canada.

where it is estimated that over 90

per cent of all companies purchase

#### Non-executive directors From Mr John Cheele

Sir, Despite the "severe discouragement to the acceptance of a nonexecutive appointment" nutlined by Sir Edward du Cann (October 9), there is oo shortage of sincere and aware candidates on the registers of the Institute of Directors and of the Promntion of Nnn-Executive Directors organisatinn.

If companies are suffering from a Not surprisingly, demand for direclack of truly independent pro- tors' (and company officers') liabilfessional governors, it is more tikely attributable to reluctance of executive-diminated boards in open their ranks to genuine outsiders than to reluctance of candidates to incur the personal risks. Yours faithfully, JOHN CHEELE,

6 Tyndale Avenne, Cooden, Bexhill, East Sussex. October 9.

From Mr Andrew Dykes Sir, Sir Edward du Cann is right. The risks of becoming a company

#### **Saving South Downs** their councillors want to retain their From Councillor Valerie Chidson planning powers, and most do nnt

Sir. The Countryside Commission says it is "extremely concerned at the delay" in getting the South Downs Conservation Board under way ("National Trust issues call to save the South Downs", October 10). But the conservation board proposal is itself a charade. If the downs are to be saved they need national park status - nothing less

The county councils of East and West Sussex proposed the conserva-tinn board because they ran away from the idea of national park status. They tried to railroad the proposal through with little attempt tn look nbjectively at the other notions. The 11 district councils are

### Net book agreement

From Lord Goodman, CH Sir, Although it is many years since I have had any material interest in publishing, I have had a professional concern under several hats, and principally as a former chairman of the Arts Council.

I read your leader of September 30

with regret: hig guns should have some instructions in artillery before they let fly. Mr Gibson (letter, October 2) has stated cogently and well the reply and oooe of the letters which you have published since then (October 9, 11) has caused me to alter my view.

Might I add that on January 23.

1989, 1 wrote to The Times urging opponents of the net book agree-ment to study the judgment of the Restrictive Practices Court of October 30, 1962, which dealt faithfully and conclusively with every possible argument that could be advanced against the net book agreement.

May I hope that you will see the error of your ways and the gratuitous injury that you are causing literature from what apparently is an uninformed source.

Ynurs faithfully, GOODMAN,

9-11 Fulwood Place, Gray's Inn. WC1. October 11.

#### as a result, will hasten the demise of many thousands of traditional English pubs. Most tenants will be nnable to raise from other sources the large amount of capital needed to buy these desirable properties. It is also evident that all this will lead to greater dominance of the market

by a few major brewers, by a few

major brands and very much higher

It is still not too late for the government to find other, and better, ways of ensuring local competition. It should urgently review the beer orders and save the pubs.

Ynurs faithfully, ROGER MOATE, House of Commons. October 11.

### Mrs Thatcher's

peerage problem
From Mr. H. B. Brooks Baker
Sir, Mr. Alan Hamilton's excellent article on Mrs Thatcher's peerage problem (October 8) states that "she may prefer in accept the lesser ennihlement of a life peerage".

However, life earldoms were created for Huntingdoo in 1377 and Yarmnuth in 1740 and both were women. It is, therefore, not necessary for her to accept n peerage nf

less importance if she wishes a life, as opposed to a hereditary, peerage. Life dukednms have also been created in the past. Whuld this unt be the fitting reward for Mrs Thatcher, in spite of the fact that Winston Churchill turned down the dukednm he was offered? Ynurs faithfully, H. B. BROOKS-BAKER (Publishing Director).

Burke's Peerage. Brooks Marketing Ltd. 12 Ricken Street, SW6. October 8.

From Lord Mnyne
Sir, Professor Stephen Haseler
(October 7) cannnt even have
watched the House of Lords nn television when he suggests that we function draped in ermine; but his little joke should not deflect us from examining his criticism of hereditary membership.

In fact, heredity is nn warse and

perhaps a better method of selection than appointment by lot, as once in Athens. The hereditary peers provide an element of jurymen independent of election or nomination in nur revising chamber which is ultimately subservient to the

elected Hnuse. Those whn choose in accept their peerages provide an element of active and sometimes hard-working ynuth in what would ntherwise become simply an assembly of ageing senators appointed by

successive governments. This is in nn sense to criticise the former prime minister's preference for the simplest numenclature, which is indeed in accordance with her character, if she should decide to take a most welcome place in our revising chamber. Ynurs faithfully,

MOYNE, Hnuse of Lords. October 10.

From Mr Simon Brilliant Sir, Many will be disappointed by Mrs Thatcher's letter to you (Octo-ber 8). It is worth recalling why Gladstone proposed his adversary, Rnbert Lowe, for a viscountcy in 1880. "It seemed to me that a man whn had noce soared in those heights trodden by so few ought nnt tn be lost in the common ruck official barons."

Perhaps it would be a pity if she were so lost. Yours faithfull SIMON BRILLIANT. 22 St James's Avenue, N20. October 9.

From Mr Jon Adams Sir, If nuly Mrs Thatcher had written: "I have not sought, I dn nnt seek and I would not accept", how much clearer her meaning would have been. Yours faithfully, JON ADAMS. 32 Albany Road,

### **Soviet Jews**

Sittingbourne, Kent.

Octuber 8.

From Mr 1an Skolnick Sir, The Talmud tells us to be at all

times nptimistic. 1 was disappointed, therefore, to read Richard Beesinn's report (October 5) in connection with the several thou-sand Soviet Jews who are dissatisfied with their new-fnund freednm in Israel and wish to return to their fnrmer home.

As the report says, some 350,000 immigrants have left the Soviet Uning for Israel in the past two years and it would be refreshing to see some acknowledgement of the terrific achievement in accepting such a large proportion of im-

migrants. Althnugh many have undoubtedly left in secure a better life, and why not, so have many left to fulfil the 2,000-year-old dream of returning to the land of tsrael. Certainly thnusands of Jews who last year knew nnthing of Abraham and Moses have this year celebrated Passover and aimned on Yom Kippur, now spiritually aware of their origins. Given the tremendous problems

facing Israel, both economic and strategic, it would be more constructive to report on the positive aspects of the situation. Ynurs faithfully,

L SKOLNICK, Trafalgar House, Grenville Place, Mill Hill, NW7. October 6.

### Infra dig

From Mr G. Vernon Huber

others present were;
Professor Anthony Mellows (Chancellor), Lord and Lady Westbury, Lord Grey of Naumton. Sir Maurico Oorman, Major-General Peter Leuchars and representatives of the Order from England, Scotland, Wales, Jersey, the Republic of Ireland and the Soversign Military Order of Malta.

Marriages

Mr James Spickernell and Lady Rachel Petty The marriage took place on Saturday at St Mary's, Calne, Wiltshire, of Mr James Spickernell, younger son of Mr and Mrs Richard Spickernell, to Lady Rachel Petty Fitzmaurice, younger daughter of the Earl of Shelburne and Frances Countrne and Frances Countess of Shelburne. The Rev Alan Woods officiated, assisted by the Rev Robin Cardwell.

The bride, who was given in marriage by ber father, was attended by Camilla Benson, Annabelle Doxford, Eleanor Smallwood, Camilla Coke, Harrict Peel and James de la Force. Mr Godfrey Spickernell was best man.

A reception was held at Bowood House. and Miss J.E.G. Carey The marriage took place at Si Lawrence Church, Chobham, on Saturday, October 12, be-

tween Mr Mark Bunting, youn-ger son of Mr and Mrs Gerald Bunting and Jilly, elder daugh-ter of Major David Carey and the late Mrs E.M. Carey. The bride, who was given

away by her father, was attended by Tessa Grounds, Camilla Grounds and Antonia Vickers. Mr Giles Berkeley was best man.
A reception was beld at the home of the bride and the honeymoon is being spent abroad. Mr P.J. Goldberg

and Miss E. Sir The marriage took place oo Saturday, October 12, 1991, in Wood Green, between Peter Goldberg, son of Sam and Judy, and Lizz Sironic, daughter of

Mr R.T. Kovalevsky and Miss J.A. Rae

The marriage took place on Saturday, October 12, 1991, at The Temple Church, Temple, London, EC4, of Mr Richard Taras Kovalevsky, son of George and Marjoric George and Marjoric Kowalewsky, of Halifax, Yorkshire, to Miss Jacqueline Anne Rac, daughter of Robert and Anne Rac, of Chesterfield, Derbyshire, Canon Robinson

Dr R.D.C. Richards

and Miss C.C. Fay
The marriage took place on
October 5, 1991, in York,
between Robert, second son of
the Rev Peter Campling and
Mrs Richards, of Dumbleton,
Gloversterking and Clare cl. Gloucestershire, and Clare, el-der daughter of Mr and Mrs Terence Fay, of Epsom, Surrey. The groom's father conducted the ceremony.

Mr W.T.F. Tricks and Miss F.M. Macdonald The marriage took place on Saturday, October 5, at \$t John's Cathedral, Oban, of Mr William Tricks, eldest son of Mr and Mrs George Tricks, of Litton, Somerset, to Miss Finna Mac-donald, youngest daughter of His Honour Judge and Mrs Angus Macdonald, of Newcastle upon Tyne. The Very Rev Allan Maclean officiated, prayers were said by the Rev Lindesay

The bride, whn was given in marriage by ber father, was attended hy Miss Sarah Macdonald and Miss Nell Tricks. Mr Henry Tricks was best man A reception was held in the Argyllshire Gathering Hall.

### Forthcoming marriages

Mr W.N. Chilwell and Miss S. Shuttleworth Mr and Mrs Guy Shuttleworth, of York, have great pleasure in announcing the engagement of their daughter Sally to Wayne, son of Mr Peter Chilwell and Mrs Ruth Broderick, of Auckland. New Zealand.

Mr D. Cribb and Miss T. Stone and Miss T. Stone
The engagement is announced and Miss J.M. Myers
The engagement is announced between Derek, second son if Mr and Mrs J. Crihb, of Poole, Dorset, and Tessa, youngest Dr C.T. Western, of St Jihn's, C.T. Western,

Mr P.E. Critchley
and Miss A.J. Redbart
The engagement is announced
between Peter, son of Mr and
Mrs Gordon Critchley, of Great
Brickhill. Buckinghamshire, and Alison, younger daughter of Mr and Mrs Jeffrey Redbart, of Soulbury, Buckinghamshire.

Mr E. Money-Kyrle The engagement is announced between Ernle, eldest son if the late Mr and Mrs R.E. Money-Kyrle, of Whetham, Calne, Wiltshire, and Berendean, only daughter of the late Commander and Mrs H.J. Anstice. of Tilehurst, Berkshire.

and Miss S.E. Cummin The engagement is announced between Leslie, son of the late Victoria, British Columbia, and Sarah, daughter of Dr and Mrs J.C. Cummins, of Westbourne,

West Sussex.

Dorset, and Tessa, youngest daughter of Mr and Mrs M. Antigua, and Mrs B.H. Lipele of Longwood, Florida, and Stone, of Cold Ash, Berkshire. of Longwood, Florida, and Julia, younger daughter of Mr and Mrs 1.H. Myers, nf

Farnham, Surrey. Mr R.J. Williams and Miss M.V.J. Yaptaugeo
The engagement is announced
between Rupert, elder son of Mr
and Mrs J.H. Williams, nf
Knowle, Warwickshire, and Virginia, younger daughter nf Mr and Mrs J.P. Yaptangco, nf Makati, Metro Manila.

#### **OBITUARIES**

### MAJ-GEN SIR REGINALD SCOONES

Major-General Sir Reginald (Laurence) Scoones, KBE, CB, DSO, last British Kaid (Commandant) of the Wales attended the Wales v
Australia Rugby World Cup
match at Cardiff Arms Park.
Her Royal Highness was received by Her Majesty's LordLicutenant for South
Glamorgan (Captain Norman
Lloyd-Edwards).
Wing Commander Durid Sudan Defence Force, died on October 6 aged 90. He was born on December

"CULLY" Scoones was knighted for his long and distinguished service to the Sudan, which began in 1926. He was also one of the original Desert Rats in 1940-41, and later his tanks thwarted the Japanese attack on Imphal in 1944.

He was a man of the highest integrity with a rock-like dependability, ready wit and delightful sense of humour. He had the ability to give others a warm sense of achievement while always underplaying his own efforts. Indeed, he was the epitome of the very best of the dedicated soldiers of our imperial era.

He was educated at Wellington and Sandhurst before joining the Royal Fusiliers in 1920. He transferred to the Royal Tank Corps in 1923, and three years later went to the Sudan as a machine-gun officer with the Sudan Defence Force. Returning to England in 1933 he

became adjutant of the 1st Royal Tank Regiment, and was lucky enough to be appointed GSO3 to the experimental Mobile Division in 1938. This led to his posting a year later as brigade major of the equally experimental Cavalry Brigade in Cairo, which was preparing, with woefully inadequate resources, to defend Egypt from Italian attack. When the attack did come in September 1940, Scoones was GSO2 in General Richard O'Connor's Western Desert Force. Cully carried out much of the desert reconnaissance work, which paved the way for O'Connor's defeat of the Italian 10th Army at Sidi Barrani in November 1940, its expulsion from Cyrenaica and its total destruction at Beda Fomm in February 1941. He was awarded an immediate OBE for his work with

O'Connor. During Auchinleck's subsequent attempts to relieve Tobruk he was second-in-command of the 42nd Royal Tank Regiment. He took over command in the middle of the "Crusader" offensive in November 1942, during which the regiment supported the 4th Indian Division in the liquidation of the Axis frontier

positions around Sidi Omar. He was sent back to England as a battle-experienced officer to become deputy director of military training in the War Office before going out to command the 254th Tank Brigade in Burma in 1943,

The Japanese pre-empted the

planned British offensive across the Chindwin by attacking the positions of the 4th Indian Corps, commanded by Cully's eldest brother, Geoffrey, at Imphal in March 1944. The Japanese 15th Division managed to occupy the vital Nungshigum feature overlooking the Corps' headquarters and main base in the plain of Imphal, but they had no anti-tank guns with them because their higher command believed that the British could not deploy tanks in the Assam hills. In the decisive battle for Nungshigum, Cully's tanks and RAF fighter bombers supported the Dogras in re-taking the feature. The tanks achieved complete

surprise, crushing the Japanes trenches, but at great cost in tank commanders, who had to stand up in their turrets to steer their drivers through the thick undergrowth. The immediate threat to imphal was

Cully continued to command the 254th Tank Brigade until he was seriously hurt near Mandalay. He went back to his old job in the War Office with a well-deserved DSO. In 1947 be was asked to return to the Sudan as Assistant Kaid (Commandant) of the Defence Force. Highly respected and genuinely loved by its officers and men, he took over the post of Kaid as a major-general in 1950, and masterminded the handover to Sudanese officers in the Sudan's approach to independence.

The local political situation in 1954

was fraught with uncertainty; pro-Egyptian elements had succeeded in defeating the Mahdi's party in the elections for the first Sudanese parliament. Among the guests invited to the ceremonial opening was Egypt's President Neguib. Lady Scoones was the first to pick up rumours of a possible attempt by the Mahdi's followers on Neguib's life, and advised Cully, who was on tour, to return quickly to Khartoum. On his advice Neguib's route to the governor's residence was changed. Riots ensued in the city, with some loss of life, but Neguib was safely spirited away and dispatched back to Cairo during the night. Regrettably, Cully's later advice to his Sudanese successor that Northern officers should not be posted to units in the South fell on deaf ears: the long and bloody civil war there was the tragic result.

After he retired in 1954, Scoones chaired the Brewing Industry's National Trade Development Association until he became director of The Brewers' Society in 1958.

He married Isabella (Ella) Bowie Nisbet in Khartoum in 1933. They had one daughter.

### **HOMER JENSEN**

Homer Jensen, whose pioneer-ing work in the field of aerial surveys helped make possible the discovery of North Sea oil. died of cancer on October 5 at his home in Wyncote, Pennsylvania, aged 77.

HOMER Jensen's true career began with the detection of Uboats during the secood world war. He had been trained as a physicist at the University of Chicago, but the demand for physicists was low at the time of his graduation in 1935, and he worked instead as a professional photographer in Cincinnati. The coming of the war changed all that. Jensen was recruited by the US Navy to join a team developing weaponry for U-boat hunters, and co-invented the magnetometer - a device that detects metal objects by measuring slight distortions in the earth's magnetic field.

Jensen was not slow to see the wider possibilities of his invention: if it could find submarines under water, it could find mineral deposits, too. In 1946 be joined the Aero Service Corporation, specialists in aerial mapping, and put his war time experience to commercial use. Over the next four decades, using ever more sophisticated instruments, he directed aerial surveys of every continent except Antarctica.

The work was of immediate interest in the international oil and mining companies, and as early as 1947 Jensen was searching for oil deposits in the waters off the Bahamas. He went on to oversee the first major survey of the North Sea, arguably revolutionising the British economy as a result.

With such proven success, his services were in constant demand all over the world. Jensen went on to produce a triumphant survey of the Alaskan North slope, and made major discoveries of oil and minerals in Venezuela, Australia, the Middle East and Africa.

Jensen, who held 19 US and foreign patents and was working on another at the time of his death, turned his attention in the 1970s to the problems of aecial mapping.

.Up to that time, comprehensive photography of large land masses had been greatly hampered by cloud cover. Jensen solved the problem with the development of airborne radar that could pierce the clouds and produce accurate photographic images. Among other achievements, this work led to the comprehensive mapping, for the first time, of the whole of Brazil.

Jensen is survived by his second wife and five children from his first marriage.

### **DORIS LILLY**

Marry a Millionaire and How York Post were sometimes to Make Love in Five Lan-Manhattan's Beth Israel she said, "they're pleasant and Medical Centre on October 9 they smell good, and they eat beth McDonald read the lessons aged 60. She was born in Los well and drink good wines, and the Most Rev Dr Robert Angeles on December 26, and that's all right,"
1930. In her wouth D preached the sermon. Among

constant contact with the rich and famous characters who peopled her books. She was, indeed, a character in her own right in the social whirl of charity balls and nightclubs, and was widely believed to be the inspiration for "Holly Golightly" in Truman Ca-

her work, readily conceding published by Putnam and and it was 14 years before her was a frequent guest on TV survivors.

Doris Lilly, author of How to that her columns in the New "silly", and those she wrote guages, died of cancer in about often "shallow". Still,

In her youth, Doris Lilly was a contract actress for Cecil DORIS Lilly never married B. De Mille. It was a period anyone, millionaire or other- during which she houed her wise, but her work as a gossip talent for identifying up-andcolumnist brought her into coming people, and she was a close friend of Ronald Reagan between his marriages to Jane Wyman and Nancy Davis. Three years ago, two of Reagan's letters to her were auctioned at Sotheby's for \$4,400. The purchaser was publisher

Her writing career began in pote's Breakfast at Tiffany's. 1951 when her first book, How However, Lifly failed to a commentator for a New ably enjoyed that. Lilly had few illusions about to Marry a Millionaire, was capitalise on it immediately. York television station and

became an instant success. Marilyn Monroe starred in the in Five Languages, appeared in the bookshops. It was followed by Those Fabulous Greeks: Onassis, Niarchos and Livanos in 1970, and Glamour Girl, which she co-authored with Robin Moore, in 1977. In 1984, Doris Lilly was Avenue.

persuaded to write an updated version of her most famous book, but hy that time

bered as part of the scene she

She leaves no immediate

### More credit to the churches

Nicholas Coote

CARDINAL Hume has stated that find that more than half of the Britain could no longer claim to be a Christian country; its public policy was substantially at odds with the Christian tradition. The results of the recent European values survey appear to reinforce this: what right has a 13 per cent minority to seek to impose its standards on a pluralist society, particularly as only 16 per cent of the population have "great confidence" in the churches? So, short of a miracle, how can the churches go through a decade of evangelisation without deep pessimism?

Churches, in fact, can derive considerable optimism from the values survey while not underestimating the challenge. Starting from the assumption that Britain is a secularised, materialistic society, there are some considerable surprises. If 13 per cent go to church once a week, between a fifth and a quarter of the population go on a monthly basis - not a tiny minority. Stranger still, more than 40 per cent have confidence in the churches generally, (16 per cent great confidence). More than half the population thinks churches give proper guidance on spiritual needs, nearly a third finds they offer helpful answers to the difficulties of family life, and a quarter approves the churches' approach to Britain's social problems. Churches are not a discredited minority.

Reactions to the survey have pointed out public approval for the churches speaking out on matters of social morality and social policy such as Third World issues, racial discrimination and ecology; around two thirds would not think that this is interfering in politics. This is contrasted with a supposed disapproval of church intervention in matters of personal morality. In actual fact il is quite surprising 10

Lord Barnett, 68; Mr Peter Bijur, former chairman, Texaco, 49; Mr R.N. Bottini, trades uninnist, 75; Mr Steve Cram, athlete, 31; Lord Dunalley, 79; Mrs Elizabeth Esteve-Cnll,

director, Victoria and Albert

Museum, 53; Sir Leslie Fletcher, chairman, Westland, 69; Mr Justice French, 66; the Earl of Galloway, 63; Miss Lillian Gish, actress, 92; Professor J.A.G.

population thinks it is appropriate for churches to speak out on issues such as abortion and euthanasia, and slightly less on marital infidelity. This is closer to southern European countries such as Italy, Spain and Portugal than to northwest European countries.

Much has been made of the fact that 46 per cent never go to church, and yet 54 per cent claim to be religious and 71 per cent believe in God. There is indeed a gap between the churches and those who have a sense not only of the transcendant both in the sense of the divine, but of the immortal and the moral - two thirds believe in the soul and sin. This is not the language of crass materialism and secularism. The Christian orthodoxies are considerably less well supported, a personal God, resurrection, and only less than half believe in - or hope for? - heaven. Nevertheless there is purchase here for the churches in the decade of evangelisation; they are speaking to people who are not hlind to transcendence nor deaf to moral claims and obligations. There is a longing latent in the curious cluster of incoherent beliefs in heaven, resurrection and reincarnation.

Perhaps we have been here before. In the first century at Athens, Paul of Tarsus addressed a society which was both intensely curious and pluralistic in its religious beliefs, and fairly permissive in its moral conduct. He commented that their "unknown God" was the very God he was proclaiming to them. This God had placed in the human race the capacity to seek the deity and hy feeling their way towards it, succeed in finding God. Indeed God was not far from any of them, and they were all God's children. Now God was telling everyone everywhere that they

Birthdays today

right and wrong matter and Jesus was the standard by which good and evil was to be judged. God's endorsement of Jesus had been shown by his resurrection from the dead. The account then describes the laughter with which talk of rising from the dead was greeted. But some said: "Let's hear you talk about this another time". When Paul left "there were some who attached themselves to him and became believers".

This is the pattern of the churches' task in the decade of evangelisation. Explicate and unveil what is there already in today's situation, and bring human hearts to fulfilment. Religion is not a rival to family, friendship, leisure or work. Invite people to face up to the moral challenge founded upon Jesus, not to pick over a buffet supper of rival moralities or even choose from the à la carte menu of different churches. Orthodox beliefs need to be presented as the expression of God's solidarity with human beings and his guarantee of fulfilment. They are not abstract formulations about a remote God. Demonstrations of that belief and behaviour are not just an individualistic private matter but imply human attachment and solidarity. Attachment to the community of faith should be shown to be the way in which God's project becomes sacramentally incarnate in the world of today. It should not be mistaken as a drive by churches to bag converts.

The programme is formidable but not impossible. The values survey should help us to locate the task where il actually is, not where we might like it to be, nor where the pessimists fear it is.

### APOLOGY

EDMUND HEWARD: LORD DENNING, A BIOGRAPHY (Weidenfeld & Nicolson, 1990)

The hardback edition of the above work reproduced on page 212 comments by Lord Denning on the trial and acquittal on appeal of the "Winchester Three". Lord Denning has subsequently acknowledged that the Winchester Three were not guilty and has unequivocally withdrawn any implication to the contrary. The author and publisher of the above work readily concur in Lord Denning's retraction and apologise for the publication of these comments.

Appropriate erratum/addendum slips have been prepared and this matter will be corrected in any future editions.

ON THIS DAY OCT 14

have confided, had it been necessary,

During the early part of World War 1 (Sir) Paul Dukes (1889-1967) was o musician attached to the Marineky Theatre, Leningrad, Later, in the course of a secret mission, he found it expedient to join the Red Army.

**BOLSHEVISM AT** CLOSE QUARTERS.

By Paul Dukes When on September 3 of this year I crossed the Russian frontier and arrived in Lettland, after walking 20 versts through bog marked on the map "impassable," and rowing across a lake in a leaky fishing boat with a branch as oar, the first question I saked was the one nine Russians out of ten would have asked—namely, "Are the English coming to Petrograd?" After living nearly 10 months as a Russian crossed the Russian frontier and nearly 10 months as a Russian amongst the Russian people, I had learned to act as a Russian, to think as a Russian, to speak about things as a Russian, and to ask the same questions as almost any Russian

would ... I wanted to live the life of the people. I wanted to see Communism, Bolshevist Communism, in practice. I wanted to see how it affected the

common man. Why did I stay so much longer than I had intended? How was it possible for me to live there so long disguised now in one way, now in another, and come out of it whole ? I owe my life and my safety to the should, because they saw in me a last link with England, a representative of the British people, who they believed would be able to tell the English not what Commissars were thinking, but what the workmen, the soldiers, and the peasants were thinking. Most of my friends were Socialists, but not of any party. The military unit to which I lest belonged consisted of about 100 men. All the

the secret of my identity.

1919

I have not met a single man or woman in Russis, Commissar, Com-munist, or otherwise who really helieves the Bolshevist régime will last in Russia under any conditions. If the blow is not dealt from outside it will eventually be dealt from inside, as the ever-increasing number of strikes, peasant risings, and the widespread movement of the Green Guards clearly shows. Only if it is dealt from the inside it will be a spontaneous movement, completely unorganized, sweeping all before it like a forest fire, violent and brutal, in the form of massacre not only of Commissars and Communists, but of fearful pogroms of the Jews, in which thousands of innocent people will perish. The incensed pessants, rising in their bordes, will slake their burning thirst for revenge on those to whom they attribute their present misery and who have profited at their expense.

There are no leaders of the people in Russia to organize this movement and lead it into proper channels. One of the cleverest things the Bolshevists have done to maintain themselves in power has been to pick out the leaders of the workmen and "remove" them. The Bolshevists are born leaders, and they can tell a leader at sight. At the first suggestion of agitation or opposition to the existing rule the leaders of the men are arrested and simply disappear. Nothing more is heard of them. Wives and relatives may inquire about them for weeks, but they rarely hear anything of them. They were "counter-revolutionaries," "enedevotion of people who would willingly have suffered rather than that I mies of the State," and were treated as such. During the April strikes in Petrograd one of the most prominent demands put forward by the workmen was for the restoration of " true Soviets." The agitation was labelled by the Bolshevists " social revolutionary" and "Menshevist." Said Evdokimoff, secretary of the Petrograd Soviet, at a meeting of that body, "Henceforth every honest workman has the right at sight to put chiefs of that unit knew who I was. Of a bullet through the head of any man all those men there were not half a who holds social revolutionary or dozen to whom I would not readily Menshevist ideas."...

## Manning the barricades

#### ROCK

**Billy Bragg** Town & Country Club

EVIDENCE that even socialists are not averse to a spot of oldfashioned idolatry came in the form of crowd barriers at the foot of the stage. The marxist leaning of Billy Bragg's music does not discourage his aodience from treating him like your typical capitalist rock star and the fencing was there to deter stage invasion. But barricades are the stuff of life to Bragg fans. Several times the singer was forced to pause as nue determined comrade or another scrambled over the

In mitigation, it should be noted that Bragg has recently acquired a oew breed of fan. His latest album, Don't Try This at Home, is unusually accessible. Lush orchestration and the presence of what qualify as actual melodies counteract Bragg's trade-marked unvarnished croak. The formula has produced two hit singles, "Sexuality" and "You Woke Up My Neighbourhood", and a bevy of COTIVETTS.

The set began with a jaunty version of the latter tune. Then, ominously, the band shuffled off stage, leaving Billy and his guitar. Bragg announced with some glee, "Despite all that lovely in-tune stuff, I am still quite capable of . . . this."

A ferociously tinny jangle emanated from his guitar for the next 20 minutes as he played early material that recreated the halcyoo era when bachelorhood provided his professional raison d'etre. His Barkingside rasp, relatively subdued

at first, gradually assumed Only Fools and Horses dimensions. Old favourites such as "The Milkman of Human Kindness" were invested with a hitterness that time has not quelled. Nor, for that matter has it tempered the took of Bragg's between-song hanter. Mrs T's departure has left a hole in his repertoire, but he came up with some new ones about the Blackpool conference.

Humour is a quintessential feature of Bragg's concerts. Without it, it would be difficult to sit through 90 minutes of unrelenting attacks on the system. Anecdotes are delivered with such impeccable timing that should the world ever set itself to rights, a finture in stand-up comedy andoubtedly beckons.

The music livened up considerably when the band drifted back on stage. "Dolphins", a duet with keyboardist Cara Tivey, was flowingly pretty. Levi Stubbs's "Tears" sparkled with trumpet glissandos. For the bouncy "She's Got a New Style", Bragg brandished a melodica - an instrument that he claimed not to have touched since appearing as a sheep in a school Christmas pageant

Lest we be too fulled by this anecdote, Bragg followed this with a ew words about the National Front. For once, he was not joking. His urgency was more compelling than the song which followed, "Accident Waiting to Happen".

Pop and politics mix like, well, Billy Bragg and Tories. But if Bragg's earnestness sometimes lavs him open to ridicule, music would be the poorer without him.

All things considered, this concert was a victory for the Alternative Essex

CAROLINE SULLIVAN

Alternative Essex Man: Billy Bragg mixes pop and politics

### THEATRE

The Sleep of Reason Battersea Arts Centre

IN BRITAIN the Golden Age of Spanish drama has taken more than three centuries to dawn. A few glimmers were sighted from time to time but only in the past ten years have dedicated companies and individuals - mostly on the fringe brought that richness to our attention.

Cootemporary Spanish theatre is something else and, Lorca apart, little of it has reached these shores, though once again it is the fringe that has brought it, notably to the Gate and to Battersea. With this production the Loose Change Theatre Company in-

troduces the work of Antonio Buerjo Vallejo, now 75 and greatly honoured in his own country.

The central character of his play is the painter Francisco de Goya, old, deaf, cantankerous, loathing the tyr-anny of King Ferdinand VII, and frenziedly covering the walls of his house with the "black paintings", diabolic images of horror.

In the course of the play the foppish king takes time off from embroidering a pretty map of his country to force Goya back to court. The prevailing political atmosphere is one of terror and censorship, albeit weakened by the fact that the censor is one of Goya's few loyal friends.

The painter's personal isolation is ingeniously shown by making all the other characters communicate with him in dumb show. All we hear in

these scenes is Goya's voice, ioterpreting the signs, barking out his replies. When his doctor rings a handbell there is oo sound. The sound of his mistress's brush on the floor ceases once he enters the room, though her actions cootinue. This is a clever device but holds down the pace something terrible. Goya's suspicions about her loyalty, the fears for his sanity, take so long to ruo their course that they muffle the playwright's theme - the survival of inspiratioo in

a totalitarian state. This is the more disappointing because the performances are charged with brilliant detail. The faces look so right - David Bailie's thin-lipped cleric, Raymood Greenaway's dainty courtier, William Sleigh's troubled liberal, the anguished mnuth of Gabriella Dellal as the devoted

Leocadia. Morris Perry's gruff Goya has the ioner certainty of a man

With limited resources, Tessa Schneideman's production projects paintings onto skewed wall panels but the cowls worn by the scene-shifters are o further impediment to speed. Some of them can scarcely see to unscrew the sofa and convert it to a

Given that Vallejo's Spaoish text is powerful and shrewd, the blame for ts reduced impact must once agaio be placed on an academic translator, in this case Marion Peter Holt. an American. Fidelity to the original is no virtue when it halts dramatic reconstruction in another

### OPERA \*

La Bohème Glyndebourne

ALONG with two recent festival hits, Cosi fan tutte and Jenufa, Glyndebourne Touring Opera is going the rounds with a new production of La Bohème blessed with a fresh, appealing cast and loaded with visual elegance.

These are young singers in an opera of youth and boundlessness, and their performances have a natural eagerness and case: so does the orchestral performance under Ivor Bolton, for whom immediacy and tight discipline provide the means to create searingly sensurus textures. No doubt the whole thing will sound even better in larger houses, where voices and instruments can flame without hitting against the theatre's acoustic threshold.

On Saturday at Glyndebourne there were occasinnal problems, though not for Anne Dawson's Mimi. The flame in her voice is cold and pure, almost depersonalised and beautifully at one with the nrchestra. She stands with her arms by her sides and seems to just let

Bohemian notes: from left, Mimi (Anne Dawson), Rodolfo (David Maxwell Anderson), Marcello (John Hancock) and Musetta (Sosan McCulloch)

the sound come out; an angel indeed. effort and no cheap tricks, no gagging oo emotion. His line is clear, his sound vivid and remarkably steady; and again a nice certainty in the he looks good in the part, too, with an music. Her Marcello is John Hancock,

engaging charm and readiness. Susan McCulloch as Musetta does Opposite her, David Maxwell Ander-son as Rodolfn also exposes little

Susan McCulloch as Musetta does
not quite have the figure for a cocotte, but hers is a sporting performance. done with winning vocal flourishes as likeable as one could wish, sure and steady in his singing. Also fine are the other members of the garret quartet, hard Halton's sm and Andrew Slater's gentle Colline.

The director Aidan Lang and designer Russell Craig place the action in the 1890s of the opera's composition rather than in the high Romantic Bohemia of Murger's novel, but this really affects only the costumes. The settings are plain almost to a point of oudity, providing neutral pale-coloured backgrounds against which the singers can project themselves vividly.

Only in a few places does there seem some doubt about style. The activity in the street scene is not busy enough for naturalism, and nnt choreographed enough for expressionist stylisation. Also, the change of light at the end of the first act, and the gash of scarlet that appears across the back io the third, are gestures which, though striking in themselves, seem to belong to another production, oot to sav annther opera. They have little to do. with the touching candour that. distinguishes the evening as a whole.

PAUL GRIFFITHS Arts featurés, page 13

### WORD WATCHING

#### Answers from page 20 COMMINUTE

(c) To reduce to minute particles, from the Latin cum-together + minuter to make smaller, eg the production of comminute citrus base by slicing up the whole fruit to release not only the juice but also the aromatic oil in the peel. FINNESKO

(b) A variety of inner boot made out of Norwegian reindeer, taken from the animal's bock, which is ready shaped so that it requires no heel seam. It is stuffed with senna grass for insulation, and often used to clip into skis. (c) An alcholic drink made by the Tartars from the fermented milk of wild mares, from the Tartar

kumin: "By the fermentation of mares' milk an alcoholic liquor called koumiss is prepared." SALOOP (b) A hot drink based on powdered orchis root or sassafras with milk and sugar, formerly sold on the streets of London, from the Arabic thaleb fox's testicles: "The saloop stalls were superseded by the modern coffee stalls."

This position is from the game Mecking — Tan, Petropolis 1973. Can you see how white quickly gained a decisive material advantage?

 CHOICE: The underwater wildlife series allows itself a joke at the expense of its over-jovial presenters by having them nipped on the legs by stingrays. After that, not surprisingly, it is on with the wetsuits. Mike deGruy and Martha Holmes are in, or rather, on the edge of, the Cayman Islands. But the real stars are the cameramen, taking their equipment down to the sea bed and coming back with footage so clear and sharp it might have been taken in a atudio tank. Some of the colours are dazzling and the creatures of the deep constantly upstage the humans. Martha retaliates by taking to a small submarine but the fish look better. The commentary is relentlessly jolly, (Ceefax)

5.05 Film: Beyond a Reasonable Doubt (1956, b/w).

© CHOICE: The final Hollywood film of the German emigré director

Fritz Lang is a characteristically dark and ambiguous thriller on the theme of capital punishment. To expose the system, an abolitionist newspaper owner (Sidney Blackmer) plans for his future son-in-law (Dana Andrews) to get himself convicted of a murder he did not commit. The idea is that Blackmer will then intervene to reveal the truth, But Blackmer is killed in a car accident and the evidence that would save Andrews is destroyed. The story has even more twists than that, including a climax that was not revealed to the cast and crew until the day it was shot. On the plot level the film is tense and crew until the day it was still. On the processes the unit is tense as a gripping with hardy a superfluous frame in its 75 minutes. At the same time Lang and his script-writer Douglas Morrow (an Oscar winner in 1949 for The Stratton Story) develop a complex study of guilt and deceit. Joan Fontaine plays Andrews's inlanded.

6.30 DEF II begins with Dance Energy. The first of a new series from the club scene, presented by Normski
7.80 Standing Room Only. Football magazine series
7.30 Open Space: Over a Barrel.

© CHOICE: Last week's Conservative conference was the target of a lobby by small businessmen who are traditionally the party's of a looky by strain dispressions who are traditionally the party's solid supporters. They were publicans protesting at a change in the law which, they claim, will close pube, push up prices and leave many landlords tacing ruin. The government's idea was to inject greater competition in a business dominated by a few big. ers. But a Bristol landford, John Webb, is not impressed. His report shows loyel publicans going bankrupt and being thrown out into the street. He warns of beer at £3 a pint and homely inna being transformed into raucous karacke parlours. Asked for a comment, Whitbread offers sympathy but blames the government. (Ceefax) Nature: Fair Game?

 CHOICE: One of the saving features of the apartheid regime in South Africa has been its record on conservation. But for strict tion the white rhino would probably be extinct by now. instead, there there are enough to send to parks throughout the world. The black population does not see things in the same way. As Nelson Mandela says, it is difficult to persuade people living in poverty that conservation should have priority. This Nature report, maintaining the high standard of the series on its autumn return, focuses on the Kruger National Park which abuts one of the poorest black townships. The blacks regard the park as their land, stolen by white governments. They want it back — to build on, to cultivate and for water and fuel. Chief Buthelezi calls the parks white men's playgrounds". The sneg is that wildlife attracts

tourists and brings in much-needed foreign currency, (Ceefax)

8.30 Filte: Long Time Gone (1986) starting Paul LeMat, Will Wheeton and Ann Dusenberry. A made-for-television black comedy about an under-employed private detective who, at the same time as being hired to find a beautiful woman's missing husband, is handed his nine-year-old son by his former wife. ### Martyn went blind at 25. RNIB helped him see the light at the end of it.

When the trauma of sudden blindness tore Martyn's world apart, it cost RNIB £32.43 a day to give him support and training to help him pick up the pieces.

But there are thousands more blind people, just like Martyn, who we can't help unless you help us.

Please give what you can to provide a lifeline for blind people.

PLEASE HELP THE OTHER ONE MILLION I enclose a cheque payable to 'Royal National Institute for the Blind' or please debit my Visa/Access card. Card No.

Expiry date of card\_\_\_\_\_ £100 £60 £32.43 £10 Qther £

French theme park doubts

### Disney fantasy meets cruel financial reality

By BILL FROST IN MARNE LA VALLEE, FRANCE, AND RAY CLANCY

staff at Euro Disney - the 5,000-acre theme park east of Paris, due to open next April office in Paris vesterday. - are condemned to wear a two million British visitors in nation, the 15-storey edifice is the first year were not borne also called Le Château de la out yesterday by the travel

industry. At Disneyland in California and Disney World in Florida, attendances have dropped by 20 per cent, despite a reduc-tion in entry fees. Disney shares have also fallen on the stock market.

Deals have been struck beteen large travel companies for what was seen as a lucrative slice of the European

LIKE Mickey Mouse himself, cannot tell you how many members of the Disney board bookings we have," said a spokesman in the Euro Disney Regardless, the collective fixed smile. By the time the staff grin became rigidly joy-first paying customers arrive, ous at the weekend for the the smile may be somewhat unveiling of Sleeping Beauty's castle. In deference to the host

> Euro Disney staff from the United States, or cast members as they are known, had some difficulty smiling and speaking French at the same time. The weekend unveiling ceremony was a prelude to the great day next April, and a dress rehearsal for Disney executives brushing up their heavily-accented French.

Belle au Bois Dormant.

Security surrounding Mickey Mouse, Donald Duck,

Smiling through: Mickey Mouse floats over the huilding site that will be Euro Disney

### Green card lottery gets the green light

Continued from page 1 had an inestimable advantage over those mailing from abroad, and the optimum moment seemed to be straight after Saturday's final collection. Applications that forecourt to camper vans. reached the post office too Entrepreneurs hawked readyearly (some 2.5 million, said addressed envelopes by the officials) were disqualified.

The crowd had begun to lorries. form as long ago as last and talking in myriad tongues, they came bearing cardboard cost of more than £1,150.

boxes, dustbin bags and suitcases stuffed with multiple applications. There was a long row of portable toilets for their use. The nearby Texaco sta-tion had rented out its hundred from the backs of

Among the hopeful was Monday, and the post office David Peters of Radlett, was expecting as many as Hertfordshire, who, desperate 75,000 people over the week. end. Some swarthy, some opportunities, flew over from pale, the poor and the wealthy. England last Thursday to mail

was tight for the unveiling ceremony. Large men in what appeared to be Afrika Korps uniforms and high boots pa-trolled the site accompanied by matching sandy-coloured alsatians. The guards smiled: the dogs just looked hungry.

At first sight Davy Crock-ett's Camp, just one among many fantasies being brought to life at Euro Disney, had the sinister look of a German prison camp. Sandrine ("I am the cast member chosen to guide you round this fantasy resort") seemed to lose her smile just for a moment when it was suggested the sign at the camp gates should read "Stalag Luft Disney

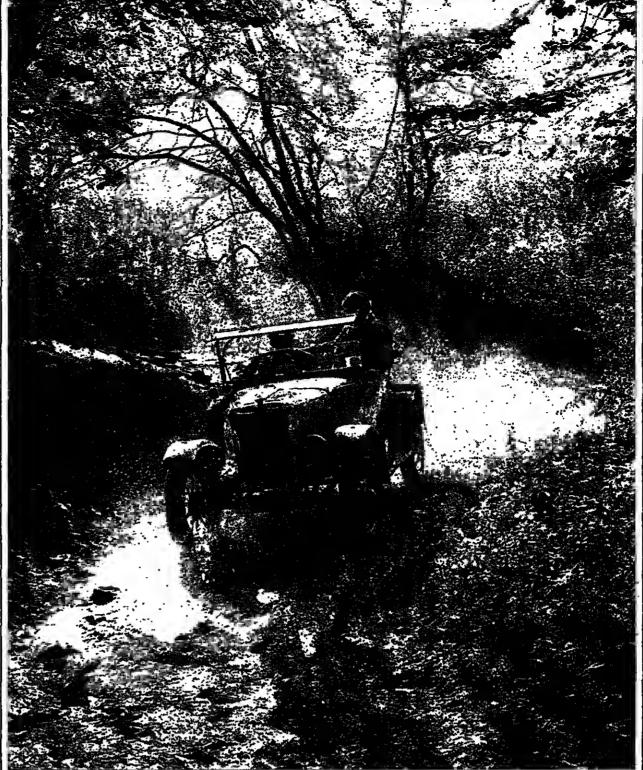

The people of Marne la Vallee, the once quiet area which now has Euro Disney on its doorstep, are not entirely convinced yet that turning excellent agricultural land and hunting country into a fantasy theme park has added to the quality of local life. Motorway bridges and roadside walls near by have been daubed with a ripe selection of insults which would even wipe Mickey Mouse's perma-smile.

Fantasy does not come cheap. When the theme park opens next April a day out at Euro Disney for a family of four will cost anything up to £100 in admission charges and hamburgers. "It is such a bargain, don't you think?" said Martina, a cast member from Germany, smiling more broadly than ever.

The Paris Travel Service which offers packages ranging from £150 to £450 for a few nights' stay inside the park including entrance fee, depending on type of accom-modation that ranges from luxury hotel to Davy Crockett log cahins, claims to have taken thousands of bookings.

Elsewhere there is plenty of advertising but no rush to experience Euro Disney. One large travel agency which has brought out a Disney brochure said: "The whole thing could fall flat on its face. The decision to open part of the complex early instead of waiting until everything was ready could prove an expensive mistake. Bookings have not been coming in. Perhaps it is because of the recession.

Last week Goodwood Travel Ltd, one of the luxury travel groups that specialises in chartering Concorde, announced a £695-a-person tour that includes a 1 hour 40 minute supersonic flight to Paris, two nights' accom-1,500 applications at a total modation at a four star hotel and a two-day entrance pass.

Over the hill: a 1927 Jowett, one of more than 100 vintage cars that converged on Wales at the weekend, tackles a muddy obstacle near Presteigne. The annual "Welsh Trials" are organised by the Vintage Sports Car Club.

### EC food convoy reaches Vukovar

siege and constant bombard-

ment for 51 days. Lord Carrington, chairs the EC peace conference in The Hague, said yesterday on the BBC that Yugoslavia was finished. There is no way it can be reconstituted, he said, adding that a looser federation would that a looser federation would take shape. Lord Carrington said Slobodan Milosevic, the Serb leader, had agreed to a sovereign Croatia, provided the 600,000 Serbs in Croatia had "cast-iron assurances" of their safety.

Fierce fighting continued in the centre of the city as the

convoy approached and the Yugoslav air force carried out an afternoon bombing raid on the suburbs. Conditions in Vukovar are described as desperate. In a statement issued at the weekend, the Croatian defence ministry said that it had "ceased to exist as a town".

The fate of the latest ECbrokered ceasefire will also be determined by the success or failure of the convoy. Further fighting was reported in eastera Croatia's Osijek and Pakrac. Daily promises by the federal army's deputy commander in Zagreb, General Andrijs Raseta, that the attacks will be stopped to allow access to Vukovar have so far come to nothing. There are indications that the local command has been ignoring orders to stop the assault.

**MONDAY OCTOBER 14 1991** 

### Invergordon denies talk of cross holdings

By GILLIAN BOWDITCH

INVERGORDON Distillers, the Scottish whisky group fighting a £350 million hostile bid from Whyte & Mackay, a subsidiary of American Brands, denied that it had plans for a cross-shareholding deal with any third party, including La Martini Quaise,

the private French group. Chris Greig, managing director of invergordon, said yes-terday. There have been no talks on the issue with anyone". He said reports on a tie with the French group were

incorrect.

W&M increased its offer for Invergordon to 275p a share on Thursday and picked up 9.8 per cent of the group's shares in the market. Most shareholders will receive the W&M offer document tomorrow. The offer is final and closes on October 30.

The W&M offer document claims invergordon has con-sidered cross-shareholding in the past and quotes a Sunday Times article in which Dr Greig is reported to have said: "At the end of the day, crossshareholdings may be de-sirable". Michael Lunn, W&M chairman and chief executive, says that while cross-shareholdings might maintain Invergordon's independence, they would dilute existing shareholders' interest and could deny shareholders a hid premium for their shares.

W&M's argues that Invergordon will be vulnerable to the downturn in the Scotch whisky cycle if it remains independent as it has few brands and is over-dependent on commodity sales. Invergordon says the W&M bid undervalues the company which is well-placed to prosper as an independent company in the Nineties.

Mr Lunn says he is concerned about Invergordon's profit forcast of £32 million for 1991. "How much of that is one-off profits and how much is sustainable?" he asks. They have said nothing about profits in 1992".

Dr Greig said yesterday that the group had made three proyears as it prepared for the management buyout, the subsequent flotation and now the defence of the bid. He said: They have all been prepared in the same way, under the same conservative accounting methods, and two out of three have been achieved. We have said the company will continue to grow beyond 1991. If Whyte & Mackay are implying that there are a lot of Mickey Mouse one-offs in the 1991 forecast, I categorically deny that."

### **Blue Arrow** defence due to open

/ 🙆

By OUR CITY STAFF

THE defence is expected to open in the Blue Arrow trial today, after ten weeks of legal argument without the jury

present. Members of the jury have been warned that the trial, already one of Britain's longest and most expensive, may not finish this year.

County NatWest; NatWest Investment Bank, its immediate parent; UBS Phillips & Drew Securities, the stockhroker, and five individuals deny conspiring to dishonestly mislead the market over the outcome of the Blue Arrow rights issue.

A video to keep insiders on the outside

From PHILIP ROBINSON IN NEW YORK

HARVEY Pitt, a bearded New York lawyer, stares right into the camera and delivers the line without a trace of irony: Some of my clients say the

worst penalty they face is paying my fees. They can be very, very expensive."

The quaking wreck sitting opposite is a factious personnel manager who has been caught insider dealing. He is squirming for a defence hut with that one line, Mr Pitt, whose time is charged at \$450 an hour and who defended lvan Boesky, convinces the

executive to plead guilty.

Mr Pitt's brief celluloid stardom is not made in a Hollywood blockbuster on the lines of "Boesky Makes it Big", but is part of Think Twice, a corporate video docu-drama that reconstructs several insider dealing case histories in a 38-minute video selling at \$450, Mr Pitt gave his time free.

The film makers say they did not try to recruit the hig names that made insider dealing front page news in the Eighties. Mr Boesky, who paid other inmates to do his laundry while serving two years, has disappeared from view. Dennis Levine, former Drexel Burnham Lambert banker, is husy defending fresh allegations of shady practices; and Michael Milken has just

started a ten-year jail sentence.

Bruce Brumberg, whose company produced the video with Browne & Co, security printers, said: "We set out to show that the Securities and Exchange Commission does not only go after the hig names, but iovestigates and prosecutes much lower profile individuals."

Sprinkled among the actors are some heavyweight appearances by former high-ranking officials of the SEC. Mr Brumberg added: "We think this will be of interest to a wide variety of corporations giving training courses to their employees on the dangers of trading company secrets. The US laws apply to all those corporations whose shares are listed here and to anyone who buys shares in America. We have already had enquiries from several UK firms."

He expects to sell 1.000 of

### **Dozens** of mortgages claim to

save you money.

### **But are they** being economical with the truth?

To weigh up a mortgage, you need to look beyond the headlines. If you're borrowing a high proportion of the property's value, you should pay close attention to the mortgage indemnity insurance which will be required.

If the lender insists on a particular buildings and contents policy, you should examine it closely.

And if you're interested in an endowment mortgage, you should ember that most big banks and building societies, by law, are only allowed to offer you a single firm's policies - so you'll have to shop around if you want to see how they compare.

But if this all sounds a little tiresome, there is an alternative. At John Charcol, it's our job to take all of these factors into account - and then, as independent advisers, to recommend the mortgage and insurance which are right for you.

For more details, or a written quotation, call us now on (071) 589 7080. Or write to us at Mercury House, 195 Knightsbridge, London SW7 1RE.

Talk about a better mortgage. 071-589-7080

Cheval firms have Maktoum family links

### Dubai directors on Hanson boards

By Angela Mackay

HANSON plc's bloodstock interests appear to extend beyond 'hese shores to involve the Maktoum family of Dubai, among the world's greatest racing enthusiasts and bloodstock owners.

Company searches in Gibraltar, the Isle of Man, Jersey, Panama and Britain show Maktoum family representatives are board directors of companies associated with Hanson.

The searches indicate that the Cheval network of Hanson subsidiaries, some of which held Hanson plc stakes in bloodstock partnerships, can be traced to several tax havens. According to files at companies house, Hanson has invested £11.7 million in bloodstock partnerships from 1988 through three subsidiaries, Cheval 1,2 and 3, and subsequently lost

about £8.8 million on the venture. The three Chevals owned 80 per cent of a bloodstock partnership that included Lord White, Hanson's American chief, and Robert Sangster. In August, Hanson Fox & Gibbons, the law firm in said it would not be making any further investments in horseflesh and that the partnerships had been sold to another subsidiary. On Friday, a Hanson spokesman said the partnerships had been transferred to the plc and not to another

New searches, however, show several other Cheval companies registered offshore and one, Cheval Holdings (UK), in Britain. Cheval Holdings Inc m Panama and Cheval Investments Ltd in Gibraltar number Sultan Bin Mnjin and Hilal Bin Abdullah Dumaithan among their directors. The former, based in Dubai, is believed to be a member of the Maktoum family, while the latter, Dubai sources say, has acted as a nominee for the royal

Cheval Investments is owned by FG Management Ltd in the Isle of Man and managed by FG Management Services in Gibraltar. The latter's registered office is

Gibraltar, where Nicholas Keeling, one of the directors of the Isle of Man company, is a solicitor. Mr Keeling represents Lord Hanson's interests in Gibraltar. Sultan Bin Mujin is also a director of Oak Stables, which was incorporated in 1985 and later that year had its shares transferred to Racetown Anstalt, Liechtenstein. in January 1989, the shares were transferred to Cheval Holdings (UK).

The other director of Oak Stables is A Garrow, who is also a director of Cheval Property Managament, Cheval Apartments and Gainsborough Stud in Britain. A spokesman for Hanson said the Cheval trio's investment in the bloodstock partnerships had not passed through Gainsborough Stud. Notes to Gainsborough's 1989 accounts had indicated bloodstock transactions equal to the amount lost by Chevai 1 and 2 in

## Spectre of job cuts to haunt crucial pay talks at Ford

dominate the most important tumn pay round when union leaders face Ford executives

The Ford pay talks have become one of industry's last battlegrounds where unions have been able to flex their muscles to force some of the biggest pay increases of recent years. The spectre of shorttime working and redundancy, however, hangs over the talks, as the company is one of the worst casualties of the recession.

John Hougham, Ford's executive director of personnel, will not have to underline the extent of the damage of the past two years, but he will stress the bleak future that faces the business without a

### **Cross** border links fall 37%

By JONATHAN PRYNN

CROSS border merger and acquisition activity fell to its lowest level since the 1987 stock market crash during the third quarter of the year, according to a survey carried out by KPMG, the accountancy and consultancy firm.

Only 315 cross border transactions were announced during the period, compared with 228 in the last quarter of 1987. The value of bids launched between July and September was \$10.5 billion, against the record low of \$9.8 billion announced in the first quarter, when the Gulf war adversely

affected activity.

In the first nine months of the year, international merger and acquisition activity were down 37 per cent on the same period last year. Values have fallen by 60 per cent to \$34.8

However, Richard Agutter, the head of international mergers and acquisitions at KPMG, said that the recent spurt of bid activity in the UK suggested that the downturn had ended. "The upturn in activity we are now seeing, which will be reflected in figures for announced deals at the end of this year, indicates that confidence is returning," he said

### Australia to tighten controls

Sydney - Michael Duffy, Australia's attorney-general, has said that plans to toughen corporate disclosure rules could be before parliament by

the middle of next year. Mr Duffy said the government had ruled out calls for quarterly reporting, but was considering a proposal that companies be required to report "material changes" within 24 hours. In a television interview, he rejected criticism about the time taken hringing in tougher rules. "I just don't think you can introduce those sort of changes

without consultation." Mr Duffy said he supported proposal that there be a statutory obligation on directors of listed companies and trusts to disclose any material matter to the Australian Securities Commission (ASC) and the

market within 24 hours. He later said that such a system would improve the "transparency and efficiency of the market" and benefit investors

### Don't wait for the new era of low inflation

been promised a "new cra" of low inflation in the Nineties. This is the same decade that three years ago was supposed to see the repayment of the national debt. Again, some scepticism is necessary.

"core" inflation (as defined by unit wage costs) will plunge over coming months. This is due, not to a "new era", but to a large rise in labour productivity, which is perfectly normal in the early stages of recovery. Unfortu-nately, it is only in a socialist manufacturing autarky that this would automatically cause lower inflation.

First, wages are not the only costs. In the past three months, non-oil import prices have risen at an annualised rate of 7.5 per cent. With sterling unlikely to strengthen in coming months, this rise will not be reversed, but rather, unless profit margins are squeezed, it will begin to feed into

domestic inflation. Second, wages are not the only incomes in the economy. Failing unit wage costs may be partly offset by rising profit margins. This seems to be happening in manufacturing: in the past six months, output prices have risen at an annualised rate of 4.1 per cent while costs have risen by less than 1 per cent.

This recovery in margins is unlikely to be reversed against a background of rising capacity utilisation and decreased competition caused by business failures and sterling weakness. Most importantly, the market has forgotien that manufacturing accounts for just 22 per cent of the economy, and is paying insufficient attention to the services sector, where inflation will prove much more resilient.

n part, this is because services are sheltered from the "ERM discipline". The experience of Spain (where service prices are rising by more than 8 per cent while producer prices are rising by less than 2 per cent) should remind us that low inflation in manufacturing does not mean low inflation in the whole economy.

The services sector also has greater cost problems than manufacturing, as the potential for rapid productivity growth is more limited. This is because contrary to

labour-shedding in services has been less than in manufacturing. In the year to June, manufacturing em-ployment fell 5.7 per cent; this week's data will show that service sector employment fell by about 2 per cent in the same period.

These cost problems are clear from a cursory inspection of recent RPI data. This shows that, even after a year of recession, all the services components of the RPI are rising by 9 per cent or more. Even stripping out VAT, this suggests a lot of progress is required before a "new era" is reached. The scope for this progress is limited by the possibility that demand may be about to recover. It is a little odd that the market's optimism about inflation has increased at the same time as the prospect of a prolonged and deep recession has receded.

one of this is to deny that underlying infla-tion will fall. It will do so, but more slowly than many believe. Indeed, the fall may be so modest that, when combined with a steep annual rise in the housing RPI (as the annual comparison of mortgage rates the "headline" RPI rise may top 6 per cent.

be or ier

Thus, investors obsessed with the newly fashionable "headline" inflation measure will be disappointed in coming months. As this occurs, gilt yields could rise sharply, particularly if the market begins to worry about the effect that 6 per "headline" inflation will have on wage settlements in late 1992. Indeed, if the government (of whatever party) shares these concerns, a rise in base rates may well be considered - if the foreign exchange market does not force up rates before

However, this rate rise, allied to the dropping out of housing distortions in 1993, means lower inflation then is possible. In any event, the transition to the "new era" will not be smooth, and will be achieved, if at all, at the price of a long period of low growth. At least the gifts market will still be around to

THET-EDGED

Anyone who thought last July's Group of Seven summit in Londoo helped secure the stability of the Soviet Union and put the country on the path to peaceful economic re-form should feel highly satisfied with this weekend's proceedings in Bangkok. But those inclined to draw a link between Mr Gorbachev's empty-handed departure from that summit and the Moscow coup a month later, should

now be feeling quite queasy.
The Soviets seemed woefully disorganised at both G7 jamborees. Io Loodon, they casually threw up a request for \$12 billion for "currency stabilisation", only to withdraw it two bours later. In Bangkok, they went ooe better and simply failed to show up for two days, leaving the G7 to guess what new requests or informatioo they might bring (in the event they brought none).

But the dialogue of the deaf in Bangkok confirmed more than the generalised state of chaos in the Soviet Union: it showed that both the Soviets and the West are still playing an elaborate political game instead of getting down seriously to the job of planning

## Bangkok's dialogue of the deaf

the transformation of the Soviet Union. The Soviet strategy remains what it was before the summer upheavals - to try to draw western governments into a process of "constructive engagement" and open-ended financial offers modelled on the Marshall Plan. Uotil the August coup this policy made a good deal of sense. On one hand, the G7 ws clearly unready to make the specific financial commitmeets that the Soviet Union would ultimately require. On the other hand, Gorbachev was essentially playing for time, in the forlorn hope of eventually assembling a coalition of moderate progressives and reform-minded communists solid eoough to take the risk of launching a genuine transfor-mation. But both sides of this equation were undermined by

the events of August 19.
In the Soviet Union the rate of disintegratioo has accelerated spectacularly and procrastination is oo longer an option. In the ECONOMIC VIEW

ANATOLE KALETSKY

West, meanwhile, the August and republican governments: the coup has shocked governments threat of hyperinflation. and public opinioo ioto a willingness to comtemplate serious ecooomic assistance, provided this could be put to productive use. Unfortunately, the chances of such assurances have become far less plausible than they would have been four mooths ago.

Back in the summer, an interrepublican economic treaty of the kind initiated last Friday, might have been seen as a foundation for reconstruction. Today, bowever, the treaty is greeted by western officials and businessmen with scepticism bordering on total disbelief. Nowhere are the West's doubts more evident than over the single most important issue cooffonting both Soviet

threat of hyperinflation.

While the Soviet and republican central banks continue to issue roubles as fast as they can print them, there is obviously oo hope of stabilisiog the economy. But according to G7 officials who heard the Soviet representations, Moscow's delegates were unable to say how last week's treaty would halt this process.

Virtually every western expert agrees that preserving a single economic space with a single currency and ooe powerful central bank would create the best conditions for economic reform. There is an equally wide coosensus that total political and economic independence for the republics would offer a tougher, but still

DERYCK Maughan, the chief operating officer of Saloman Brothers, was, last week, ush-

ered into a meeting with Rubin Leigh-Pemberton, the Gov-ernor of the Bank of England.

Mr Maughan was there to

apologise for Salumnn's illegal attempts to rig the American

Treasury's bond auctions and

bear", as John Gutfreund, the

The contrast conceals Mr

Maughan's sense of purpose

and the radical action he has

took charge in August. "My

task is to stabilise the firm and

our. But there will be a greater

sense of humility and place."

former chairman, once said.

Neither man was smiling.

manageable, background for re-habilitation. But unfortunately there is a third option - ooe that would lead almost inevitably to hyperinflation and quite possibly to a breakthrough by the dark forces of Russian history which still lurk beneath the surface of Soviet political life. This optioo is to create a sham economic union based on a single currency but without the ceotral authority to keep that currency sound.

lo conditions of hyperinflation the authority occided to make a genuine economic union work cannot be confined to a single central bank but has to extend to the even more cootroversial realm of a unified fiscal policy. As Alan Greenspan said in

Bangkok yesterday: "A single currency and a single central bank would make the transitioo easier but this is oot the main issue. The prime cause of Soviet inflation is the escalation of budget deficits at both the central and republican levels." Unless

the centre and the republics can raise taxes to cover the whole of their spending, all efforts at economic stabilisation will fail, just as they did under similar circumstances in Yugoslavia. The West would indeed be pouring mooey down the drain. This was the key issue on

which the G7 apparently tackled the Soviet delegation. But the Soviets were unable to offer anything better than statements of understanding and good iotent. The fact is that Mr Gorbachev was right when he suggested last week that an economic community of the kind envisaged in the oew treaty would be impossible without elements of political union. The Soviet republics will have to make up their minds. Do they want the advantages of contioning ties with the Russian heartland or do they want to become genuinely independent oations? Those that are oot willing to give up their fiscal and mooetary freedom should not be allowed to stay in an economic union with Russia. That is the simple message the G7 should send from Bangkok to the people of the Soviet Union.

## Has BA flown off course in call for fair competition?

Until recently, BA's interests

and Britain's

usually coincided.

Sir Robert McCrindle, MP,

tries to get them

back in formation

WHEN Lord King draws up a manifesto on civil aviation it behoves the present as well as a future government to pay attention. Controversial he may be, but he has carned the respect of politicians for the success story which is British Airways. Despite the ghastly period through which BA has just travelled, it is a company of international standing and a high value industrial asset.

Until recently, Lord King the former prime minister. he behind its back". would not have needed in turn his formidable energies to battle against international competition. He also perceives support in official circles for smaller British airlines such as Virgin, as a betrayal of the promises given to shareholders by the government

when BA was privatised. King's concern, what is he seeking and would it be to his liking if he got it? There is no doubt he has a fight on his hands across the Atlantic with the new US carriers, American and United, a much tougher

Flying the flag: but is BA entitled to more support from the British government?

True, the advantages BA

up their services. It is hard to will make things easier. Every- is helpful but reject it when it would have been content to go along with the government insisting that BA lines seemingly able to gain manifesto of giving up "grand-Confident of the support of competes with "one hand tied the support of their govern- father" rights relating to past ments at the drop of a hat,

To its credit BA does not received in return are more il- seek this, but Lord King must BA is right to call for better drawing up a manifesto for lusory than real because they know that no genuinely free access to slots for new entrants lesser politicians. Clearly he is require agreement of third market in EC air transport rattled by recent decisions countries which is unlikely to exists. So he is probably nn which he sees as a failure of be forthcoming it is one thing firmer ground when he calls ministers to support BA in its to tell BA it can fly from Paris for the creation of just such a or Frankfurt direct to America free market. Clearly the supbut there is the small matter of port of the British authorities

> 'Clearly Lord King is rattled by decisions which he sees as a failure to support BA'

for multilateral agreement with countries outside the EC. Clearly frustrated by governand United, a much tougher proposition than the deposed TWA and Pan Am. BA seems in suggest that British officials should have refused to replace the ailing US carriers. But having taken the decision to abolish the traffic distribution rules at Heathrow, the decision was inevitable to allow are less sanguine than BA that the reference of the present shind Britain's efforts to liberthan allocation system. In many ways this works well and BA is telling the EC to the phasing out of government in abolish the traffic distribution. But they are less sanguine than BA that the reference of the present the retention of the present in allocation system. In many ways this works well and BA is telling the EC to the phasing out of government in phasing out of government in abolish the traffic distribution. But they are less sanguine than BA that

So haw justified is Lord French and German approval cannot be jettisoned until we ever superficially attractive. This is probably why Lord are closer to the day when They may begin to reduce if King now seeks an EC-wide European airlines can speak to BA accepted that there is no group of airlines to negotiate each other on equal terms, preference given either to US

American and United to open airline negotiating with airline come EC intervention when it see how Lord King concludes one knows that protectionism upsets existing benefits to BA. There is oo mention in the use of slots even when the ser-

vices are no longer operated. but if Heathrow is full, it is difficult to see how it can be achieved, unless someone, perhaps the airline with most slots, is ready to give some np.

So while it is easy to support Lord King's call for greater competition, open skies and customer choice, there are very real practical difficulties. They do not disappear merely by issuing a manifesto, how-That day is still some way off. carriers or to smaller British in another section of his airlines. If Lord King placed manifesto Lord King calls for his considerable weight bement negotiations, he is eff- the retention of the present hind Britain's efforts to liber-

### Quiet Maughan apologises for Salomon's sins

to describe the actions the

firm was taking to atone for its will be slow and painful. crimes. Mr Maughan spends a Salomon is now in suspense great deal of time apologising. about the punishment the Securities and Exchange Com-This quiet humility from a County Durham miner's son, mission will hand out. Ideally, it will merely levy a fine of up and former UK Treasury ofto \$300 million and call the ficial, is in complete contrast with the traditional image of a matter closed, but, the SEC gung ho Sainmon executive. could impose other sanctions In the past, Salomon traders on the firm that would ulhave had to face each morning timately destroy it. ready to bite the ass nff a

Many investors and rival securities houses believe Salomon's fall was inevitable. The firm, like others, has often been criticised for its highhanded treatment of clients. and for using them to offload taken in the firm, since he poor quality investments. Mr Maughan rejects this.

prepare it for a post-crisis relaunch. We were a strong Much of Mr Maughan's time is spent convincing forfirm going into this and we mer clients that they should will be a strong firm coming resume their business links. The affair has cost the firm some of its most lucrative The firm's only chance for customers, including eight survival is to admit every state pension funds, the instance of wrongdoing, take AT&T pension fund and the the penalty and then start to British government. More

Maughan: plans survival than 30 private clients are also

sning the firm for losses. Most clients will only consider resuming relations if the American Treasury lifts the restrictions on Salomon in its bond auction and the Federal Reserve Bank ends the review of the firm's primary dealership status.

For that to happen, Warren Buffett, the chairman, and Mr Maughan must display the extent of the changes at the

firm. One change has been the rapid shrinkage of Salomon's trading book. The firm's assets had swollen to \$150 billion in August, due to weak management control and the easy availability of capital. Since then, they have been cut by a third, as Mr Maughan has slashed such low-yielding areas as the matched book. "We have no funding problems at \$100 billion. I didn't want to ask the question about \$150

Another change will be a widespread exodus of staff in January, after they have collected their annual bonuses.

Salomon's staff are the key tn its future, and most of the senior executives now regret that it ever abandoned its status as a partnership. As a result, Salomon has expanded its employee share-ownership scheme, and within five years up to 30 per cent of the Salomon's shares will be held

Most of Wall Street believes that Salomon will survive under the Buffett-Maughan leadership, but are uncertain about how much of it will be left.

Mr Maughan, for one, is determined that once Salomon has paid its debt to society, he will be able to leave the apologies behind for good.

MONDAY ON THEIR

## touch seeks a listing

By COLIN CAMPBELL MINING CORRESPONDENT

ONLY those blessed by the Midas touch will have found it easy to make money out of gold in the past 18 mooths, but the climate is changing.

The Londoo gold price has absorbed the Russian shock and is showing renewed signs of life. Gold shares are again being talked about. Before 1991 ends, American Barrick, ooe of the most intriguing mining groups, will seek a full Loodon listing. AB, with interests in five

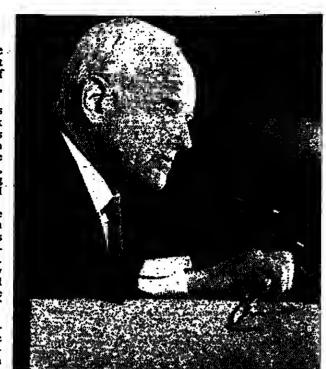

producing North American mioes, is a group Midas has touched, blessed and seemingly embraced with both arms. lts shares have comfortably outstripped the Dow Jooes and the world gold price over the past five years and left the FT Gold Mines index standing. Uoder Peter Munk, chair-

man, AB came from oowhere in 1983 to challenge the industry giants with a capitalisation of \$3 billion. In between, it has run up several records production, revenoes, earnings and cash flow - even when the gold price has fallen. Its secret been extensive reserves plus financial acumen.

The group's deposits are concentrated oo the Carlin Trend - a 48-mile mineralised spine in Nevada with a geological date of 140 million years, rivalling South Africa's Witwatersrand as one of the world's richest gold properties. On the Carlin Trend lies the jewel in AB's crown, the Goldstrike mine, which covers the Betze and Post deposits.

As for financial acumen, AB has led the mining world in the art of hedging, whereby it moves more rock in developis assured a minimum average gold price of \$440 an ounce over the oext three years, well mine. A projected 1991 gold above today's \$357.75 price.

This summer, AB flirted with Newmoot Mining, America's top gold producer, with. a view to marriage. The talks involved Mr Munk and Sir a bonus, while deciding where James Goldsmith, who owns a to dump waste ore from Golddirect 42 per cent of Newmoot, strike, AB found a deposit that with an interest in a further 7 per cent. Both men were determined gold would make them fresh fortunes, but while Mr officer, said: "Nobody wants Munk can daily count the gol- to have to tell the boss that out, Munk will show you how den pennies that roll in from

be looking at annual gold

before the end of the decade.

earnings could touch \$1.20.

One colleague said: "If

Carlin Trend is so rich, Mr

his operations, Sir James has on a potential new mine yet to see the potential of Newmont recognised.

Miner with the Midas

An AB-Newmont deal would have made mining sense. They Purple Vein proves as viable share a complicated common as initial work suggests, it share a complicated common boundary around Goldstrike would add another 5-6 million and beneath the Post deposit lies the promising. Deep Post ore body, the joint develop-ment of which is surely only a matter of time. But "cultural" (read personality) differences led both sides to conclude they would rather co-operate co mining matters than merge. Alone or merged, AB is a sig-

nificant group. Goldstrike ing the pit -356,000 tons a day than any other American production of 530,000 ounces, reaching over 1 millioo ounces in 1992, will make Goldstrike the largest single gold producing mine in North America. As will ensure its place in the 21st Century - Purple Vein.

Bob Smith, chief operating waste rock has been dumped to turn gold into profits."

### Saved by recession

CAPITAL MARKETS

from evils of junk

UNLIKE the early mooths of the recession, when the frothter corporate creations were being blown away, real companies with real assets are oow getting into deep water. When the country's largest manufacturer and exporter and its fourth largest supermarket group are in difficulty you know you are in a real slump. Yet the stock market still seems to believe that the recovery is imminent. Or does it? The 1987 crash came two years before the recession got into its stride. If the timing is similar on the way up, the economic revival will not be with us until mid-1993.

Britain seems to be suffering the worst recession of all the major developed economies, but it could have been worse. Britain came perilously close to playing with the fire of junk bonds and other discredited imports in 1988 and 1989. Although the recession snuf fed out such ideas before they caught on, there was much talk in the City of, for example, a traded market in mezzanine securities, a Euro version of Drexel's creation. Fortunately, the Isosceles buyin was as close as we got.

ounces of gold at a grade of 0.6 Even without a secondary ounce per ton to reserves of mezzanine market, some American inventions did catch on. Almost all are turning production of 2 million ounces sour. The putable coovertible bond is probably best known and has claimed most victims. Smith, said: "They will be Now the auction market premining this place when I'm 6ft ferred share is going the same under looking up . . . and even then they will still be digging way. Ratners, a pioneer of the market, suffered a £4 million penalty on its rating down-AB produced a mere 34,000 grade this week and had to pay

omces of gold in 1984, with a top price to get its paper away. \$17 millioo loss in 1985. The Surprisingly, British comgroop produced 596,220 ounpanies have enjoyed relatively ces last year, reported a net instable credit ratings. Figures from Standard & Poor's, the rating agency, show that only 7 per cent of British issuers come of \$58.2 millioo (or 45 cents a share) and raised the dividend to 8 cents (6 cents) a share. In 1991, oct carnings have suffered downgrades oo their commercial paper rat-ings over the past five years. should rise to between 55 and 60 cents a share - though the real kick comes in 1992, when The figures may be a reasonable measure of how far down the road to financial sophistry Britain had travelled Smith can find gold and dig it before the recession hit.

## EDUCATION TIMES

### NOTICEBOARD

### Keeping the animals out of labs

ANIMAL rights campaigners have targeted oew students in a campaign to cut the use of animals in laboratory experi-ments at universities and polytechnics.

The pressure group Animal Aid ran a successful campaign against compulsory animal experimentatioo in A-level syllabuses. All examining boards oow offer an alternative in

biology courses.

A similar arrangement is being sought in universities and polytechnics. Mark Gold, the director, says: "When attitudes to animals have progressed dramatically, all students should have a choice on whether they use animals, without fear of losing marks or facing pressure to change their

A spokesman for the Committee of Vice-Chancellors and Principals says: "More and more universities are making animal experimentatioo optional, hut it is up to individual departments."

#### Eastern aid

ONE hundred guest lecturers from other parts of Europe are to teach in higher education institutioos in what was East Germany under the European Community's £57-millioo-ayear Erasmus scheme to encourage student mobility within the EC. Those interested in working in Germany duriog the summer term should cootact the German Academie Exchange in Bonn,

### Winning moves

HEADMISTRESSES of the country's leading iodependent schools, including Chelten-ham Ladies' College and Roedean, have stolen another march on their male counter-parts in the Headmasters' Conference (HMC).

Much agonising debate among the men had led to the decision to hold their 1992 conference in Bruges. No sooner was the decision announced three years ago than (GSA) said it would meet in Amsterdam next month.

The men also thought they had achieved a coup by inviting Jack Straw, Labour's senior educatioo spokesman, to

their conference in Cambridge last month. Again, the headmistresses were ahead. Mr Straw spoke to their con-

The two organisations are changing the rules for their forays to the Cootineot by allowing spouses to accompany members. About 40 spouses will travel to Amsterdam with the 200 or so GSA members attending. Numbers are not yet known for the HMC in Bruges hut several headmasters have expressed their doubts about the wisdom of taking wives. "It won't be as much fun," said

### Bacc. track

CHELTENHAM College is to offer the International Baccalaureate as an additional alternative to A-level from September oext year. Peter Wilkes, the headmaster, says: "We have been consicous for some while that many sixthformers are looking for a broader education than Alevels can offer."

### State secret

STATE boarding schools io England and Wales, "the bestkept secret in British education", according to their head-teachers, joined their better-knowo independent colleagues to take part in National Boarding Week, which ended yesterday.

Fifty state boarding schools give free untion, which means their full boarding fees are between £3,000 and £4,500 a year, compared with the £10,000 or so charged by independent schools.

Norman Hoare, the headmaster of St George's, Harpenden, Hertfordshire, says: We have children of parents resident in Britain from America, Australia and South America, and a young man from Moscow has joined us."

DAVID TYTLER

# Lord Callaghan's curriculum

A Labour prime minister in 1976 started the debate that led to changes in British schools today. David Tytler re-examines his controversial speech

'This nation

is under-

educated

for the

problems

of the 21st

century'

omplaints from pareots and industry were reaching such a pitch that the prime minister decided to intervene with his own views of how education should be re-

The prime minister was James Callaghan and he made his suggestions io a speech 15 years ago this Friday. The 22-minnte speech to Ruskin College, Oxford, was beck-led by students as Mr Callaghan questioned "dubious teaching methods" and argued the oeed for a comprehensive curriculum, a review of education for 16 to 19year-olds, improved relations between industry and education and more parent power in schools.

In retrospect, much of the speech could have been made almost as easily by a modern Conservative minister explaining the need for the Education Reform Act. Education, Mr Callaghan

said, was not the sole preserve of educationalists. "It is almost as though some people would wish that the subject matter and pur-pose of education should not have public attention focused oo it, nor that profane hands should be allowed to touch

Addressing socalled progressive

teaching methods, which had "The education department was gained wide currency in the 1960s and 1970s, he said: "They seem to produce excellent results when they are in well-qualified hands, hut are more dubious in their effects when they are not. There is no virtue in producing socially well-adjusted members of society who are unemployed because they don't have the necessary skills . . . basic literacy, basic numeracy, the understanding of how to live and work together."

Looking back today, Lord Calla-

public awareness since I spoke and there has been a greater understanding between education and

"A point of balance has been achieved between the reformers and the traditionalists in teaching - if that is what they were - and that issue has been put to sleep."

In his speech, the prime minister favoured what he called a "core curriculum" of English, mathematics and science, the forerunner of the national curriculum intro-duced by Kenneth Baker in 1988. Lord Callaghan says now: "I didn't iotend the curriculum to be a straitjacket enshrined in statutory orders. You cannot coofine sub-

"Statutory orders confine the imaginative teacher and could result in challenges in the courts if a group of parents, or even a sect, decided their children were oot being taught ac-cording to the

law."
The speech stemmed from Lord Callaghan's own contact with parents and iodustry and also from private cooversations with Fred Mulley, the education secretary. "At that time I was seeing ministers on a one-to-one basis, without of-

ficials," he says. not best-pleased, but I reinforced my view that I should do it. The speech was waiting to happen."

Lord Callaghan was educated in the 1920s at a Portsmouth secondary modern school that charged two guineas (£2.10) a term. "My fees were paid by the ministry of pensions and as I was rather lazy my mother got a frightfully stern letter every term saying they would not pay if I did not do

### Oxford drops tradition to chase tomorrow

few more unchanging national institutions than the ancient universities. Oxford and Cambridge sit at the pinnacle of higher education, their dominance challenged only by two or three of the top American

Academic spats about the compulsory study of Anglo-Saxoo or the wearing of formal dress for examinations serve only to confirm the public impression that life amid the dreaming spires takes place oo a different plane. The public assumes that the traditional pre-eminence of Oxford in the arts and Cambridge in the sciences will continue as part of the natural order.

At the universities, however, the picture looks different. The fine line be-tween the traditional and the old-fashioned has been becoming blurred in some areas. The hundreds of millions of pounds now coming in from fundraising campaigns should facilitate a

transformation that is needed urgently. Sir Richard Southwood, Oxford's vice-chancellor, insists that his university ranks among the top handful io the world, but admits that its reputatioo has been fraying at the edges. Critics complain that an uowieldy and outmoded structure is hampering the university's development. The colleges are accused of putting undergraduate successes ahead of the research output on which a leading university's reputation

Even the vice-chancellorship is said to be in oced of reform, as critics call for a permanent appointment to reflect the managerial qualities required at the head of a multi-million pound business. Halfway through his four-year term of office, Sir Richard is withholding judgment on that, but he is candid about some of the dangers facing the

"Oxford is still perceived as being at the top, but we will not stay there unless we give attention to continued development, particularly for research in the arts and social sciences," he says. "They were the great heritage, the foundation on which the university's reputation was built. Distinguished science and engineering faculties were grafted on, and now stand comparison with the best. It is the arts that are more

vulnerable." The change can be traced back to the opposite routes taken hy arts and sciences at Oxford. Because the costs of developing modern science and engineering facilities were too great for the colleges to contemplate, resources have

The university is fundraising for a great leap forward

beeo pooled in university institutes. On the arts side, however, the colleges have clung to their teaching role, often without acknowledging the techno-logical revolution that has also taken place in those subjects.

As the first vice-chancellor for 400 years to be a head of department, rather than a college figure, Sir Richard has oo axe to grind for the present system. "The colleges have never had to address the provision of technological support for the arts, which is now vitally important. The college-university ioterface is bound to change over the passage of time."

Separate research centres for social studies and law, modern history and English, and a group of subjects given the title "the foundations of civilisatioo" will be the oext manifestations of such a change. The Campaign for Oxford, which has already raised £198 million, should provide the necessary

The bolstering of the arts and social sciences was part of a personal agenda of 13 aims Sir Richard set himself when waiting to take office. Bringing the colleges into closer harmony with the university as a whole has been attempted through regular meetings; management and continuing education are both the subject of ambitious initiatives, overseas links have continued to

Changes: Sir Richard Southwood

grow, particularly in Europe; and closer relationships have been forged both with the city and with Oxford Poly-

Sir Richard was a doubly unusual choice as vice-chancellor because he has been at Oxford only since 1979, most of his academie career having been spent at Imperial College, London. His experience of other institutions has brought an appreciation of Oxford's strengths, as well as its weaknesses.

He sees virtue in the traditions and ceremony that can conjure up unwanted images of an old-fashioned community of scholars, and he parts company with the reformers on the

issue of separate graduate schools.

The argument for separate graduate facilities to compete with Harvard and other universities in the United States is a strong one, but Sir Richard is adament that the lifeblood of a university lies in the interaction between all its members.

Other changes are afoot that will move Oxford more in the direction of its American competitors. More teaching by postgraduates, for example, would free academic time for research. Since the campaign target has been increased to £340 million, the opportunity is there for a leap in Oxford's development after a period of nearstagnation in some areas. The danger is that changes in public funding, particu-

larly of research, will counteract some

of the benefits.

While the promotion of the polytechnics holds no fears for Oxford, the more selective distribution of research funds may make it more difficult to sustain the large teams of academics necessary for successful basic research. Sir Richard worries that the switch will also lead to a leaking away of a proportion of existing funding.

As an eminent zoologist, he is both keenly aware of the risks for Oxford and regretful about the inevitable hiatus in his own research career. He continues to lecture twice a week to first-year biologists, but a pan-European survey of the fauna of oak trees is making slow progress as the demands of the vice-chancellorship take over.

Sir Richard says. "This is the first time in 40 years that I have not had a scientific paper in press, but I hope to facilitate some positive changes as vicechancellor. In my position, you cannot push things through, but you can help the university to move forward."

JOHN O'LEARY

### A-levels: time for change?

UNIVERSITY vice-chancellors are expected 1988 and 1990. The increase in A-levels is to propose an alternative to A-levels as the main route of entry to Britain's 52 universities early next year. The vice-chancellors are concerned that they are too narrow a preparation for academic study but confess that so for they are mobile to confess that so far they are anable to suggest an acceptable alternative (David Tytler writes).

Vice-chancellors had favoured the proposal to have five "broader, leaner" A-levels to replace the traditional three and were disappointed when the government turned this down. The latest university figures (see table below) show that A-levels are still the most recognised route to universities. Even in Scotland, where the traditional cutry has been through five or more one-year Highers for four-year courses, there is a swing towards Alevels. The number of undergraduates with Alevel qualifications in England, Wales, and Northern Ireland rose considerably between

matched by demands for higher grades in the most popular subjects, such as languages and the humanities, with an average of three B grades required. A spokeswoman for the Committee of Vice-

Chancellors and Principals says: "In subjects where 16 people are competing for one place, universities have to explain why they are turning down some good candidates.

"The least contentions way is by academic qualification, and that is the A-level, although it is not an ideal measure. Vice-chancellors

believe A-levels are too sarrow a preparation for university and are looking for a really good Other qualifications are becoming increasingly acceptable in engineering, technology,

and the sciences. The engineering schools are particularly keen on students who have vocational qualifications. CACAMINE DESIGNATION DE LA COMPANION DE LA COM

MEANTS AND THE STREET

### **POSTS**

### TEACHING IN SINGAPORE

The Ministry of Education, Singapore invites applications from highly motivated and qualified teachers to take up challenging and rewarding positions in selected schools in Singapore.

### English Language/Literature

- The Ministry requires good grammar school English Language/Literature teachers to upgrade the standard of spoken and written English at the secondary and post-secondary levels in selected schools in Singapore.
- Applicants must possess:an Honours degree in English or In the Humanities with English as one of the major subjects;
- (b) suitable teaching qualifications;
- (c) at least 5 years' of relevant teaching experience;
- (d) a good received pronunciation.
- Selected candidates will be posted to the junior colleges and secondary schools to teach students aged 13 to 18 years. The teachers will play an important role in helping the students to write and speak good Queen's English. The syllabi and examinations that the students are preparing for are:-
- Singapore Cambridge: General Paper Subject 8003 GCE 'A' Level English Subject 9002 Singapore Cambridge: English Language Subject 1120 GCE 'O' Level English Literature Subject 2010.

#### **Humanities Tutors**

(English/Theatre Studies and Drama, Geography, History)

- 4. The Ministry runs a programme at 5 Junior Colleges (equivalent to Sixth Form Colleges) for selected top students who have opted to study humanities subjects under an
- 5 Generally, the job of the Humanities tutors is to prepare this group of students for the Singapore-Cambrige 'A' and 'S' level papers in one or more of the following subjects: Geography, History, English Literature, General Paper, Theatre Studies and Drama; and to give these bright students exposure to extra-syllabi materials. The size of the tutorial groups is generally below 25 students per group.
- 6 Applicants must have a suitable teaching qualification and a good honours university degree in either Geography, History or English, or English with a major or a diploma in Theatre Studies and Drama. Preference will be given to candidates with Master's degree in either Geography, History or English and/or Theatre Studies and Drama. The candidate should have at least 5 years' of experience teaching in reputable schools or colleges.

Northern Examinations and

Assessment Board

Applications are invited for the post of Chief

Executive to the Northern Examinations and

(NEA). Its Head Office will be in Manchester. It will

## A moment of truth for the new

David Tytler talks to one of the headteachers appointed last month to a leading independent school

headmaster

he moment of truth came for Christopher Barnett when for the first time he sat alone in the centre of the stage in the rather gloomy 1930s hall staring down on 1,000 boys and 80 staff. "It does bring home to you what has happeoed, he says. "I had oot expected to feel the pressure and the atmosphere."

Dr Barnett is one of the handful

of oew heads appointed last month by the 233 leading independent schools belonging to the Headmasters' Conference. His school, Whitgift in Croydon, south London, dates back to 1600 as part of the charitable and educational foundation started in 1595 by John Whitgift, the then Archbishop of Canterbury. Today the foundation runs two schools, almshouses and an old people's home. The school is also one of the richest in the country, owning a large proportion of Croydoo's shopping centre, built oo the school's original town-centre site.

Ironically, if Dr Barnett wanted to work in a state school, he would still be regarded as a probationary teacher because he has oot had any formal teacher training. A graduate of Oriel College, Oxford, he first chose a career as a university lecturer and taught for two years at Brunel University in west Loodon. At 38, he is ooe of the youngest members of the Headmasters' Conference.

"I was trained oo the joh and as a deputy head. I was just thrown into it," he says, looking back to Brunel, his nine years at Bradfield College, Berkshire, as head of

history, his four years as second master at Dauntsey's, Wiltshire, and his time as an A-level examiner. "All these aspects give you a broader view than if you had just been a housemaster or stayed in one type of school."

Naturally careful, Dr Barnett says of his aims and amhitions for his new school: "Some oew headmasters arrive with a hlueprint of what they want to do and stamp it oo the school regardless. I believe oew heads should discuss with col-leagues to get a feel of what they are trying to do before imposing oo them what they want to do.

"Whitgift is a major school and I want to see it realise its poteotial. 1 will go back to basics and for a year will re-examine and re-evaluate the work we are doing. Wheo I came for my first interview, I was struck by the school's potential."

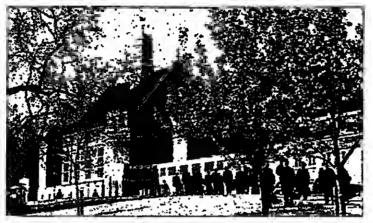

Whitgift was for many years part of Croydoo's grammar school network. Dr Barnett is keen to emphasise that though the school has an imposing academic record, it is oot huilt oo privilege. "About 40 per cent of our boys have their fees either wholly paid or substantially reduced," he says, "People with ability can come here almost regardless of their circumstances."

Married to Lord Weidenfeld's daughter Laura, Dr Barnett has four children: Beojamin, aged 12, who is a pupil at Whitgift, Rowan, ten, and Nathaniel, seven, who are both at Cumoor House, a ocarby boys' preparatory school, and four-year-old Clara, who is in the junior schoool at Croydon high.

Dr Barnett believes he may come to miss some of the at-

with his family, and below, Whitgift school in south Londoo

mosphere attached to a boarding school. He does, however, already miss the influence of the girls he taught at co-educational Dauntsey's. "I had got used to classes with girls and though I am quite happy with boys-only, I do miss co-education. I am sure that if you were starting independent schools oow, the majority of them would be co-educational," he says.

There are few courses for poten-tial headmasters, but the Head-masters' Conference runs a threeday resideotial course for oewly-appointed headteachers. "The course was useful," Dr Barnett says. "The great and the good were there. Eric Anderson (the head of Eton) was particularly helpful to the oew boys in short trousers."

The course also discussed the role and aims of heads, how they should handle their relationship with the school hursar, difficult parents and staff disciplinary problems, and having to deal with pupils who suffer from fatigue, having over-committed themselves, whether through too much sport, arts, music or academic

Now that he is installed as a headmaster, Dr Barnett thinks there may be some value in courses for aspiriog heads but sees difficulties io rationalising the number of people who want the top jobs with the oumber of posts actually available.

While still looking and listening, problem, Dr Barnett is keen to extend the grasped."

"Europeao dimeosion" at

Danntsey's, he pioneered ex-changes with school oumber 1207 intended. term at the Russian school.

affairs fires his determination to per cent have less than £12,000. expand modern language teaching at Whitgift. The main languages taught are French and German, and the school is traditionally strong on Latio and Greek

his example. I do, however, agree the scope of the scheme. with Andrew that if there is a sadly, the many and varied problem, the oettle has to be efforts to get information about grasped."

### How the poorer pupils benefit

The assisted-places scheme is helping the right families, a former headmaster argues

atives are totally committed to the assisted-places scheme is well founded. "What we are aiming at for the education system, says the education secretary, "is one which gives the parents the maximum choice, that goes in for diversity of provision so that there is something that will suit the capabilities and inclina-tions of every pupil and every

family . . . . Those of us who have operated the scheme io inner-city schools cao testify to its effectiveness to widening choice. It allows children from low-income families to attend schools that their pareots could oot otherwise afford.

Jack Straw, Labour's education spokesman, has criticised the scheme because only 10 per cent of the beneficiaries are from work-Whitgiff. He wants more pupil ing-class families and far too many and teacher exchanges and joint are "distressed gentlefolk". My projects in science and history, for experiences at Colfe's school io example studying the first world south London, and those shared war from a British, German and with many other colleagues convince me that the scheme is helping those for whom it was

io Moscow. He and his wife have a Fifty out of 163 assisted-place Russian au pair and he hopes that holders at Colfe's pay oo fees. Benjamin will be able to spend a National figures show that oearly 40 per ceot have a family income Dr Barnett's love of foreign of less than £8,714 and nearly 60

All the schools are strongly committed to attracting children from the widest possible social plus some Russian, Italian and background, but this is perhaps Spanish. Japanese is 10 be added, less important that helping genoinely poor families, whatever the social background may be. Colfe's Dr Barnett's sense of history is has pupils whose parents are hus master from Oriel, Samuel Ogdoo guards and also its share of singleparent and ethnie minority

That these pareots struggle to provide educational opportunities "He told them he was not going for their children that would to bother learning their oames otherwise be denied them is because they would not be there commendable. Working class long enough for it to matter." Dr Barnett says. "I have told my colleagues that I shall not follow bined income puts them outside

enneth Clarke's assurance could benefit have not met with that he and the Conservitoral success. A MORI poll showd that fewer than half the peore questiooed knew of the scheme, o the promise io the Citizen's Chrter to inform all parents of the fill range of educational opportunitis is welcomed.

Because parents cootribute zcording to their means, the average cost of educating assisted-place pupils is not much more than a maintained schools. At Colfe's its well below £2,500 a year, which compares well with state seconary costs.

Nationally the picture is muo the same. If full costs in cir technology colleges or grant-maitained schools are compared ! becomes clear that the scheme oot an expensive way of achievio "diversity of provision". About 27,000 pupils are on the scheme eosting £63 million a year.

If it is true that these children

would have done just as well is other schools, then they would have to do very well indeed. A GCSE and A-level, they achieved: 90 per cent pass rate; 70 per cent o GCSE and 60 per ceot of A-leve passes were at A or B grade. These were marginally better results than those for all pupils in assistedplaces schools.

The 295 schools offering assisted places have a long tradition of educating poor scholars. They have provided a route to future success for "all sorts and conditions of men", iocluding Mr Straw. The government can make improvements in the scheme, Without significantly increased demands oo public finds, there could be a clearing house for unused places — at present about 6,000 — and a strategy to deal with fee iocreases would help.

Independent schools already spend millions of their charitable funds to help poorer families. The very people the Labour party claims to be most eager to support will be the ones who will lose if the scheme and other forms of assistance are diminished.

VIVIAN ANTHONY The author is secretary of the Headmasters' Conference and for-mer headmaster of Colfe's School

WIGAN, without nine firstteam players because of injury, lost 13-6 at Wakefield yesterday. Trinity produced a spectacular try through Wilson and Mason, the scorer, which covered virtually the length of the field.

Earlier, Wigan had taken the lead with a try by Myers and a touchline goal from Andre Stoop, the Namibian full back on trial at Central Park. Jackson scored a try, to which

Conway added the goal, to put ended the Wigan challenge.

again, Welshmen took the bon-In the second division, Rochours. Davies scored a try and kicked eight goals and Deverenx claimed two tries.

Salford followed up their surprise win at Hull last week by producing another mini-shock. Halifax took away the unbeaten record of St Heleus last week but Salford won easily, 34-14, with Evans and Hadley each touch-

ing down twice.
Featherstone Rovers suffered another heavy defeat when they lost 40-12 at home to Hull while Castleford ended their run of Widnes went on a points league defeats by beating Hull spree against Swinton and, Kingston Rovers 22-14.

dale Hornets ran in 48 points at Workington, where the home side have suffered a startling decline after challenging for promotion last season. Carlisle and Sheffield Eagles stay at the top after hard-earned wins.

Eagles clinched a narrow victory, 14-13, at Leigh while Carlisle overcame London

Crusaders 12-4.
In the third division, Alex Murphy's Huddersfield share the top places with Dewsbury. Huddersfield accounted for Highfield and Dewsbury beat Scarborough Pirates.

put him at the head of the prize-

### Wallace pays for marathon build-up

From DAVID POWELL ATHLETICS CORRESPONDENT IN NIEUWEGEIN

LESS than three years after taking np running, to get out of the house for a break from her children, Andrea Wallace yeslerday won the silver medal at the women's world road race championship held over 15 kilometres here in The

She lost narrowly to Iulia Negura, of Romania, who retained the title she won in Dublin last year.
It was Britain's first individ-

ual medal in the event for six years. Wallace failed by less than half a second to take the title which would have denied Liz McColgan the distinction of ending the year as Britain's only individual world champion across the main sections of the sport track and field,

of the sport: track and field, road and cross country.

But, as this was the last of the 1991 International Amateur Athletic Federation world series events, McColgan, who won the world 10,000 metres championship in Tokyo, now cannot be matched.

On a four-land course. Well.

On a four-lap course, Wal-lace always looked comfort-able in the lead group of six which broke from the pack almost from the start. She is a strong finisher but Negura was stronger. Negura won in 48min

41.81sec with Wallace second in 48min 42.14sec. Uta Pippig, n 2hr 26min marathon runner from Germany, was a second further back.
Aged 24, Wallace has time

on her side and, like McColgan, is about to test her McColgan, is about to test her potential in the marathon for the first time. In two weeks' time she runs in the Carpi marathon in Italy and she reflected yesterday that training for the longer distance, using a higher weekly milage, had cost her the gold medal.

"It definitely made a difference," Wallace said and her coach, John Hambly, agreed.

"She was not as sharp for this race as she might have been had she not been preparing for the marathon." Hambly said.

Why then did she jeopardise

Why then did she jeopardise her prospects here by even considering the marathon? "If she runs badly in Carpi she can forget it but if she runs well she will have the option of doing it in the Olympics," Hambly

cases for Olympic marathon selection have to be presented by the end of the year, British officials have

After passing up chances of competing in the European and the world championships, Wallace is thinking of ber first international track champ-ionship. She may challenge McColgan at 10,000 metres or,

Carpi, will consider the marathon.

She is still relatively new to the sport and has needed time the sport and has needed time to case her way in at the top, Hambiy said, "I think she feels comfortable at world-class level now. For Andrea to go to the world championships and maybe get eliminated in the heats might have knocked her back a year."

It was as recently as the spring of 1989 that Wellson

spring of 1989 that Wallace was a mother of two ebildren and in need of a hobby. "I had to have something, otherwise

children all the time and I needed to get out of the bouse," she said. When this championship

was inaugurated in 1983 it was held over 10 kilometres but the distance was increased to 15 kilometres in 1985. Next year, it will be a half-marathon on Tyneside. Wallace believes she will be more suited to the nger distance.

Rosa Mota, of Portugal, found Olga Bondarenko, the Olympic 10,000 metres champion, too fast for her in the women's race in yesterday's

over 10 miles at Portsmouth. The Soviet, confident she can defend her Olympic title against McColgan next year, won with 53min 16sec, leaving Mota 22 seconds behind Thomas Robert Naali, of Tanzania, was first man in an

### Warwick earns title amid emotion

By STEPHEN SLATER

DEREK Warwick choked back tears on the pit wall at Donington Park, Derby, yesterday, as his younger brother, the late Paul Warwick, became the first posthumous motor racing champion since Jochen Rindt in 1970.

Perhaps fittingly, the driver who joined the Mansell Madg-wick team after Paul's death featured in the final round of the 1991 British Fornuta 3000 championship Jason Elliott claimed second place after a spectacular charge.

Elliott took to the grass at the final corner in a last-ditch effort to pass Julian Westwood, but was forced to settle for second place by a margin of 0.05sec.

However, Elliott's finish, ahead of Phil Andrews and the title contender, Fredrik Ekhlom. gave the British Formula 3000 title to Warwick. Victory in each of the five races before his death at Oulton Park in July enabled Paul to claim the title by 45 points to Ekhlom's 42.

There was disappointment at Thruxton, in Hampshire, for David Coulthard, who failed to clineh the British Formula Three title after tangling with Hideki Noda, of Japan.

Hideki Noda, of Japan.

The DUNHILL CUP

St Andrews 10-13 October 1991

SPONSORED BY ALFRED DUNHILL FASHION AND ACCESSORIES SINCE 1893

## Revolution is required to stem the Welsh suffering

Davies: unable to bear the weight of Welsh ills

IN THE end, it wasn't quite as much fun as we English expected. was one thing to gloat after Wales had been beaten by Wesiern Samoa; it was quite another to smirk after their utter, total and abject humiliation by Australia

on Saturday.

To the English, it is ever an unmitigated delight to watch the cocky, chippy Welsh taken down a peg or two. After all, the English have waited long enough to see that happen on a rugby field. But no one could revel in the sight of the pain on the faces of Alan Davies, the Welsh coach, and leuan Evans, the captain. They are clearly good-hearted, sporting men, And sick to the soul.

#### SIMON BARNES

"Everything the supporters feel, we feel ten-fold." Evans said. Davies said: "I baven't got the personality or the strength of character to bear the weight of all Welsh ills." Nor does any Welshman in creation. There are too many ills.

The match was more a ritual than a competition. It was a kind of funeral obsequy; the hurial of Welsh pride, the late but inevitable reward decades of nationalistic for

The Welsh walked knowingly into defeat, with heads held high. They met their end with a quiel. slightly cerie, dignity.

It has all gone rather beyond internecine strife. The players and coaches clearly fell the weight of all the traumas of the entire history of a con-quered natioo. The long tradition of sporting glory and gloating nationalism came down to this: 80 minutes of undiluted bumiliatioo. The players felt it keenly as if it were all their

It is not "The problems of Welsh rugby have gone a long way beyond individuals." Davies said. The fault lies deep in the structure of the game."
There are a million theories, the

Leading players, the sort you build a national team around, go to England in play for money as well as glory, and who shall blame

most popular being the fall of the

rugby-playing grammar schools and the lure of rugby league.

Perhaps there is nothing wrong with Welsh rugby that unabashed professionalism would not cure. Amateurism in rugby seems to me just one more item of oppression of the Welsh by the ruling classes in England.

Perhaps it is amateurism. historically a device to keep the game in the hands of the middle classes - I am aware of the subsequent rewriting of history by

that has finally squashed Welsb

How deep, how permanent, is this humiliation? The International Board bas told us that reaching the quarterfinals does not necessarily exempt a nation from the qualifying rounds of the next World Cup. It bas not decided on the structure of the 1995 tournament

But if this rule is retained. then Wales go down into the second division and must fight for the the right to play in the World Cup against the likes of Italy. Romania and the United

the competition remaios the same, they would be placed in a group containing two seeds – say.
Australia and Western Samoa.
This would be Wales in the Beazer

Homes League. Davies spoke about the need for 'a second coaching revolution" Certainly, the only way forward for Wales is revolution. Perhaps this should take the form of unabashed professionalism, the logical way to match southern

hemisphere rugby. It will come in the end. of course. But Wales have to suffer a great deal more before the shackles of amateurism are

Outcome of deciding match in Pool 2 hinges on controversial incident involving Calder and Staples

## Scotland deliver the decisive blow

By BRYAN STILES

THE critical point in a boxing match often comes when a decisive blow is delivered and sets up the opponent for the knockout punch. While there was little sign of fisticuffs at Murrayfield on Saturday, in this World Cup Pool 2 match, course of the game and destroyed Ireland's very plau-

arm of Finlay Calder, the Scotland flanker, which left Jim Staples flat on his back and still dazed two mioutes later when he was confronted with yet another horde of rampant Scots hell-beot oo

scragging him agaio.
Staples failed to gather a lofted kick and the newcomer, Shiel, flung himself over the line for a try that marked the point where Ireland's challenge withered and died.

The controversy occurred Staples. In charged Calder all fire, brimstone and whirlthe Ireland full back and sweeping moves by the provoking accusations in the threequarters, the ballle was stands of "short-arm tackle", "left hook" and "dangerous excitement. high tackle". Fred Howard, It was the

### Yesterday, vast reserves of Ital- the match, limping off with a ian pride and heart poured into recurrence of a hamstring in-New Zealand......31

By DAVID HANDS RUGBY CORRESPONDENT

ITALY came to the World Cup boping to create a buena figura. a good impression, of their rugby, as much for their own public as for British consumption. Nothing, though, became them like their leaving of Pool 1 at Leicester yesterday, when a magnificent display of tackling shook New Zealand to their All

For Italy to hold the world champions to a margin of three goals, a try and three penalty goals to two goals and three penalties was an achievement to send them home happy; their two tries were the first New Zealand have conceded and given the circumstances of their day, when they were hurr by the criticism they attracted for kill-

ing the game by conceding so many penalties. Four years ago, tialy allowed New Zealand to steamfoll them in the first match of the 1987 lournament, going down 70-6.

a match which turned out to be precisely that, rather than the runaway New Zealand victory

that most of us had envisaged. Indeed, had Italy not taken some 15 minutes to get into the game - by which time they trailed by 12 points - they would have been closer to a famous victory. New Zealand's early con-

fidence was visibly shaken by the strength of the defence, and by Italy's desire to spread the ball wide. That contributed to the remarkable improvement in the penalty count; Italy, having conceded 37 against England, finished 13-12 ahead of New Zealand. They also stemmed the All Blacks tide at the scrums and almost achieved parity at the

lineout From such a base. Bonomi. whose omission from the match against England at Twickenham now seems curious to say the least, boomed some monstrous line kicks into the New Zealand half, and some steepling garryowens which allowed his centres and the outstanding Cecchinato 10 pul unaccus-tomed pressure on their oppo-neats. Indeed, Wright, the New

jury, which allowed Philpon to win his first cap.
"We wanted to show that we

could play," Bertrand Fourcade, Italy's coach, said. "For two years we have worked towards playing England and New Zea-land in Pool I and we feel the gap between us and the big teams has become smaller. We were a little overawed at Twickenham but today we were determined to play well and New Zealand also wanted to play a more open game than

Italy outscored their illustrious opponents in the second half, 18-15, disrupting every-thing the All Blacks tried, save for the bull-like strength of Tuigamala, who set up a firsthalf try for lines before scoring one himself from long range in the second. The ease with which Brooke scored from a tapped penalty in the opening minutes belied everything that happened afterwards as Italy fought back from first a 12-point, then a 19-

point deficit, Dominguez pointed the road back, initially with his goal-kicking, then sending Marcello Custitus in for Italy's first try. Though Hewett was able to

squeeze over for a try on bis international debut, the joy of the crowd of 16,200 knew oo bounds when Fox dropped a pass in his own 22 and Bonomi scooped it up in score. John Hart, one of two coaches

this All Blacks side has, said the Italians "played to the edge of the laws. They scrummed well, they disrupted us, they made it very difficult for us to play. They fringed round the edges of mauls and perbps the most effective thing for us to have done would have been to kick all dsy. But if that's the case, rugby will be going backwards".

will be going backwards".

### The lessons that Wales can ill afford to ignore

By GERALD DAVIES

TWENTY years ago, Australia lost to a non-International Board conntry: Tonga. lian RU dispatched its foremost coach, Bob Templeton, in Wales. His mission was simple.

He was in go to that country, which was then recognised internationally as having the most sophisticated rugby coaching structure and whose teachings were the envy of the world, in see what secrets he could learn. He travelled, as others from the four corners of the globe had done, as an avid learner, cherishing the chance to better himself and the cause of Australian rugby. Wales was the place in do so.

Templeton, inspired, re-turned brimful of ideas. Whatever it was that he absorbed, and Templeton has absorbed, and lempicton has since grown to be thought of as the founding father of Austra-lian rugby philospby, his union immediately began applying with vengeance and magnitude, So that, by Saturday, the former sentiment or charity - were able to return to his mentor to inflict et another cruel lesson.

If Australia registered a record international score against Wales in Brisbane in the sumwales in Brisbane in the sum-mer, this time they registered, io winning by four goals, two tries, and two penalties to a penalty, the biggest victory margin for an international team at the home of Welsh rugby, Cardiff Arms Park, Thus, they beat the record of 34 points shared by Scotland (1982) and New Zealand (1989).

Here it was, you were lest to reflect, that Templetoo had come once to listen modestly to - but unruly - king and who Welsh rugby, in its infinite foolishness, did not acknowledge or fully embrace. The WRU, baving failed to see or to listen, is reaping a whirlwind.

As Wales go out of the World Cup, an immease task lies ahead as they ponder their undisguised relegation as a world rugby influence. Having themselves now lost to a non-International

Ring: solitary penalty

will Wales be as eager to learn from others in an attempt to

Meanwhile, Australia contemplate their quarter-final match against Ireland knowing, despite their scoring spree in the second half, that their machine is oot quite as finely tuned as they might wish. But then the real contest, which will bring out the best, is only about to begin.

There were some wonderful touches, of fingertip passing from forwards and backs alike; moments of driving force and moving mauls; of players, like Rocbuck and, inevitably, Campese, turning up in a variety of surprising positions to sup-port each other, and which brought tries.

But they will consider that Lynagh's two penalties and Roebuck's try, set against Ring's solitary penalty, were not much to go on after winning the lineouts by an incredible margin of 16-1 in the first half. If Lynagh had not found so much difficulty with the tournament ball, perhaps it might have been different. He missed four penalty shots usually within his

:ral

at-

. far

40 52 36

: are

The lineout was the key phase throughout. Wales barely touched the ball. They will, no doubt, wish to ponder on that.
Perhaps, the referer might care
to consider the matter a little
further, too. And to ask himself why there should be such a buge discrepancy. The fault, I might suggest, did not lie entirely with Welsh inferiority, nor the superiority of the Australians. Let us just say, for kindness' sake, that it was a matter of

curious interpretation. Otherwise, Wales were hardly in the contest. They spent the entire game pinned in their half. It was only a matter of time after the interval that Wales, having organiser for Welsh rugby, and crack. Slattery and Campese Carwyn James, its philosopher scored tries in the first ten minutes, and with Lynagh converting both, Australia had suddenly gone beyond Wales's

reach. There were brief periods of resistance from the home team. but with their penchant for giving away their own ball in the tackle, Australia, with much the superior skill, swept them aside. Horan, Lynagh and Roebuck got the other tries, with Lynagh converting two.

### Growing confidence for In The Groove repeat

By DICK HINDER

undated with early telephone enquiries tomorrow when Paul Cole and Fahd Salman decide whether Generous runs in the Dubai Champion Stakes at

Newmarket on Saturday. There will be no such disruption to In The Groove's preparation at Whitsbury where David Elsworth is gaining confidence that his talented four-year-old can repeat her victory in last year's ten-furlong showpiece. "She didn't do any serious work on Saturday but I was pleased with her attitude and

pleased with her attitude and well-being. The signs are good," he enthused yesterday.

"Mind you, I would love to see those dark green colours down at the gate," added Elsworth, hinting at Generous, who finished two places behind to The Groove when when the west lo The Groove when she was

sixth io the Arc.
Elsworth will take comfort from the fact that fillies or mares have captured five of the last six Champion runnings through Pebbles, Triptych (twice), Indian Skimmer and In The Groove, who will be partnered this time by Cash Asmussen. The American also rides Elsworth's Cesarewitch hope,

Muse.
Solid weekend support has forced Corals to cut In The Groove's odds to 5-1 from 6-1. Their latest prices are: 2-1 (with a run) Generous, 9-2 Desert a run; Generous, 9-2 Desert Sun, 7-1 Marju, Cruachan, 8-1 Ristna, Environment Friend, 10-1 Terimon, 12-1 others. Hills bet: 9-4 Generous, 5-1 In

WHATCOMBE will be in- The Groove (from 7-1), 11-2 winner of his only start at York, Desert Sun, 10-1 Cruaehan (from 12-1), Marju, Ristna, 12-1 Eovironment Friend, 14-1

others. The latest from the Generous "a problem" following that disappointing Arc display. Cole added: "It takes a while for these things to develop. We will know more on Tuesday and we will decide then whether he runs in

the Champion." Cootrary to some reports, Cole has not entirely ruled out the Breeders Cup. "We must be flexible. If Generous runs and wins the Champion, that's fice. but if we rule him out of Newmarket, then we have the Breeders' Cup as an alternative."

ported that Great Palm, a flucot

was in fine form for the Dewhurst Stakes oo Friday.

Dr Devious, narrowly beaten in the valuable Tattersalls Tif-fany Highflyer Stakes, Henry Cecil's Pursuit Of Love and camp is that they may be on the track of what Cole described as Andre Fabre's Steinbeck, the only juvenile to have defeated the flying Arazi, add spice to this

informative contest.

Despite the obvious concern over Generous, Cole was in a relaxed mood at Ascot on Sat-urday after Magic Riog's smooth Cornwallis Stakes

victory.

"He could develop ioto a
Guineas contender [20-1 with
Ladbrokes]. He's bred to get a
mile. We will run him in one of the classic trials, like the Greenham, and if he gets beaten he'll go back to sprinting."

Magic Ring's impressive dis-play of speed helped Salman complete 8 group race double as earlier his High Line filly Always Friendly, bought for just 6,800 guineas, appreciably added to her paddock value with

added to her paddock value with a convincing success in the Princess Royal Stakes. A credit to Henry Candy, she stays in training next season.

Julie Cecil gained her first histed success when Ninja Dancer, a 14-1 chance, emphatically beat King's Loch, trained by her former husband Henry, in the Bovis Autumo Stakes. Henry Cecil also saddled the disappointing unplaced favour-ite Kingdom Of Spain, who yesterday was reported to be very larne and distressed.

### Fair Crack edges home for Hannon one-two

From Our Irish Racing Correspondent in Dublin

Crack and Autocracy, dominated the finish of the Goffs
Millioo at the Curragh yesterday, Fair Crack snatching the

Colway Bold but owns a half
share in him with Ray Coleman.

head for Tooy Budge.

There was a five-length gap back to the 7-2 favourite Fairy Fable and she in turn was a length in front of the unlucky runner of the race, Irish Memory. In a collisioo at the start, Irish Memory was spun round and she did well to make up so much ground. Richard Hannoo is now well

on the way to earning £2 million in prize-mooey this season. Earlier, Hannon had been on

RICHARD Hannoo's pair, Fair This was an all-British photo-

Watts attributed his victory here to learning from his previous defeat in the Flying Childers Stakes at Doncaster. "It does not pay to attempt to dictate matters to him," said the Richmond trainer, who admitted that his own confidence in the outcome had dwindled away

after heavy overnight rain.
The only Goffs prize to stay at Challenge with Dedicated Lady provided an excelleot profit on outlay for Barbara Collins and her trainer-husband Con. Dedi-

### **Morley Street** has second Cup victory

TOBY Balding's Morley Street proved ooce again why he is the best hurdler oo either side of the Atlantic, as he overpowered his rivals at Fair Hill, Maryland, oo Saturday to wio his second coosecutive Breeders' Cup Chase. In breaking the course record, Jimmy Frost barely had an anxious moment on the 5-3 on oine-and-three-quarters lengths ahead of Declare Your Wish (Steve Smith Eccles). Cheering News (Richard Dunwoody) was over 15 lengths further back in

third place.
Frost kept Morley Street in check throughout the race and was still fourth on the final bend, Explaining those tactics, Frost said: 'If he's getting too close to the froot, he thinks its the losing end of a head verdict outlay for Barbara Collins and her trainer-husband Con. Dedicated Lady had been bought for Colway Bold in the Ir£250,000 cated Lady had been bought for just 6,500 guineas as a yearling. Explaining those factics, Frost said: "If he's getting too her trainer-husband Con. Dedicated Lady had been bought for just 6,500 guineas as a yearling."

**FOOTBALL** 

### Ipswich find old virtues are the best investment

lpswich ..... 2

By CLIVE WHITE

IT MAY oot be the reincarnation of Muhren, Thijssen, Butcher and all, but today's Ipswich Town are founded upoo the same sound footforebearers and, come oext May, it might just be enough for them to get a toe-bold on the mouotaio from which they

tumbled six seasons ago. Ipswich back in the first division, a first division which is oow the promised land of milk and boney. That will sound like sweet justice to aoyone who was charmed by the purity of their football uoder Bobby Robsoo and more smartly than Brighton to horrified by their fall from a fax sent out by Byrne himself grace simply for financial

Before that happy day can come to pass, though, John Lyall (Ipswich could hardly have choseo a better man for the renovation work) still has some touching up to do here could glean from his aftermatch observation that "it could have been 6-6".

Discovering that fine baland achievement is something which Brighton bave found hard to manage after missing out in last season's play-offs. Last Wednesday they thrilled home and sway supporters alike at the Goldstooe Ground when they beat Brentford 4-2 to a Rumbelows Cup tie. The problem was that they had lost the first leg 41.

The sale of John Byrne, a big Goldstooe favourite, will do oothing for either side of the equation though it might help to balance the books.

Brightoo have rejected an offer, believed to be £200,000, from Sunderland and say they have also received an enquiry from a first divisioo club for the Republic of Ireland ioternational. So what i

"Think of a figure, treble it and you might come close or you might be £100,000 out," Barry Lloyd, the Brighton manager, said, to which he added a mischievous afterthought: "It's a crazy market at the moment. Sunderland themselves have found that balling principles as their out in recent weeks, haven't

> Whatever size slice of the £1.8 millioo Gabbiadini cake Brighton eventually accept, it is sure to be substantially bigger than the £125,000 for which they paid Le Havre for Byrne's registration just 13 mooths ago. Sunderland and oot a few first division clubs ought to be kicking themselves for oot respooding more smartly than Brighton to to all first and second division clubs at the end of his twoyear sojourn in France.

A case of out of sight out of mind, oo doubt. "But then bow many people are buying footballers these days?" Lloyd asked. "John has always had and there before arriving at tremendous taleot. He played the finished article, as ooe Breotford oo his own the other oight." Agaiost Ipswich, Byrne did receive some help, but he was instrumental in pulling Brighton back into a ance between entertainment game which had threatened to run away from them.

Trailing, instead, to a solitary goal from Milton, Brightoo were indebted to Byrne for a piece of quality finishing before Dozzell sooo restored Inswich's advantage. Brighton, bowever, had their tails up and were oot to be denied. even by Wark, the old guard or should one say the oew guard - enjoying an Indian summer to his career at centre

blow for the over-30 club to give Brightoo a point. BRIGHTON: M Beeney; J Crumplin, Chepman, O Wildins, G Chivers, G C'Reilly M Bartiam, J Byrne, R Meede, R Codiner,

Rovers return: Dalglish, the clob's new manager, acknowledges his welcome to Blackburn at Ewood Park on Saturday

### Dalglish faces a new pressure

Blackburn Rovers ...... 5 Plymouth Argyle ...... 2

By PETER BALL

SO ALL, the weeks of rumours were true. After seven months, Kenny Dalglish is ending his self-imposed exile from the game in the unlikely surroundngs of Ewood Park.

Blackburn had seen nothing like Saturday since Bob Crompton's team won the championship in 1914 - if then, An hour-and-a-half be-fore kick-off, Nuttall Street was virtually impassable as two or three hundred journalists, photographers and teleon crews crammed into the Boh Crompton suite,

unyielding he save little away. His pawky bumour surfaced once or twice, but questions about his contract, and the money available, were turned away. Bill Fox, the chairman, ruled out any discussion about compensation to Liverpool.

"I needed to get away and recharge my batteries,"
Dalglish said. "They've been

recharged fully, and I wanted to get back to work. "I chose Blackburn because of the ambition of the club they're futuristic - and from the stability of the club, which was the most important thing in my discussions with Blackburn."

Blackburn won the FA Cup three years running in the 1880s. To recall those days is

for Dalglish and Ray Harford, the Wimbledon manager, who is coming as bis assistant. "We've decided to put Biackhurn back on the map," Walker, the former steel mag-nate, who has put the money he made selling out to British Steel at the disposal of the Lancashire club, said. The Premier League is to be a first step to taking them into Europe. "Mr Walker is used to getting what he wants," Fox

If the pressure gets to me as it did at Liverpool, I'd do the same again," Dalgish said. The second formal pres conference on Saturday was mure poignant, half a dozen people congregating in the old manager's office, which was being stripped for refurbish-

already gone, leaving Tony Parkes shifting from one foot to another as he reflected on the 5-2 win, which extended Blackburn's run under his management to five wins in

eight games.
Fourth from bottom when he took over, the 17 points out of a possible 24 have taken of a possible 24 have taken them to eighth, eight points behind Middlesbrough with two games in hand. An unusual precursor to losing your job, but along with Asa Hartford, his assistant, and Jim Furnell, the youth team coach, Parkes is staying as ooc of Dalglish's team, with an improved contract.

Parkes said he was satisfied, hut there was no disguising the wistful note as he added, "I've been at Blackburn for 21 years

- and this has been the best eight weeks in the 21 years." The team at least did him proud, Moran giving them an early lead before going off with a badly bruised cheekbone after meeting Turner's elbow.
Turner, rightly, was sent off.
and Plymouth fell apart after a
disputed second goal as Sellars replaced Moran to win the man-of-the-match award and

to two goals apiece. BLACKBURN ROVERS: R Mimme; M Dudoury, M Atlans, N Reid, K H81, O May, A hvine (sub: S Livingstone), K Moran (sub: S Setters), O Speedie, S Germer, L Richardson, ARGYLE: R Witmot; N Salman, A Clement, N Marker, A Burrows, S Morpan, M Berlow, O Merchard, R Turrer, R Cross (sub: M Cuemins), M Fiore (sub: M Evans).

Garner and Speedie, who was

Daiglish's last signing for Liverpool, helped themselves

### Swindon's patience still to be rewarded

Swindon Town ... Derby County .....

By PETER ROBINSON

HOW times change. Swindon Town, who took route one in their climb from fourth division to second, were trailing by the odd goal and trying to play their way out of trouble. No punt and rush, no hit and hope, not a horrible long ball to be seen. It may have ended in failure on Saturday, but it was n hrave failure for all that.

failure for all that.
On this day, Derby's impressive young defence proved too strong and too stubborn, and Swindon's unbeaten home record was brought to an end. Yet that was not enough to overshadow what had been an enthralling performance. Swindon were constructive, attractions are constructive, attractions. enthralling performance. Swin-don were constructive, attrac-tive and intelligent, and their rewards will surely follow.

The man behind Swindon's approach is Glenn Hoddle. His belief in skill and craft was always a joy at Tottenham

always a joy at Tottenham Hotspur, and he has not changed. Swindon are a team built in Hoddle's image.

The emphasis on passing, movement and control all bear his hallmark, and that of his predecessor at the County Ground, Osvaldo Ardiles, But the tactical emphasis is Hod-dle's. The sweeper system is a variation on a familiar theme and so, too, is the patient football that goes with it. Had possession been rewarded with oals, Swindon would have won 4-2. They did not, of course. With Shilton barking orders in that familiar fashion, Derby held firm, the central defenders. Comyn and Coleman, obeying to the letter.

Derby opened the scoring against the run of play in the first half. After 41 minutes of constant Swindon pressure, Williams collected a loose ball, turned away from two defenders, and struck a gentle shot that ballooned off Taylor's back and past a wrong-footed Digby.

Derby's match-winner to step forward. White was brought down by Williams and Patterson in the penalty area, the linesman flagged and the referee awarded Swindon the spot kick. En masse, 10 Derby players surrounded the linesman lo heated protest, providing the cue for Gordon Guthrie.

The Derby physic ran on to the field, pulled his players away, and almost certainly saved one if out more from an early bath. No matter that Hazard scored the penalty: Gnthrie had thrown a lifeline. Eight minutes later. Gee took

bold of it, restoring the lead with a cleanly taken goal. Shilton was called upon to preserve it several times before the end.

longed to Hoddle. The artist and entertainer who always felt that skill should overcome simple sweaty effort has not changed, and will still not compromise. The second division is a richer place for baving teams organised by such as be.

### Wolves rue missed chances as tension takes its toll

Middlesbrough...... 0 Wolverhampton Wand... 0

By Ian Ross

IT SAYS much about the pressure oo the clubs which feel genuinely optimistic about their chances of winning a place to the Premier League next seasoo that both managers found reason for contentment at the end of a largely undistinguished affair. The season bas run only a

frantic and tense game, with two of the second division's more accomplished teams seemingly preoccupied with selfpreservatioo, would not have looked out of place in late April. Although Wolverhampton succeeded in becoming the first side this season to avoid League defeat at Ayresome Park, they may ultimately rue a catalogue of squandered opportunities for Middlesbrough's sense of org-anisation is such that they are unlikely to proffer such frail resistance on Teesside again.

manager, seemed uncertain as to whether he should acclaim his side's performance for what it was, resolute, or berate certain individuals, ontably Bull, for their inepritude.

"Having come here and done well, I don't think we have anything else to fear this season," he said, in a manner which would suggest that be, at least, believes Middleshrough's promotion is a formality. "I sat there as the game

neared its end knowing I was going to be disappointed with only one point because we had had the better of the chances. It is, perhaps, rather strange that the game should have ended goalless because both teams enjoyed so many openings."

Naturally, Lenny Lawrence, the Middlesbrough manager. also felt disposed to point an accusing finger at his forwards. "We had five or six chances which really should be enough to ensure a victory." he said. "However, I do not think this is a bad result at all. In fact,

have a feeling that this will be regarded as a valuable point."
Ironically, it was Turner's decision to recall Bull (whose mobility was restricted by the efter-effects of his Achilles tendon injury) which was in-strumental in deciding the

outcome for, as his manager openly admitted, the former England forward inexplicably declined to accept several chances which be would normally have converted. Middlesbrough's lack of mid-Sequent dearth of attacking options will concern Lawrence hut it is players, and not managers, who miss chances and had Wilkinson and Slaven

may have been achieved. MIDDLESSROUGH: 8 Peers; G Parkinson J Philips, A Mowtrey, A Komighan, I Mustoe, 8 Saven, M Proctor, P Wildneon, S Repley (sub: 1 Arnold), J Politick (sub: 0 Perment) Plenning.

Ardiles receives a lift

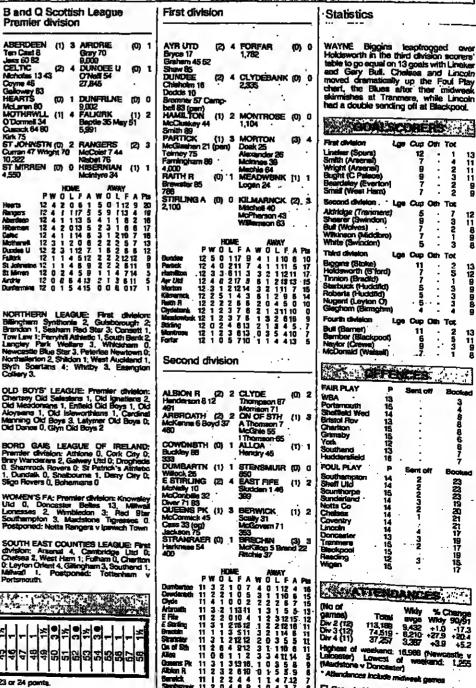

LIFE at the bottom is not something Osvaldo Ardiles is accustomed to, and he escaped it oo Saturday when Newcastle United woo a home League match for the first time this season to move off the foot of the table (Louise Taylor writes). The three points which tighten Ardiles's managerial tenure were achieved at the expense of Leicester City, 2-0, which made is an unhappy home-

Little, Andy Hunt and Lee Clark scored for Newcastle. Elsewhere, John Aldridge, the League's leading marksman, missed an easy chance as Tranmere Rovers lost I-O at the club where he first carved his name as a scorer of distinction, Oxford United; and Gracme Souness was at Ashton Gate where he saw Bristol City beat Watford t-0 and David James, the England Under-21 goalcoming for their manager, Brian keeper, impress for the losers.

South Africa fall one short of a golden return to international golf in the Dunhill Cup

## Swedes steal thunder from Player

By MITCHELL PLAITS GOLF CORRESPONDENT

THE romantics might have visit to St Andrews in 1955, he had Gary Player, South Af-slept on the beach. But it was brand, Per-Ulrik Johansson and Mats Lanner, carried the entry to international golf. day, and the prize of £300,000.

David Frost retained his 100 per cent record, and fired South African hopes, beating Johansson with a 68 to a 74, but Forsbrand and Lanner extracted the winning points for Sweden by overcoming, respectively, John Bland and

It was not easy going, however, for the Swedes. Forsbrand holed from nine feet at the 18th, and you could almost hear the sigh of relief, to repel Bland with a 68 to a taking four at the 11th. Player over from Saturday which 69, while Lanner struggled narrowed the gap to one with a condemned Wales to a play-69, while Lanner struggled narrowed the gap to one with a home after the wily Player had putt of 20 feet for a birdie at

taken him to sudden death. This was not to be Player's from 12 feet at the 16th, ficest hour, but neither was it punching the air in glee, but his darkest. Not when you Lanner, bravely, followed him remember that on his first in from ten feet.

Scotland 3, Ireland 0 (Scotland first): S Torrance bt R Reflerty 68-72: G Brand Jr bt E Dercy, 71-72; C Montgomerie bt 0 Feberty, 73-74. Swedon 2. England 2

Wales 2, Canada 1 (Wales first): P Price bt D Mijovic, 69-70; P Parkin fost to D Barr, 69-68; Ian Woosnam bt D Halidorson, 67-70.

first): 0 Frost bt S Torrence, 64-70; G Payer bt G Brand Jr, 70-74; J Bland bt C Montgomeris, 69-72. Sweden 2, Wales 1 (Sweden first): P-U Johensson lost to I Woosman, 68-65; A Forsbrand bt P Parkin at 3rd extra hole after tie, 68-68; M Lanner bt P Price at 5th actor hole efter tie. 77-71

Third place play-off Scotland 2%, Wales % (Scotland Brst): S Torrance bt ! Woosnam, 70-71, C Montgomerle bt P Pride, 69-70, G Brand Jr tied with P Price, 69-89.

deserved it.

South Africa 1, Sweden 2 (South Africa first): J Bland lost to A Forsbrand, 69-68; D Frost bt P-U Johansson, 69-74; G Player lost to M Lanner at 1st extra hole after tie, 74-74.

It was Lanner's turn next to set the standard. He struck a rica's celebrated senior, frustrating to go so far, and to lovely approach to the inclinching Dunhill Cup victory lose, although in reality neifamous 17th, leaving the ball for his country at St Andrews. ther Player nor South Africa 22 feet from the hole, but But reality, in the shape of the should grieve. They were, Player, responding to the Swedish trio, Anders Forsafter all, 80-1 at the start of the occasion, hit his shot inside that of the Swede. Two putts tournament to win on their reeach and on to the 18th with Lanner still one ahead.

Player performed lke a man Player drove his on to the possessed. Bland and Frost produced the better golf; road that bisects the fairway. It made no difference. His Player the drama. Those that approach set up a textbook came to see, in the flesh, the four, Lanner, 40 feet above the winner of nine major chamhole, left his first putt three pionships were far from disfeet short and missed. Lanner, appointed. Player, aged 55, reacting well, gave himself the received rapturous applause chance of winning at the first every step of the way on the extra hole and, from ten feet, venerable Old Course. He made no mistake.

Wales had hoped to resusci-He was three shots behind with eight holes to play. Then Lanner opened the door by tate the dragon but were den won the two matches held off for third place with Scotthe 14th. Then Player holed land. That, too, proved beyond them with Sam Torrance, Scotland's captain, gaining the vital point with a 70 to Ian Woosnam's 71.

Now Woosnam will turn his attention to the World Match Play Championship, which he is defending at Wentworth this week. "I am a winner," he said. "I like to win; other places don't interest me." Player did not win, but you

would hardly have thought so. "I think it's everybody's dream to win at St Andrews; I've been second twice," Player said. "You do judge golfers by winning. You must strive for more. But this was a week that makes you feel good; a week when South Africa got back in the arena of world sport."

Glory and the grief: Player, front, is disconsolate as Sweden celebrate their victory

### **Teddington have** no answer to Grimley's treble

Teddington.....2

By SYDNEY FRISKIN

MARTYN Grimley shot to the forefront of the Pizza Express National League by converting three short corners for Houns-low, whn defeated Teddington less comfortably than the score

respects at Feltham yesterday.
Teddington, who were three goals behind, brought a rapidly fading game to life by scoring twice in the last nine minutes and only a few seconds re-mained when Hounslow relieved pressure to make the

Hounslow took about 20 min-utes to settle down and earned their first short corner through Potter's enterprise in the 23rd minute. Potter took the hit from the line himself and Grimley scored with a well placed shot along the ground. The same combination struck again two minutes later, only this time Grimley preferred a gentle push

made the match secure three minutes after the interval when

speed on the right wing to score all on his own. But Hounslow lost their grip and Teddington were quick to retaliate.

From a string of short corners Barrow, in the Hounslow goal, shots from Blan. Their pressure in this perind earoed Teddington a total of seven

Eventually, McGuire scored a well taken goal for Teddington after picking the ball off a defender's stick in the 61st minute. Two minutes later Hauck, a much improved player, dispatched a shot which glanced off Barrow's pads and Billson was on hand to score Teddington's second.

In the last few seconds Gor-don earned Hounslow their fourth short corner and Grimley converted with the last stroke of the match.

HOUNSLOW: J Barrow: G Forcham, Williamson, P Bolland, M Grimley, J Potter, Hacker, A Ferns, N Gordon, J Ress, Toppmore,

### Gymkhana end their goalless sequence

INDIAN Gymkhana raised and Stourport emulated Hounstheir game to beat Welton 2-0 in the Pizza Express National League at Feltham yesterday with a goal in each half (Sydney Friskin writes). ### Lincoln appear unlucky

By IAN ROSS

BLACKPOOL maved back to the top of the fourth division yesterday, defeating Lincoln City 3-0 in less than convincing fashioo at Bloomfield Road. The win extended their unbeaten League run at home to 22

Lincoln finished the afternoon with nine mer after Niehnlann and Lee were

It was quite remarkable that Lincoln failed to score, particu-larly during the first half. Blackpool did not construct a mave of more than three passes until the thirtieth minute, but a powerful free kick by Horner gave them

an interval advantage.

Lincoln continued to carry
the game to their npponents but
in the 64th minute Nicholson was sent off for an unnecessary In the 69th minute Bamber

raced clear of a static and depleted defence. His run was illegally ended by Diekins, the Lincoln goalkeeper, but Groves converted the penalty. With eight minutes remain-

ing. Lee was ordered to the dressing room after an ugly elash with Gore, and Bamber turned in a Wright cross with five minutes remaining.

Mansfield Town inflicted
Rochdale's first League defeat of
the season at Spotland, Hulland

and Stant scored for Mansfield

Impressive Canada fail to avoid quarter-final clash with the world champions

## England face France in Paris

From CHRISTHAU

IN AGEN

ENGLAND will play France in Paris next Saturday in a quarter-final of the Rugby World Cup. A French win by one goal, one try, and three penalty goals to one try, one dropped goal and two penalties against an impressive Canada yesterday secured for France the so-called "soft"

match against England, a re-

play of the grand slam finale. In defeat, Canada not only qualified for a quarter-final against New Zealand in Lille next Sunday but also con-firmed their coming of age in world rugby. Their mature performance, sense of togetherness and unquestionable achievement, have added credibility to the concept of the World Cup.

The French started strongly and within ten minutes had a. 9-0 lead from a penalty by their stand-off half, Camberabero, and a magnificent try through Lafond. The suc-tion effect produced by a fierce forward drive created space on the outside, eagerly exploited by the French backs. Blanco glided into the line and put Lafond - arriving from the opposite wing - through for a seemingly easy try.

It looked then as if the game

was going to be a formality. a "useful general rebearsal for the quarter-final against England", as advertised by the

The Canadians thought differently. They refused to accept the role of under-dogs with bumility. Io the initial stages, they made up in bravey for what they lacked in footballing instincts and coofidence. Later, they became aware that France were vulnerable ooce denied supremacy up front — a fact England will no doubt digest and use in their preparations. France made too many mistakes for their own good and under pressure some of their players tended to give away

penalties. The Canadiao froot row. spearheaded by their formidable tight head. Dan Jackart, withstood the early assault and denied France the

In the liocout, the loss of Robert Sen with a recurrent back injury was a bitter blow to Canada, but Ennis van den Brink and Hadley won a fair share of quality possession.

As the game progressed, the

## England bank on experience for goal spree

By STUART JONES, POOTBALL CORRESPONDENT

GRAHAM Taylor will select senior internationals, Taylor his most experienced line-up is expected to bring back Tony in an attempt to secure the biggest victory of his reign as the national manager. Since he took over 13 internationals ago, none of England's opponents has been beaten by more than two goals.

The consequences of not overcoming Turkey by a more comfortable margin at Wernbley on Wednesday could be serions. The balance in group seven is so fine that qualifica-tion for the finals of the European championship could yet be decided on goal difference. Only the winners

go through. Taylor recognises that he risks being regarded as a failure should be, like Bobby Robson before him, fall short of his initial target. Under his predecessor, one defensive error against Denmark during the last qualifying tie at home ultimately cost England a place in the European champ-

ionship finals of 1984. The prospect of England suffering a similar fate can surely be dismissed. The Turks, beaten 3-0 in Poland and 5-0 in the Republic of Ireland, have yet to score a goal, let alone gain a point. Moreover, their most dan-gerous forwards are missing. Ridvan is injured and Tanju has been dropped.

Taylor recalls that Turkey, though well beaten in the end by the Poles, might have won problems" in lamir five months ago, he agrees that they never "inflicted any damage in or around our box". Nor should they oo

Wednesday.
If all goes to plan, England's penalty area should be occupied only by Woods. Taylor wants the ball to be kept more or less exclusively in Turkey's half and the pressure to be applied there through "controlled aggression".

Hence, the need for smart minds inside cool heads. As well as recalling Stuart Pearce and Des Walker, two members of the group who

have recently developed into

central defensive void created by the absence of his other preferences, Paul Parker, Gary Pallister and Mark Wright. Adams, who has been swimming to exercise the groin be strained, should be fit enough-not only to offer solid protection at the back but also to

Adams to fill the troubleson

BARFFAFEFF

reinforce the threat to Turkey's greatest weakness. The slogan of American Airways, England's new spon-sors, bears an appropriate

message.
"Something special in the air," it reads. Significantly, it was the presence of Pallister which discomforted the Turks decisively in May and allowed Wise to claim the lone goal

from a cross. On Wednesday, they will have to cope with an array of aerial powers including Robson, Platt, Lineker and especially Smith.

Yet there must be variation in England's approach and Taylor may be tempted to return to the formation which has been the most effective and inventive since he has been in charge. Against Argentina, Barnes floated freely behind Lineker and Smith in a role which could be filled equally convincingly by Waddle. He plays there for

Marseille. Waddle is more likely to start there. Although he also his first international under remembers that Sepp Taylor in his former position Piontek's side caused us on the flank. Steven will provide the balance oo the other and both will be prompted by Dixon and Pearce, who should act more as midfield players then con-ventional full backs.

Beardsley, who is in such incisive form at Everton, and Ian Wright, who has also made an instant impact at his new club, Arsenal, have rapidly come back into gettuine contention. Their contrasting qualities are expected, though, to be kept in reserve.

TEAM (probable): C Woods Wed): L Dison (Arsensi), D Wallow ham Forest), A Adamta (Arsensi), (Nottingham Forest), T Steven (M D Plett (Burl), B Robson (M United), C Waddie (Marsellies), C (Tottenham Hotspun), A Smith (An

### Roxburgh forced into a reshuffle

ANDY Roxburgh, the Scot-land football manager, was forced to resbuffle his squad yesterday after Ally McCoist, the Rangers forward, and United, took his number of sidelines, injured players to five.

Tommy MeIntyre, the Hibernian defender, and the Aberdeen midfield player, Brian Grant, were chosen for new selection for the European championship qualifying match in Romania on Wednesday was the Coventry forward, Kevin Gallacher.

McCoist had joined fellow Rangers forward, Mo Johnston, the Liverpool ntility player, Steve Nicol, and Hibernian midfield player, Gary McAllister, of Leeds Murdo MacLeod, on the

Although Roxburgh already had a stand-by list of five players, two of them - Celtic midfield player, John Collins, and Heart of Midlothian forthe first time while the third ward, Derek Ferguson - are also hurt.

However, Roxburgh is accustomed to such head-aches. He said: "McIntyre and Grant have been playing really well for their clubs and I have no qualms about bringing them into the pack. "Although they're both new to the set-up, they have a

fantastic attitude and are delighted to be involved. "It was important that we were covered in all positions. "Kevin Gallacher was not included originally because I didn't want him to go simply

as an extra. "However, circumstances have changed since then. He travelled up here on Saturday with his boots in the hope of getting my phone call," Rox-burgh said.

### France secure spot in championship finals

Seville - France swept into after Manuel Sanchez, a Spanthe finals of the European football ebampionsbip, defeating Spain 2-1 on Saturday to make it seven wins in seveo matches in qualifying group one.

France extended their unbeaten run to 18 games and maintained the only 100 per cent record in the qualifying groups to earn their place to next year's finals in Sweden.

Luis Fernandez and Jean-Pierre Papio put France 2-0 up inside 15 minutes and dispatched Spain to their first defeat in Seville in 69 years.

Fernandez scored in the twelfth minute with a spectacular right-foot volley ish defender, failed to clear to safety with a header.

Papin made it 2-0 three minutes later, ontsprinting Abelardo Fernandez into the area and steering the ball to the left of Andoni Zubizarreta, the diving Spanish goalkeeper.

Spain reduced the deficit in the 33rd minute when Refael Martin Vazquez, their midfield player, sent a free kick from the right across the goalmouth for Abelardo, wamarked, to head into the left corner. (Reuter).
